

OVER THE STATE.

NEBRASKA NEWS AND NOTES. JOSEPH V. WEEKBACH, a prominent citizen of Plattsmouth, died last week. A CAMP of Modern Woodmen has been organized at St. Edward with twenty-six members. The magnificent pipe organ ordered for Christ church, Beatrice, is expected to arrive in a few days. OVER OVER ONE HUNDRED persons have been converted at the revival in progress at the Methodist church in Hastings. A SEPARATOR and 800 bushels of wheat belonging to Tobias Mack, a farmer near Stanton, were destroyed by fire the other night. THE corner stone of the new Catholic church at Spaulding was laid Sunday. Five priests were present and assisted in the ceremonies. J. G. LADD of Beatrice has purchased of Nat Bruen of Burlington, Ia., the noted stallion Lobasco, record 2:21. The consideration was \$15,000. COLLECTOR ALEXANDER at Omaha directed that the flag be raised at half-mast on the postoffice building as a tribute to the late Justice Miller. MISS MARY PUGH, a young teacher near Majors, was quite seriously hurt in attempting to jump from a wagon drawn by a runaway team of horses. WILLIAMS & HASKELL of Paxton have received 675 head of cattle from Colorado lately and they will feed the same in McPherson and Arthur counties. THE general merchandise store of Ware & Pratt, at Prosser, Adams county, has been closed by creditors in Omaha. Liabilities, \$3,500; assets unknown. LOU SCHEIDT, who was so badly injured by falling from the window of a hotel last June in Omaha, is still improving. His recovery is almost miraculous. A LIVE stock exchange has been organized by the commission men of Nebraska City. Edward Sheldon was elected president and Carl Morton secretary and treasurer. Last week Gov. Thayer received a draft for \$1,450 from the government for the use of the soldiers' home. This money is the government's quota for the quarter ending October 1. THE medal black bird contest of Franklin county between the Riverton and Campbell teams was shot at Riverton last week and resulted in favor of Riverton by a score of 76 to 54. THE Neligh Tribune says that the Antelope county fair was a failure on account of lack of interest from exhibitors and patrons. The paper advises the abandonment of the fair in future. MORE than a score of years ago "Pap" Ayers traded a yoke of cattle for two town lots in Beatrice. He sold the half of one the other day for \$3,000, and the other seventy-five feet for \$7,500. THE volunteer department of Beatrice indulged in a tournament consisting of races, hose company ladder climbing, etc., for a prize of \$50. Hose company No. 5 of the West Side was the victor. E. D. HENDRICKS of Grand Island, a brakeman on an extra west-bound freight on the Union Pacific, had his hand crushed at Kearney in making a coupling. The wound may necessitate the amputation of a few fingers. THE Christian church at Sterling was dedicated last Sabbath, Rev. Robert Rains of Topeka officiating. The building cost \$2,200. Half of this was raised during the services on Sunday and the church is now clear of debt. TOM RYAN, a switchman in the Union Pacific yards at Omaha, broke his right leg the other day. He was attempting to climb to the top of a box car when one of the rounds broke and he fell to the ground fracturing his leg. THE crops in the section about Syracuse will yield much more per acre than was anticipated, consequently the farmers are not so downcast as they were a month ago. Corn will make from twenty to twenty-five bushels per acre. WHILE working under a freight car at North Platte, Richard Censor was killed by an engine which unexpectedly backed down and moved the car. Censor had been in the Union Pacific's employ for twenty years and was sixty years old. At Dakota City Albert Bryant was arrested for shooting a cow belonging to Mr. Pizey of that place. Bryant, it is claimed, has been in the habit of shooting cows whenever they broke into his cornfield and this time he shot to kill. FIRE broke out in a livery stable in the south part of Liberty, and in one hour the stable, wagon shop, a fence factory and the Masonic hall were all burned to the ground. The loss is about \$5,000, partly insured. Cause unknown. THE continued rainy weather was unfavorable to good attendance at the Blaine county fair. The entries, however, were large, and the ladies' departments and the poultry and stock exhibits were especially worthy of wider appreciation. THE coroner's jury investigating the death of Olaf Johnson, a workman killed in the Union Pacific yards at Cheyenne, found from the facts adduced that there was culpable carelessness on the part of the Union Pacific railway company, through its agents and overseers in neglecting to enforce the rules of the company, which exist for the protection of men when employed in repairing cars in the yards.

