Now is the time to sow your alfalfa seed. Be sure and get in some this spring, if only a little. Don't sow it on a fire guard, or in a long, narrow strip, but put it in good, mellow ground, and in a square chunk. It will do better every time.

The friends of Dr. and Mrs. T. B. Stutzman will hear with sadness of the serious illness of their second daughter, Mabel, who lies at death's door with diphtheria. Mrs. Peter Boyle left for Davenport, this morning, in response to a telegram announcing the illness of her grandchild.

Sickness has laid hold on A. P. Sharp's entire family. We regret to learn, too, that his daughter Clara is quite seriously afflicted. To add to the gloom, Mr. Sharp is just in receipt of the sad news that his aged mother, who is living with a daughter somewhere in the north-west, has been stricken down with paralysis.

Try an acre or two of beets for feed. Get the large kind, the seed is cheap, and it takes only a small quantity to sow an acre. Plow the ground very deep (a foot if possible) then harrow down smooth and mark out four feet apart and drill in the rows. Take a cultivator and cultivate twice a week, and you will have more beets than you will know what to do with. Try it.

The snow fall of Tuesday night and Wednesday morning was one of the heaviest of the year, between six and eight inches of the moist beautiful falling on the level. West of here the fall was rather more generous. All of which is most desirable for grain planted, and to put the soil in condition for spring plowing; but hard and destructive on stock, of which considerable loss may be expected.

The **TRIBUNE** hopes shortly to be able to announce that the South Side ditch enterprise "is a go." The prospect is inviting. Much now depends upon the encouragement given by the farmers living along the line of the proposed ditch. The money to build the ditch is in sight.

The Hatfields will farm on an extensive scale this season. They will crop 700 acres to wheat, corn, oats, cane and alfalfa—about one-half the total acreage will be in alfalfa. Besides having large and valuable stock interests, the Hatfields are among Red Willow county's heaviest farmers.

At the meeting of McCook Lodge No. 61, A. O. U. W., Monday evening, the following representatives and alternates were elected to attend the session of the Grand Lodge at Grand Island, Neb., May 12th, 1891, namely: W. M. Anderson, F. A. Thompson and W. H. Davis, with C. H. Meeker, H. W. Cole and B. B. Davis as alternates.

The people of this city are not so much interested in the success or defeat of one clique or faction or another. Their chiefest concern is that men will be selected for the several municipal offices who are capable and who will uphold good government. It is the patriotic duty of every citizen to see to it that his vote is cast for good government and progress.

The completion of an enterprise like the proposed South Side ditch means great and vital things to the farmers along the line, and to McCook. It means the irrigation at the outstart of 10,000 or 15,000 acres of land contiguous to this city. While many acres more can be covered by extending the ditch. This matter should receive every possible encouragement by all parties interested. Let there not be one kicker or skulker in the camp. It is the common interest and the common weal. Keep the ball rolling. All hail the McCook Irrigating Ditch!

W. T. Foster says the next period of weather disturbances will inaugurate the great rain storm which will occur about every 52 days, crossing a period of about two week, April 1 to 14. The storm wave that will start this rain period will be due to leave the Pacific coast about March 30, cross the great valley from March 31 to April 2 and reach the Atlantic coast about the 3d. The storms of April will all be severe both from minor causes and the effect of the powerful electric currents from the equators of Saturn and Jupiter which will begin to have a light effect on our earth. Mercury will pass the sun's equator on April 2 and the influence of Venus which will have crossed the sun's equator on the 28th of March will extend to this first April storm and it will be of more than average force. It will effect most parts of the United States causing a great variety of weather but the low barometer with its accompanying gales is expected to cross the continent through the western part of the United States.

**THE QUEEN OF SABBATHS.**

More interest was evinced in Easter services, and more elaborate preparations were made for celebrating the day appropriately, this season, than at any previous year in the city's history. Nothing but the deep snow and stormy weather detracted from the attendance at the several churches.

