915. Mary Lenart vs. Jacob H. Lenart, decree of divorce and custody of children to plaintiff.

RAILWAY FARES IN HUNGARY.

Workings of the Zone-Tariff.

[Topics of the Time in The Century.]

The "Zone-Tariff," as it is called, was put in operation in Hungary on the 1st of August, 1889. It has, therefore, but a brief experience to justify its practicability; but the results thus far have been so remarkable that its success seems to be assured. The method consists of a division of the territory of Hungary into fourteen concentric zones, Budapest, the capital, being the center. The first zone includes all stations within 25 kilometers—16 1/2 miles—from the center; the second, all more than 25 and less than 40; all the zones except the first, the twelfth, and the thirteenth are 15 kilometers, or a little more than 9 miles in breadth, and the fourteen includes all stations more than 225 kilometers from the capital.

The fare is regulated by the number of zones which the traveler enters or crosses during his journey. Reducing guildens to cents, the rate is 20, 16 and ten cents per zone, for first, second and third class passengers respectively. If one starts from Budapest and crosses three zones he travels, therefore, 55 kilometers, or about 34 miles; if he goes first-class, his fare will be 60 cents; if second class, 48 cents; if third-class, 30 cents. For local traffic, when the traveler does not cross the boundary of any zone, there are special rates; if he goes only to the nearest station, the charges will be 12, 6 and 4 cents; if to the second station from his starting-point, 16, 9 and 6 cents; if to the third station, the full rates of the zone are charged.

The greatest reduction, however, is in the long distance. The increase in the passenger traffic has been very great. For the first eight months of the new system the number of passengers carried was 7,703,876; for the corresponding months of the previous year the number carried was 2,891,332. It may be supposed that this increase was mainly due to the great reduction in long-distance rates. On the contrary, the gain is the largest in the traffic between neighboring stations. Of such passengers there were under the old system 255,000; under the new, \$4,367,586.

This vast increase of business has also been accompanied by a substantial increase of revenues.

The Latest and Best Cyclopedia.

The twenty-fourth volume of Aiden's Manual Cyclopedia has been issued. Though conducted in a quiet manner, this Cyclopedia is one of the great literary undertakings of the time. Something of its magnitude may be seen by the fact that the closing topic of the present volume is Montana. Sixteen more volumes will be required to complete the alphabet, all of which are promised within the year 1891. In the present volume, five states are treated: Michigan is given over 16 pages; Minnesota, about 13 pages; Mississippi, about 9 pages; Missouri, 12 pages; Montana, 10 pages. Mexico is also treated at length. Among the cities described are Memphis, Tenn., and the historic Memphis of Egypt; Meriden, Mexico, Milan, Milwaukee, Minneapolis, and Mobile. There are biographies of Mendelssohn and Meyerbeer, celebrated musicians; Michelangelo, artist; John Stewart Mill, political economist and philosopher; Hugh Miller, Christian geologist; Milman, the historian; Milton, the poet; O. M. Mitchell and Marie Mitchell, astronomers; Moliere, French poet and dramatist; Mommsen, the historian; James Monroe, President of the United States; and Montefiore, the renowned Jewish philanthropist. Among the important topics in other lines are Meteorology, Methodist Episcopal Church, Miasma, Michigan University, Microscope, Mind, Mining, Miracle, Missions, Mohammedanism, and Money. There are, of course, multitudes of others of perhaps equal interest. The matter is well brought down to date, and the illustrations are numerous and helpful. Paper, printing, and binding are good, and the prices, 75 cents a volume for cloth binding, \$1.00 for half Morocco, with easy installment terms, place it within easy reach. Specimen pages mailed on request. JOHN B. ALDEN, Publisher, New York, Chicago, and Atlanta.

The B. & M. R. R. has made arrangements for close connections to stations on the Des Moines & Kansas City R. R. from Des Moines to Leon, Iowa, inclusive. Trains Nos. 4 and 6 make close connections at Osceola in the new union depot, also via St. Joe on train No. 4.

J. HULANISKI.

When a man loses his reputation it requires years of labor to climb back into the confidence of his fellows. The same truth holds good of newspapers.