The community about Rising City was greatly excited the other night over a lost child of James Lemon, aged 3 years. It was found after several hours' search asleep in a corn field. The mother went into spasms and for a time was in a critical condition. A POCKET flue blew out of the engine attached to freight train No. 24 about three miles east of Atkinson while the train was going twenty miles an hour. Engineer McMonagle jumped and saved himself, but Juley Cunney, the fireman, was badly scalded and bruised up. OCTOBER 22 has been selected as the date for the log cabin raising at Morton park, near Nebraska City. It is intended to make this a great day for old settlers. Each member of the association is to furnish one log, the whole to make a monument to the old settlers of Otoe county. THE little boys of Frank Dailey of Brewster set fire to his sod stable covered with hay, and before he could extinguish the fire two mules were burned to death and a young cow was badly scorched. Dailey was also severely burned trying to save his property. THE case of Bishop Bonaucon of the Catholic church against Patrick Egan, minister to Chilli, for the collection of \$500 subscribed toward the erection of St. Theresa's church, in Lincoln, has been continued until the next term of court at the request of defendant's attorney. CONRAD LONG, a German farmer, who resided one mile north of Alexandria, was crushed to death by a west bound passenger train. The accident occurred while he was alighting from the train, and being seventy-six years old and under the influence of liquor, he missed his footing with the above results. RYE and other small grain in Blaine county looks well, as a result of abundant rains of the last few days, which will leave the land in good condition for spring work. The farmers feel encouraged over the future prospect, as they have concluded that they have had their hardest times and will have great prosperity in the future. GENERAL DENNIS of the internal revenue office last week made his report to the department at Washington, showing the value of the tax paid spirits on hand October 1 by all wholesale liquor dealers in Nebraska and the two Dakotas. This value is but \$113,823, a much smaller amount than that on hand at the same period last year. ROBERT DORGAN of Brewster had a valuable dog stolen last week by a party of movers. They were arrested and paid \$25 and costs for taking property not their own. They could have taken hundreds of worthless dogs, which would have cost them nothing and been a great relief to the community. DR. JOEL N. CONVERSE, one of the most prominent Nebraska pioneers, died in Lancaster county last week. He has been severely ailing for about a year with a complication of diseases, and his death is attributed by his attending physician, to Bright's disease. He was within two months of seventy years of age. THE crushed and mangled body of Edward Pasby, a drayman, aged forty-nine, was found wound around the break beams of a car in the Burlington yards at Lincoln last week. He had been dragged 500 yards, and his hat, belt and a partially emptied bottle of whisky were found scattered along the track. He leaves a wife and several children. THE citizens of Falls City claim that their water works have paid for themselves a number of times in the property that has been saved from fire. The water is pure and wholesome also. It is taken from wells north of the city. And as the dip or current of sheet-water underlying the city flows south-east, they have water as pure as sand can make it, nature's best filterer. TROUBLE arose the other day between the printers and publishers of the Kearney Daily Journal Enterprise which culminated in a walk-out, and the paper did not appear next morning. The difficulty arose over the discharge of the foreman of the press room and news rooms and a typo, both of whom have been employees of the office for a number of years. QUITE a serious if not a fatal accident befel a little son of Andrew Wilcox, living east of Tobias. He attended a baptizing at Tucker pool, and returning with some other boys, were racing their horses. The animal he was riding stumbled and fell, rolling completely over him. He was picked up for dead, but revived, and hopes are entertained for his recovery. THE will of Joel N. Converse of Lancaster county was read in the county court at Lincoln last week. The deceased bequeathed all his mining interests in California to his wife and children. His wife also gets a valuable lot, a fine farm, five horses, five cows, a buggy, and all the jewels and household effects left by the deceased. Mrs. Anna Converse of Chicago gets \$1,000. Two grandsons divide with the daughters of the deceased several quarter sections of land. THE state farmers' alliance has sent out a circular relative to destitution in the western part of the state. In it they say: 'The need for relief is urgent, especially for seed wheat and rye. Rye sown at once will afford great relief in the way of enabling the people to keep a portion of their stock longer than they otherwise would. It will also be seen that Mr. Holdrege offers to transport seed to the needy districts free. We have no doubt this liberality will be extended to other donations. We therefore urgently appeal to all who are more favored by crops this year to contribute fall wheat and rye and other supplies in aid of the stricken region.' Such contributions will be forwarded by the Burlington & Missouri road to J. F. Black, chairman relief committee, Indiana.