**AT THE METHODIST CHURCH**  
Rev. Mather preached an able sermon upon "THE RESURRECTION OF CHRIST," handling the question of paramount importance to all christendom with much feeling and thoroughness. There were no special services.

**THE LUTHERAN BRETHREN**  
Postponed their Easter services until next Sunday on account of forbidding weather and the non-arrival of the pastor.

**THE EPISCOPAL PEOPLE**  
Observed the day with the appropriate and beautiful service of that church. Rev. Samuel F. Myers conducted the services and preached an eloquent sermon on "THE RESURRECTION." The vocal exercises were also of unusual excellence. The Meeker hall was very handsomely decorated with flowers for the occasion. Both morning and evening services were held.

**THE CONGREGATIONAL CHURCH**  
Held exercises of an interesting and appropriate nature, by the children of the Sunday school, in the morning; and despite the weather there was a full attendance. The interior of the church was decorated with flowers in exquisite designs and lavishly. The beauty of the floral cross, crown, etc., has never been excelled in McCook. Besides the paintings and other effects made a scene truly delightful to gaze upon. In the evening Rev. McBride was to have spoken on "THE RESURRECTED BODY," but the storm detained him.

**THE KNIGHTS TEMPLAR.**  
In the afternoon at 2:30, Rev. P. C. Johnson addressed the members of St. John Commandery, Knights Templar, in the Congregational church. Besides the Knights there was a large attendance of citizens outside that noble order, and the edifice was crowded. The Doctor delivered one of his powerful, original and superb sermons, selecting "THE IMMORTALITY OF MAN" as the basis of his splendid effort. Rev. Johnson preaches a liberal, humane, sturdy gospel of Jesus, devoid of the greek fire accessories, and his admirers in McCook are many and warm. His effort on Easter afternoon detracted not from their members or the warmth of their esteem. All in all it was one of the pleasant features of the day.

**A. O. H.**  
Their Second Annual Ball and Banquet is Up to the Full Measure of Success.

There is nothing lacking in the splendid success which characterized the second annual ball and banquet given by Division 1, Ancient Order of Hibernians, Monday evening. There was a large and brilliant gathering. The spirit of the occasion permeated all and joyousness reigned supreme. The music was of exceptional excellence and inspired all to their best efforts in marching the graceful, stately minuet or gliding through the mazy waltz.

Reizenstein and his assistants were chook-full of the divine afflatus—and everybody danced.

The gastronomic feature was likewise of marvelous attractiveness. There was such a spread of dainties in tasteful array that there was no such thing as resisting the tempting viands set before the guests by Mr. Jordan of the B. & M. Dining Hall.

The opera house was very attractively decorated with appropriate emblems of the order, mottoes, etc.

Taking into consideration the weather and the times, the order may congratulate themselves upon the successful outcome of their second annual.

**Bean Supper and Camp Fire.**

J. K. Barnes Post, G. A. R., will give a Bean Supper and Camp Fire in our city, Thursday evening, April 9th. The bean supper will be held in the Morlan building from 6 to 8, central time. The camp fire and anniversary exercises will be conducted in Menard's opera hall, beginning at 8 o'clock.

**St. PATRICK'S CHURCH.**

Magnificent Decorations and Service to Commemorate the Resurrection of Christ.

The feast of the resurrection of Christ was celebrated on Easter Sunday at St. Patrick's church with great pomp, befitting the joyous associations of Easter day. Masses were said at 9 and 11 o'clock. At a few minutes after the hour named for the later Mass, a beautiful strain from the organ swept over the large congregation bent in silent prayer and the priest and attendants entered from the sacristy. The priest in white and gold chasuble, the attendants in purple soutanes and white surplices. The altar lighted with numerous candles whose subdued radiance mingled with the display of potted plants and other selections of fresh cut flowers made up a picture as solemn as it was picturesque. The music of the Mass (Lambillottes' Paschal Mass) was exquisitely rendered by a quartette, comprising Mrs. P. F. McKenna, Mrs. F. H. Spearman, Mr. Jas. M. Burke, Mr. Jos. Schmidt and Mr. F. H. Spearman, accompanied on the organ by Mrs. J. C. Birdsell. During the Offertory the charming and melodious trio "Jesu Dei Viri" was given with most exquisite rendition by Mrs. McKenna as soprano, Mrs. Spearman as alto and Mr. Schmidt as basso. A more pleasing conception of this classical piece as given by their highly cultured voices could not be more fully realized than in their rendition. The sermon was from the text, "He is Risen, He is not Here." The preacher, Rev. J. W. Hickey, in a most eloquent and impressive manner, pictured Christ's Resurrection from the grave, showing the incontestable miracles Christ performed in proving his divinity. His resurrection proved beyond doubt, his omnipotence, power and divinity.

