

The McCook Tribune.

By F. M. KIMMELL.

THE Illinois legislature is wrestling with a 2-cent per mile passenger rate.

HYPHENATION and consolidation is the slogan for western Nebraska newspaperdom.

REPRESENTATIVE MODI's lurid style of oratory is a startling tribute to the possibilities of the buffalo grass region.

STATE funds on hands amount to a million and a half dollars, one-fourth of the sum being in the general fund.

THE legislature and supreme court of Nebraska have struck up quite an intimate acquaintance. Their joint sessions are frequent and interesting.

SPRINGFIELD, S. D., has an artesian well of eight-inch bore, which yields 2,500 gallons of water a minute. That looks like irrigation was possible there.

THE McCook Leader has been absorbed by the Monitor and will appear, this week, under the caption of the Monitor with Messrs. Berry and Scott at the helm.

COLORADO is rich in mines of every description. It has not a foot of naturally arable land. And yet its agricultural product in 1890 surpassed in value the output of all its mines. Irrigation did it.

IRRIDESCENT INGALLS has fallen before the Kansas alliance, and Judge Peffer, editor of the "Farmers Alliance" has been elected to succeed him by a vote of 101 to 58. And all Bourbondom is shaken with ghoulish glee.

No intelligent observer can fail to note the inquietude and unrest that prevades the popular mind, and that these alarming evidences of abnormal relations of the classes deserves careful attention of statesmen none will deny.

THE lower house has passed a resolution expressing the sense of the house that the United States senators should be elected by the people, and instructing the Nebraska delegation in Congress to take the necessary steps for accomplishing this result.

THE speeches made by Senator Kooztz and Representative Ruggles before the irrigation convention were of a decidedly conservative and reassuring sort, indicating that the fears of radical results from the present legislature are more or less groundless.

TEXAS has a permanent school fund of \$5,000,000, and back of this there are public school lands to the amount of 8,000,000 acres. Every child in the Lone Star state is thus guaranteed a good common school education, while there are no taxes for school purposes. Happy Texas!

SAYS the St. Louis Globe-Democrat: Thirty soldiers, including three officers, have been killed and forty wounded during the present Indian disturbance. This implies a loss to the country that should at least be avenged by compelling the Sioux to go to work and earn their own living.

SENATORS who have succeeded themselves during the past few weeks are Teller of Colorado, Cameron of Pennsylvania, Voorhees of Indiana, Jones of Arkansas, Platt of Connecticut, Squire of Washington, Vest of Missouri and Mitchell of Oregon. And there has been no mistake made in any case.

UNDER a measure introduced in the state senate Nebraska is divided into six congressional districts. This district will be known as the fifth district and will be comprised of the following counties: Webster, Adams, Kearney, Franklin, Harlan, Phelps, Buffalo, Dawson, Gosper, Furnas, Red Willow, Frontier, Hitchcock, Hayes, Lincoln, Perkins, Keith, Chase and Dundly.

"I HAVE been figuring some on this contest matter," said a state house employe who has a head for figures, "and I am dumbfounded. There are 6,000 type written pages of evidence, each page containing 500 words, or a total of 1,800,000 words. A fast reader can average 150 words a minute. At that rate it will require 12,000 minutes, or 200 hours, to hear the evidence read. The legislature sits, on an average, five hours a day. The total daily expenses of the house is \$1,036, or \$207.20 an hour. Two hundred hours at \$207.20 an hour equals \$41,440, the total expense to the taxpayers of the state in hearing the evidence, providing the legislature sits five hours each day. If it sits ten hours a day it will cost \$20,720 to hear the evidence."

SECRETARY WINDOM of Treasury department died suddenly in New York city, yesterday, from heart disease. He was seated at a banquet when the final summons came, and by a painful coincidence his wife and family in Washington were at a musicale at Postmaster General Wanamaker's residence when the sad news reached the capital.

SECRETARY WINDOM favors the monthly instead of the quarterly distribution of pension funds, on the grounds that it will keep money in freer circulation and prevent it from being tied up when it should be in the hands of those for whom intended.

As the season progresses the alliance sentiment grows constantly more conservative. There is reason to hope for useful legislation that will bring benefits to the producers and be free from elements of harm.—Bee.

The mathematical fiend has recently been at work upon a calculation of the work performed by the human heart. His calculations are curious and give the work of the heart in miles and beats. It is based upon the presumption that the heart beats sixty times each minute, and throws blood nine feet. Computed thus, the mileage of the blood through the body might be taken at 207 yards per minute, 7 miles per hour, 168 miles per day, 51,320 miles per year, or 4,202,400 miles in a lifetime of seventy years.

The ministers and laymen of the city are bombarding saten's citadel in our midst with a vigor and persistency which would ere this have overthrown a less powerful stronghold than the sturdy old sinner maintains here.

Ed. DeLong, brakeman, and conductor Thatcher, formerly of the branch, are now located at McCook.—There is a rumor that something like 12 more of the railroad boys are soon to be laid off at McCook.—Orleans Courier.

It was a matter of regret frequently expressed that Representative Modi did not attend the convention—he being a member of the legislative committee.

A CITY LUXURY.

Just as the city looks to the country for most of the luxuries used on its tables, so the country must turn to the city for those conveniences which are justly termed luxuries for the hard-working housewife. City housekeepers have learned to realize that to save time is to lengthen life.

SAPOLIO!

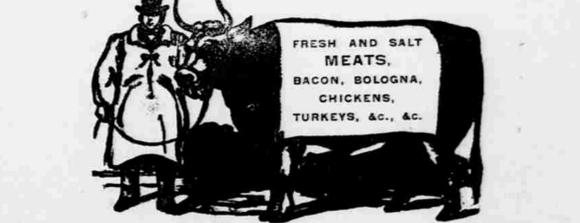

is one of the best known city luxuries and each time a cake is used an hour is saved. On floors, tables and painted work it acts like a charm. For scouring pots, pans and metals it has no equal. IF YOUR STOREKEEPER DOES NOT KEEP IT YOU SHOULD INSIST UPON HIS DOING SO, as it always gives satisfaction and its immense sale all over the United States makes it an almost necessary article to any well-supplied store. Everything shines after its use, and even the children delight in using it in their attempts to help around the house.