TO CUSTOM OFFICERS.

A CIRCULAR ON THE IMPORTATION OF CATTLE. Execution of James Maxwell at Morris, Ill., for the Murder of Charles Decker—He was Game to the Last and Died Apparently Unconcerned—The Custom House Receipts to Show Heavy Imports—The Destitute in South Dakota. Meat Cattle Importation. WASHINGTON, Oct. 18.—The treasury department issued a circular to custom officers on the subject of the importation of meat cattle. In pursuance with the meat inspection act it suspends the designation of customs ports and districts named as quarantined stations by the secretary of agriculture. By virtue of section 20 of the tariff bill it suspends the prohibition of the importation of meat cattle into the United States from any part of the world; provided, however, that the importation of such cattle must be subject to and made in accordance with the regulations prescribed by the secretary of agriculture for the quarantine of meat cattle arriving in the United States. By virtue of the same authority the prohibition of the importation of the hides of meat cattle from North, Central and South America is suspended, meat cattle from those countries being at present free from contagious disease. The hides of meat cattle from European countries in which the secretary of agriculture stated that contagious diseases of different kinds are known to exist more or less are prohibited unless the importers shall produce proofs of clearing showing that the hides were thoroughly disinfected prior to leaving the foreign country and that they are free from infection of any kind. SWUNG OFF WITH SANG FROID. MORRIS, Ill., Oct. 18.—James Maxwell was hanged here yesterday for the murder of Charles Decker in June last. He was game to the last and died apparently the most unconcerned man in Morris. Maxwell was the coolest man in the place. Last night, when the sheriff showed some signs of trepidation at the task before him, Maxwell said: "Brace up, old man. You're much more troubled over this thing than I am." He slept well and ate his breakfast with apparent relish. His spiritual advisers received a severe shock when they went in to administer the last words of consolation to him. An enterprising reporter had been before them. He had assumed the guise of a minister with the idea of getting an interview. He failed, for when the newspaper representative began to question him as to his spiritual welfare, Maxwell threw off the religious mask which he had hitherto worn and drove his visitor from him with a string of curses of the most sulphurous sort. When the sheriff began to read the death warrant in a trembling voice, Maxwell interrupted with: "Stop that gob, Schroeder, and let us get through with this thing as soon as possible." His wish was complied with and he was at once conducted to the gallows. A brief prayer was offered, the prisoner was pinioned and the noose adjudged. The sheriff asked him if he had anything to say. His reply was a complaint that the sheriff had put a window in the shanty where the execution took place so that the crowd outside could see him. The sheriff then cut the cord and the body fell. In six minutes Maxwell was pronounced dead. Just before leaving the cell Maxwell handed the sheriff a big knife, telling him that he might have killed himself half a dozen times had he wished to do so. EXPECTED TO SHOW HEAVY IMPORTS. WASHINGTON, Oct. 18.—At the treasury department it is expected that the custom house receipts for the month of September will show extraordinarily heavy imports of farm products, especially of barley and wheat from Canada in anticipation of the McKinley tariff bill. The receipts at the custom house at Port Huron, Mich., are usually from \$20,000 to \$25,000 a year. During the month of August they aggregated nearly \$100,000. Most of this was collected from barley. No stronger argument could be made from the farmers' standpoint in favor of the new tariff than this statement. In view of the short crops of this season no one could calculate the amount of imports there would have been of farm products had the duty upon these articles been increased. Without the resulting increase of prices there would surely have been a financial panic among the farmers. SOUTH DAKOTA DESTITUTION. CHICAGO, Oct. 18.—Mayor Cregier received today a lengthy appeal signed by A. C. Bartlett, J. H. Lewis, E. M. Piper, Samuel Johnson and B. Cummings, representing the towns of Greenfield and Braynard, S. D. They say the crops of Brown county have been a failure the past three years and that the people are absolutely without food, fuel or clothing, and ask the mayor to appeal for aid in their behalf. The mayor will receive contributions. FARMERS' ALLIANCE STOCK YARDS. KANSAS CITY, Mo., Oct. 15.—An intended extension of its business by the farmers' alliance of the southwest was discussed to-day when it was learned that they were about to establish an independent stockyard in Kansas City, Texas, Nebraska and Iowa are back of the scheme. Fifty acres of land ad-

