Hosts of friends wish them the greatest happiness.—Hastings Democrat.

Harry Dungan has a case in Red Willow county that takes considerable attention. He informed the Democrat man that while there looking after it he went out shooting and killed 33 quails, two grouse, three prairie chickens, four squirrels, three rabbits and five Jack rabbits, and that he walked thirty-five miles to accomplish this record. It is needless to say that he made up for lost time on his case by lamp light. He devoted himself a week, but as yet the court has not rendered its final decision. As Harry is a hustling young lawyer the Democrat believes he can bring it to a successful issue without an arbitrator.—Hastings Democrat.
