and mercurial preparations which destroy your nervous system and ruin the digestive power of the stomach. The vegetable kingdom gives us the best and safest remedial agents. Dr. Sherman devoted the greater part of his life to the discovery of this reliable and safe remedy, and all its ingredients are vegetable. He gave it the name of

Prickly Ash Bitters!

a name every one can remember, and to the present day nothing has been discovered that is so beneficial for the BLOOD, for the LIVER, for the KIDNEYS and for the STOMACH. This remedy is now so well and favorably known by all who have used it that arguments as to its merits are useless, and if others who require a corrective to the system would but give it a trial the health of this country would be vastly Improved. Remember the name-PRICKLY ASH BITTERS. Ask your druggist for it. PRICKLY ASH BITTERS CO., ST. LOUIS, MO.

OMAHA, Neb., March 12 .- The center of the United States, according to the population, decided by the last census, is near Chicago Herald. Greensburg. Indiana, which shows a great inc-ease in the west and is a matter that we should all be proud of. Not only are we gaining in numbers, but there is also a general advancement of the different interests. More particularly is this noticed in the mercantile line, and now it is no longer neces sary to go east of the Missouri river for goods of any kind. Boots and Shoes are no doubt better represented than any other line, and the old reliable firm of Kirkendall, Jones & Co., Omaha, has done much to bring about this good result. Kirkendall, Jones & Co. manufacture a full line of boots and shoes for men, women and children. They make all grades and in any shape, sizes or lasts wanted, the eby enabling the dealer to give the consumer a perfect fit, which by the way, is a very essential point. Their "Gold Med al School Shoe" has become very popular and is giving universal satisfaction. It is acknowledged the best that can possi-bly be produced for the money and is well worth a trial. The consumers should bear in mind that it will be to their advantage to at all times ask for goods manufactured by Kirkendall, Jones & Co. Besides handling a complete line of leather goods, this firm is also general agent for the famous Boston Rubber Shoe Co., and carry a full line of their gools at all times, which are sold at the very best discounts. The warehouse at 1102, 1104 and 1106 Harney street is a credit to the West and dealers should make it a point to call on them and see to what an extent the boot and shoe business is carried on in the West.

A Difference in Boys. There is a vast difference between the ways and ideas of amusement of the small boy uptown and the small boy downtown who makes his living by selling papers, shining muddy boots or being messenger. For instance, the downtown newsboy scorns to throw snowballs as a usual thing. He will shake dice, .. match" coppers or smoke cigarettes and discuss some some melodrama playing in his favorite Bowery theatre, but he absolutely declines to throw snowballs. On the other hand, his more innocent brother seven or eight miles higher up on the island still clings to the good old fashioned sport of "pasting" everything and everybody with a snowball. That's all association, of course. - New York

The Western Settler's Chosen Specific. With every advance of emigration into the far West, a new demand is created for Hostetter's Stomach Bitters. Newly peopled regions are frequently less salubrious than older settled localities, on account of the miasma which arises from recently cleared land, particularly along the banks of rivers that are subject to freshets. The agricultural or mining emigrant soon learns, when he does not already know, that the Bitters afford the only sure protection against malaria, and those disorders of the stomach, liver and bowels, to which climatic changes, exposure, and unaccustomed or unhealthy water or diet subject him. Consequently. he places an estimate upon this great house-hold specific and preventive commensurate with its intrinsic merits, and is careful to keep on hand a restorative and promoter of health so implicitly to be relied upon in time of need

Before the New York senate committee investigating the sugar trust, G. S. Ellis, an accountant, testified that the trust had made a profit of over \$11,900,000. The stockholders had been paid 10 per cent of this. The remainder is still in the hands of the constituent companies.

Deafness Can't be Cured by local applications, as they cannot reach the diseased portion of the car. There is only one way to cure deafness, and that is ty constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deadness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Frops., Toledo. O.

A Balloonist's Story.