joining the present stockyards is the site of the new yards. By maintaining their own yards the farmers believe they can save much money by marketing cattle by doing away with the commission men and a great part of the other expenses. JUSTICE MILLER'S SUCCESSOR. WASHINGTON, Oct. 16.—Speculation as to the successor of Justice Miller of the supreme court has already begun. Senator Spooner, Judge Gresham, Senator Manderson, Attorney General Miller, Senator Teller and Ex-Solicitor General Phillips of North Carolina are suggested and discussed as likely to be considered. It is generally believed that Spooner, Gresham and Miller are the most likely men for the place. Manderson, who lives in the circuit, is spoken of as an excellent selection and a young man who would be likely to have a long term of usefulness. Teller also lives in the circuit and is spoken of as possible, but not probable. Samuel M. Phillips of North Carolina, formerly solicitor general, is mentioned as about the only southern man likely to be considered. He is an able and cultured man and a fine lawyer and would do honor to the position if the president desires to go south for a selection. NATIONAL CAPITAL NOTES. The population of the state of Kansas is 1,423,485; increase, 427,389. The secretary of state has received a cablegram from the United States minister to Paraguay, announcing that John Stewart, consul general of that republic to the United States, has been appointed to represent Paraguay on the board of commissioners of the International railroad. Major General Miles, U. S. A., has been detailed as a member of the commission created by the act of congress, approved August 13, 1890, to negotiate with the northern band of Cheyenne Indians on the Tongue river reservation, Montana, and with the band of northern Cheyenne Indians on the Pine Ridge reservation, South Dakota, for such modifications of the treaty and other rights as may be deemed desirable. Secretary Windom has issued regulations governing attorneys and agents practicing before the treasury department. One of the regulations says that any attorney or agent delivering over to another party, upon the pretext of a transfer or assignment of an interest, as collateral security or otherwise, a draft placed in his possession, in pursuance of the new regulations, will be denied the privilege of prosecuting claims before the department. At the meeting of the supreme court of the United States on the 14th the chief justice and all the associate justices, except Mr. Justice Field, were present. The chief justice said: "It is with feelings of profound sadness that I announce the death of the senior associate justice of this court, Mr. Justice Miller. No business will be transacted, and the court as a mark of respect to the memory of its eminent associate, will adjourn until Monday next." The count of Paris has come and gone again without seeing either the president or Mr. Blaine, which, his friends claim, is due to his delicate sense of propriety and his desire not to involve this government in any complications with the republic of France. But there would have been no hesitation on the part of either the president or Mr. Blaine to accord the count all the courtesies due a foreigner who had served so gallantly in the war for the union. THE Ohio Legislature. COLUMBUS, O., Oct. 16.—The state legislature convened in extra session yesterday, and after the reading of the call the joint committee waited upon the governor, who submitted a message. His message was read and referred to the judiciary committee and a recess taken until 2:30 in the afternoon. The message sets forth that the session is called because of the deplorable condition of the public service at Cincinnati and for the purpose of securing necessary legislation to give the people an opportunity to select members for certain boards at the November election. He says it is unnecessary to enumerate the charges of crookedness which have been made, concerning which the majority of the members are informed. The message says the time has come to adopt a new charter for Cincinnati as already proposed. APPOINTED CORN CATERER. WASHINGTON, Oct. 17.—Colonel Charles J. Murphy of New York has been appointed special agent of the department of agriculture in Europe, for special duty in regard to the use among Europeans of corn and corn products and to present to Europeans the availability of the cereal for human food purposes. Secretary Rusk believes that a proper understanding of the edible value of corn in its many attractive forms would greatly increase its use among the people of Europe for this purpose, whereas at present its use is confined to cattle feeding purposes, with the result that but a very small per cent of the crop was exported. Colonel Murphy labored earnestly to secure an American corn exhibit at the Paris exposition, and more recently has conducted a similar exhibit at the international exposition at Edinburgh. His work has been quite favorably commented upon by European journals. Delegates representing the engineering societies of the United States and Canada, at a meeting in Chicago decided to call an international congress of engineers in Chicago during the world's fair. A committee was appointed to notify the secretaries of all foreign countries. A syndicate headed by Robert Benner and H. B. Claffin have purchased the new town of Bridgeport, Ala.