At the 9 o'clock Mass fifteen children received their first communion, which was witnessed by a large congregation, including several of the children's parents. As they entered the church a more beautiful picture could not be seen. Each girl dressed in white with veil and wreath, followed by the boys in dark suits and white rosettes, betokening a day of joyousness to their young hearts. A most pleasing incident occurred at the end of the Mass, when Master Frank Cullen, in a neat address, presented the Rev. Pastor, in behalf of the Sunday school children, with a beautiful embroidered stole. The Rev. gentleman happily responded, expressing his appreciation of the rich gift from his dear children. Lunch was afterwards served at the pastoral residence, where the children spent an hour of enjoyment. The following ladies who assisted in the decorations are deserving of great praise, namely: Mrs. R. A. Coupe, Mrs. Dennis Cullen, Mrs. F. H. Spearman, Mrs. C. J. Ryan, Miss Josie Mullen, Mrs. Bertha Stevens, Miss Clara Bonnot and Miss Kate O'Reilly.

On Monday morning at 10 o'clock a marriage ceremony was performed, followed with Mass. The contracting parties being Mr. John Brady and Miss Mary Ryan. This occasion brought a large congregation together, showing the high esteem in which the young people are held by the residents of McCook. We wish the newly married couple many days of happiness and predict nothing but sunshine in their new state of life, should we judge of the kind and loving disposition they have always displayed. "ELKRUB NOCAED."

**ANNOUNCEMENTS.**

**A STAW.**

As spring approaches the indications are that the amount of small grain planted this season will perhaps be the largest ever sown in Red Willow county. We have no general figures, but the following straws are suggestive. The gentlemen will put in the acreage set opposite the names:  
Hatfield & Son, 700 acres of alfalfa, etc.  
Samuel Ellis, 125 acres of wheat.  
John Calkins, 200 acres of wheat.  
John Randel, 100 acres of wheat and oats.  
Hiram Bixler, 100 acres of wheat.  
Mat & Aug. Droll, 400 acres of small grain.  
S. P. Hart, 400 acres of wheat, cane, etc.  
C. J. Ryan, 125 acres of wheat.  
James Wright, 250 acres of small grain, etc.  
James Cain, 100 acres of wheat.  
Sidney Dodge, 150 acres of wheat.  
John Morris, 100 acres of wheat.  
Daniel Jones, 100 acres of wheat.  
J. P. Squire, 100 acres of wheat.  
D. L. Griggs, 100 acres of wheat.  
Geo. E. Johnston, 200 acres of corn, etc.  
Tobias Brown, 200 acres of corn, etc.  
R. S. Hileman, 140 acres of corn, etc.

The tendency seems to be toward small grain. And this suggests to us again the importance of greater diversity of crops. Broom corn, flax and other crops should be planted in addition to small grain and corn, cane, alfalfa, etc.

**"NO STRINGS ON HIM."**

As Mr. Berry announced in accepting the nomination for Mayor of the City of McCook, there are "no strings on him." But he is pledged to maintain good city government and believes in progress. Has no use for the "pen-nise and pound foolish" economy which will reduce this enterprising young city to the level of a hamlet. THE TRIBUNE believes that no citizen will have good cause to regret having cast his ballot for **GEORGE B. BERRY!**