Some people read to kill time, some read for amusement, and here and there you will come across one who reads for the purpose of obtaining information.

COMMUNICATED.

The Bartley correspondent of the State Journal takes exceptions to the report on the yield of corn as sent from this county to the department for November. Hear him: "The recent report of the agricultural department says: 'In Red Willow county, the corn is not cribbed, but will not exceed five bushels to the acre, mostly cut for fodder.' And then adds 'The facts are there was but little to crib and there was no corn on that cut early for feed.' He claims to quote the report but his quotation is not in the November report. Following is a copy of the report that was sent: 'Corn not cribbed; do not think it will yield above five bushels per acre on an average through the county on what is standing; mostly cut up for fodder. Some farmers will need help or suffer.' Five bushels per acre seems a fair estimate on what was left standing to mature. The report appears on page 551 as follows; 'Not cribbed. Will not exceed five bushels per acre; mostly cut up for feed.' A later report was sent as to the average yield per acre on what was cut and standing both, and the estimate was: 'About one and one half bushels per acre.' It seems this Bartley correspondent is greatly exercised over what he would like to make people believe, is an over estimation of the yield of corn. No doubt but the report is approximately correct, his insinuations and suspicions to the contrary notwithstanding. WM. COLEMAN.

NOTICE.

Notice is hereby given to the twenty-seven subordinate alliances in Red Willow county that there will be meetings of the Alliance Relief Committee in the opera house in Indianola at 1 o'clock, P. M., on the following dates: Nov. 8, 15, 22, 29 and Dec. 6 for the transaction of important business that will come before the committee. J. F. BLACK, Chairman.

The School Children

Will be pleased with the new examination tablets just placed on sale in THE TRIBUNE'S stationery dept.

Price our watches, we will surprise you. Call and be convinced. Caruth & Son, Jewelers. Next door to Citizens Bank.

THE GHOST DANCE

has been running daily for the past two months at the reservation of the

CAH BARGAIN HOUSE.

Truly indeed has the dance worried our competitors, 'The Credit Stores,' as the profit was too light for them to dance by. They tried, but got sick at heart.

NOTES FROM THE NORTH EAST.

Jennie Brockham was buried Sunday.

Clark Ward and family will reside in Bartley, this winter.

The fall term of the Bartley school expired Friday, November 28th.

V. Sells received one car and one car shelled corn at Bartley, last week, which he sold out mostly to the farmers.

We understand there have been eleven farms sold recently in the south part of Frontier county to parties from Iowa.

Blount of the Inter-Ocean displayed his skill as a printer in getting out superb letter heads for the Bartley Relief Association.

Rev. Dawson of Cambridge was a guest at Mr. Vickrey's, Sunday, and accompanied the younger members of the family to the Sunday school convention at Dry Creek.

A number of Mt. Zion folks took dinner at the Bartley parsonage, Thanksgiving day, and left substantial tokens of their high appreciation of Rev. Carmichael and family.

The Dry Creek convention was so much of a success that it was decided to hold them quarterly at different charges in the circuit. Officers and program committee elected for next session, which will be held at Bartley.

BANKSVILLE BUDGET.

Mrs. Dr. DeMay is visiting with the mail carrier, C. S. White.

It is wonderfully mild after the election, even the notices of contest hardly cause a ripple.

The family of James Hill are getting better of their illness. They have been severely afflicted.

Uncle John Rowland looks sorry in his loneliness. His wife is sojourning with her son at Stout, Colo.

Miss Hattie Miller of Kansas was a visitor at Banksville, Sunday, and with Clara Benjamin took a horseback ride to C. S. White's.

The lyceum at the Dodge school house, tomorrow night, discusses and decides whether the banks and money lenders are of benefit or injurious to the farming community of that region. OBSERVER.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles found herself sound and well, now does her own housework and is as well as she ever was. Free trial bottles of this great discovery at A. McMillen's drug store. Regular sizes 50 cents and \$1.00.

In Texas now they track a horse-thief on horse-trail-in-system.

Wisdom prepares for the worst; but folly leaves the worst for the day when it comes.