"I used to make balloon ascensions in connection with Warner's circus,' said an old and retired aeronaut the other day, "and one day I went up from Perkin, Ill. The balloon was new and light and I got a much long er ride than what I expected. I finally descended in a farmhouse yard | didn't want him to have to contend with an about ten miles away, my anchor sible girl! having caught in a cherry tree. The farmer was an old fellow about 60 years of age, and he sat reading on his doorstep as I camedown. He removed his glasses, put them in their case, put the case in his pocket and then came forward and carelessly observed:

" 'That a balloon?'

"'Yes. Help me pull it down.'
"'Are you a ballooner?'

" 'Yes. Pult hard.'

"We got the air ship down, and I wanted him to take me to town in his wagon. He had none, and I had hired a rig of a neighbor, and was about to depart when the old fellow in boxes. Frice 25 cents. stepped forward with:

'I have a little bill here, sir.' " 'Bill. What for?'

" Damage to cherry tree, two shilin's; skeering my poultry, 50 cents, skeering my old woman, the same, service of my self, \$1. Total, \$2.25, which is mighty cheap, considering he times.

"But I won't pay it,' I protested.
"'Oh, you won't? Well, I'm justice of the peace, and I'll issue a warrant. My nabur is constable, and he kin serve it. The old wcman is out witness, and I sort o' reckon I'll find | never die, and only need a trial to prove you about \$26 for disturbin' of the themselves. "And I was made to realize that the best way out of it was to come down with the amount of the bill, and

Mistakes of Near Sighted Men.

Lawver Ashley, of New York, was telling Judge Day a story of Daudet, the novelist, who is extremely near | Pamphlet free with full instructions and commendasighted. The story ran thus: Daudet | A Texas miserkeeps everything under lock visited some place in which were kept many animals. He sauntered slowly about peering into their cages until he came to a secluded spot where a furry object, not in a cage, attracted his attention. "Ah!" said the distinguished Frenchman, "this must be a tame bear." And, taking some take from his pocket he flung it with a "There, old fellow," straight into the face of a Russian nobleman who, enveloped in his sables, had stopped to look at the bears near by. Imag-

ine his anger and surprise. Daudet apologizes, etc., etc., etc. The judge listened intently, but after the lawyer had finished he said

"I can tell you something far ahead of that in the way of mistakes caused

by nearsightedness. "A friend of mine who lives in the suburbs came from the city one summer evening just at twilight. He had broken his glasses and was almost feeling his way along, when he became conscious of somebody walking directly in front of him. It seemed to be a short woman in a bright gown, wearing a wrap about her shoulders, one end of which trailed down behind her. She walked so heavily that my friend began to think that, though short, she must be exceedingly stout. A few steps more and the wrap touched the ground and dragged in the mud. This was more than his gallantry could stand, so stooping forward he said: 'Allow me, madam, to replace your mantle, at the same time gently raising a red cow's tail and placing it across her ack."-Detroit Free Press.

Telling Strangers' Ages.

From the Punxsutawney (Pa.) Spirit. "Give me the list of the names of the men in any city or town in this country, and without ever having seen or heard of them, I will tell you halí their ages," said a prominent citizen yesterday.

"How can you do that?" asked an ncredulous bystander.

"Simply by the initials of their names. In the first place you must remember that about half of the male population of this country have been named after Presidents of the United States or candidates for president, It requires a fine eye and when these presidential candidates were at the zenith of their popularity. Of course exceptions must be made of George Washington and Andrew Jackson, for people have not quit naming their boys after these illustri-

ous men to this day. "For instance, here is the name of W. H. H. Johnson-William Henry Harrison was elected President in 1836, consequently Mr. Johnson is about 53 years old. Here is W. Scott Smith-Winfield Scott ran for President in 1852. Smith is therefore about 37 years old. The next name on the list is A. L. North-Abraham Lincoln was elected President in 1860. Mr. North is therefore about 28 years old. Now take the next--M. F. Smathers. Millard Filmore was a candidate Try one or both. If they for President in 1856. M. F. Smathabout 33 years old. And so on. By studying the Christian names of men you can figure out the ages of many of them very closely."