A DISASTROUS FIRE.

THE LELAND HOTEL AT SYRACUSE, NEW YORK, BURNED. A Number of Lives Lost and Some of the Inmates Yet Unaccounted For—"Soldierly" Ceremonies to Be Held Over the Grave of General Belknap—Remains of Justice Miller to be Buried at Keokuk—Faith Cure vs. Climate. Twenty-five Lives Lost. SYRACUSE, N. Y., Oct. 16.—What proved to be the most disastrous fire that has visited Syracuse for many years was discovered in the Leland hotel at 12:30 o'clock yesterday morning. An eye witness of the fire says he is positive that at least twenty-five persons lost their lives and many more injured. One woman was being lowered from a window by the aid of a rope. She had reached a point opposite the third story, when the rope became ignited from a burning sill, the rope parted and the woman fell to the pavement, her brains being dashed out and her body flattened into a shapeless mass. So great is the confusion and excitement that the identity of those killed and injured is wholly unknown. Undertakers and ambulances are flying in all directions and the streets in the neighborhood of the ill-fated hotel are thronged with excited crowds of people. Frank Carr of Glen's Falls, N. Y., has been identified as one of those burned to death. Many people, crized with fright, lost their lives by jumping from the windows. One man says he saw six people jump from different windows on the Fayette street side of the building within the space of four minutes and the sight sickened him with its horrors so that he was compelled to leave the spot. The building was provided with both iron fire escapes on the outside and ropes on the inside, which were the means of saving many lives. Burnet Forbes, a stock broker of this city, escaped into the street almost entirely naked. He was slightly injured about the hands. One woman was found with a babe in her arms crouched in a doorway, where she had been overcome by the smoke. She was removed by a fireman, but has not yet regained consciousness, and it is impossible to say what her name or experience was. The fire is said to have started in the kitchen. The building will be a total loss. It was built two years ago at a cost of \$150,000. It was six stories high and contained 400 rooms. It is impossible to learn how many guests were in the hotel at the time the fire broke out. The total loss will not fall short of \$500,000. Among those injured is Cora Tanner, the actress, who was severely burned about the head and feet. She was playing an engagement at the Grand opera house and had a room at the hotel. General Belknap's Remains. WASHINGTON, Oct. 16.—There will be "soldierly" ceremonies over the grave of General Belknap and he will be laid to rest among his comrades at Arlington. On his breast will be the honorable badges of the Loyal Legion, Army of the Tennessee, Grand Army of the Republic and Crocker's Iowa brigade. The American flag long owned by the general will be laid on the casket and be buried with him. The flag of the Third brigade, Fourth division of the Seventeenth army corps, will also rest on the casket. Six non-commissioned officers from Washington barracks have been detailed by the war department to report at the residence and serve as body bearers, and the commanding officer at Fort Myer has been ordered to have six non-commissioned officers at the cemetery to serve as body bearers there. The honorary pall bearers will be Gen. Postmaster General Cresswell, General Grant's assistant secretary of war, General Bussey, assistant secretary of the interior, ex-Representative Kasson, Generals Batcheller, Bennett, Vincent, Senator Manderson, Hallett Kibbourn, General Boynton, General Veiburg, commander-in-chief of the Grand Army of the Republic, Colonel Well, commander of the department on the Potomac, Grand Army of the Republic, James Worthington, Joseph K. McCammon and two members of the Society of the Military Order of the Loyal Legion. The family of General Belknap is especially gratified at the many expressions of sorrow constantly being sent to them by friends of the dead general. In addition to those already mentioned messages of condolence have been received from Postmaster General Wanamaker, Secretary Noble and from members of his former regiment and brigade and Iowa soldiers in general. Justice Miller's Remains. KEOKUK, Ia., Oct. 16.—The body of Justice Miller, on its arrival here Saturday morning, will be taken to the federal court building, where it will lay in state until 2 o'clock, at which hour it will be borne to the Unitarian church. Torrence post, Grand Army of the Republic, Sons of Veterans and the Keokuk rifles will act as a guard of honor. All business will be suspended during the hours of the services and the buildings of the city will be draped in black. All the civil and military organizations, trades unions and the school children of the city will take part in the funeral procession. The governor and state officers, supreme judges of the state and the bar

of Judge Miller's circuit court will be present. Faith Cure vs. Climate. WASHINGTON, Oct. 16.—The British minister has transmitted to the department of state a letter from the government of Sierra Leone enclosing a report from Colonial Surgeon Ross, at Treewtown, regarding the case of the American missionaries, about whom various stories have been told. The party consisting of Mr. Kingman and wife, Miss Dick and Messrs. Helmeck, Jaderquist, Coddling, Tryce, (colored) Gates and Harris, arrived last February. They began at once to live in native fashion, hoping thus to gain the confidence of the natives. In July Kingman informed Surgeon Ross that Gates and Harris had died. No doctor had been summoned because the whole party were strong believers in faith cure. Dr. Ross, on investigation, found that their deaths were caused by tropical fever, an extremely malignant disease. Mrs. Kingman was found to be in the last stages and she died despite his efforts to save her. He removed Tryce to the hospital, where he eventually recovered. Kingman came down himself, but refused to receive medical aid until the doctor threatened to isolate the house and send the rest of the party back to America on the ground that they were dangerous to the community. He then consented to be treated and recovered. Dr. Ross is informed that the remainder of these missionaries intend going due east into the interior, guided only by compass. In view of these facts and a statement in the Missionary Review that another party of missionaries are expected, the governor of Sierra Leone calls attention to the matter. "As the climate is not suited to those who trust alone to 'faith healing' and ignore the means placed by providence at their disposal for the relief of suffering humanity, and as such is a danger to the community at large."

A Peculiar Pardon. MONTGOMERY, Minn., Oct. 17.—An attempt was made here last night to lynch Thomas O'Connor. Two weeks ago Governor Merriam pardoned O'Connor from the state prison at Stillwater, where he was serving a life sentence for the murder of Harvey Pratt, his nephew, at Lesner Centre. The governor placed the peculiar provision in the pardon that the prisoner should immediately leave the state and never to return. He went Monday to Iowa, but returned to Lesner county Monday night. Yesterday Pratt's friends organized to hang O'Connor, upon learning which the officers seized him and hurried him away to jail in an adjoining county. County attorney Everett, of Lesner is in conference with Governor Merriam by wire, and it is stated that O'Connor will be placed behind the bars at Stillwater today to remain there the rest of his days. General Crook's Permanent Resting Place. WASHINGTON, Oct. 16.—The widow of General Crook is in Washington the guest of Lieutenant Brown of the navy. She comes here for the purpose of selecting a site in the cemetery at Arlington for the burial of her husband, whose body was left temporarily to rest at the little cemetery at Oakland, Md. Mrs. Crook has selected one of the beautiful knolls overlooking the Potomac, near where General Sheridan lies, and it is her intention to bring the remains here before cold weather sets in. A design for a monument to General Crook has already been selected and will be placed in the hands of a sculptor very soon. THE Oklahoma Capital Question. GUTHRIE, Oklahoma, Oct. 17.—The capital site was taken up again in the legislature yesterday. The Kingfisher and Oklahoma City delegates managed to rush through to a third reading the bill locating the capital at Kingfisher before the Guthrie men were aware what was going on. Then, after a terrible uproar, the Guthrie delegates resorted to filibustering and are still holding the fort. Trouble is expected. A head end collision occurred between two Union Pacific freight trains near Lookout station, Wyoming. Both engines were wrecked, but no one was injured. LIVE STOCK AND PRODUCE MARKETS. Quotations from New York, Chicago, St. Louis, Omaha and elsewhere. OMAHA. Wheat—No. 2, 84 1/2 @ 84 1/2. Corn—No. 2 mixed, 42 @ 43. Oats—Per bu., 40 @ 41 1/2. Barley—Per bu., 60 @ 61.
