THE PEOPLE'S PARTY BORN AT CINCINNATI.

A National Event Characterized With Great Lung Power-The Platform and Principles of the New Organiza-'ion-Ex-Union and Ex-Confederate Soldiers Cross Hands Across the Bloody Chasm-Songs and Prayers Indulged In-Prohibition, Planks Not Wanted.

A New Political Party is Born.

CINCINNATI, May 22.—A little politicle giant has been born into the world. It is the literal truth to state also that no more wonderful exhibition of lung power at a national event was ever heard than in the Cincinnati music hall yesterday. From the moment in the morning when the great gathering of farmers and wage workers voted eagerly for making the formation of a national executive committee a part of the programme the result was, to a certain extent, foregone. All doubt was removed in ten seconds when toward evening, after scenes of turmoil, the fresh, clear countenance of Ignatius Donnelly of Minnesota, chairman of the committee on resolutions, becamed from the rostrum on the struggling, yelling mass of humanity in the convention, and Donnelly, with a dignity befitting his words, announced that the committee had become a unit for starting a third party in the nation without another instant's delay.

It was marvelous to see the effect on the delegates and speculators alike. Fatigue foreboding quarrels vanished as if struck out by lightning. Breathless and hushed the listening hundreds waited as Donnelly continued, earnestly: "We think we have performed a work that will affect the politics of this country for the next fifty years." That was enough. The audience could contain itself no longer, but with dynamite force exploded in a terrific thunder of applause.

The committee on resolutions appointed by the national union conference remained in session until 3:30 in the morning when an adjournment was taken until 10 o'clock.

When the convention reassembled a letter from L. L. Polk, which was read, advising this conference to issue an address and defer action on a third party until 1892, caused a breeze, and when a motion to refer it to the committee on resolutions was declared carried there was a loud demand-notably from the Minnesota delegation-that the negative be put more forcibly by the chair. The demand was renewed and continued from time to time during the reading of a number of miscellaneous telegrams.

Mr. Fish of Minnesota argued that Mr. Polk's letter was ill-timed and claimed that it showed how useless it would be to refer the third party question to the meeting in 1892.

Ignatius Donnelly, chairman of the committee on resolutions, climbed upon the restrum at this juncture and almost his first words caused a whirlwind of excitement. The declaration from Donnelly which set the convention wild was to the effect that he was there to report that the committee on platform was a unit for the organization of the third party. Donnelly evidently felt that his moment of triumph had come in the struggle which he himself so deftly began just twenty-four hours before, and for which he had been so publicly castigated by General Weaver. Two alternatives were presented, he said-either to ignore a third party or divide the friends of reform.

He then gave way to Robert Schilling of Wisconsin, secretary of the committee, who read the platform as fol-

6. That the members of the central committee for each state where there is no independent political organization conduct an active system of political agitation in their respective states.

Additional resolutions not a part of the platform were presented. They recommended favorable consideration of universal suffrage, demanded treasury notes to pay soldiers equivalent to coin, favors eight hours a day and condemns the action of the world's fair commision with reference to wages.

The name of the new party, the "people's party of the United States," elicited a magnificent outburst of applause, and as each plank was read the cheering was renewed so frequently that the great hall seemed to reverberate continuously.

A plank recommended universal suffrage to favorable consideration and another demanded the payment of pensions on a gold basis.

The Cincinnati Convention. CINCINNATI, May 21 .- The national

While the main hall was filling a rousing meeting was in progress on the upper floor. It was the state meeting of the delegates from Ohio, nearly 300 strong. First the Buckeye men decided that they were in favor of the immediate organization of a third party; then they put themselves on record as wanting government loans direct to the people, on reasonable security, at interest not to exceed 2 per cent per annum. Following this was a climax. The delegation almost to a man declared itself, regardless of what action was taken by the national conference, bound to have at once an independent state ticket in the field in Ohio. Chairman Bannes was instructed to appoint a committee of five before sundown to draw up an address to the people of Ohio calling an independent state convention and fixing a date for

it to assemble. At 2 p. m. the conference delegates advanced to the front of the stage and 'Tis of Thee.'

The delegates repeated with him the Lord's prayer. the official call for the conference and requested the various organizations therein named to rise as their names were called which was done. The appearance of each delegation was greeted with applause.

Charles E. Cunningham of Arkansas was introduced as temporary chairman, the formality of an election being dispensed with. He made a fervid appeal for harmony.

Instantly there was an uproar and a dozen delegates were on their feet shouting for a chance to strike the first blow in the fight for or against the immediate organization of a national third party. If Donneily's motion carried the convention was implicitly committed thereby to immediate organization, and all hope of postponing such action was thrown to the wind.

General Weaver of Iowa was the individual whose lungs proved the strongest. He denounced the proposition as an attempt to pledge the convention on the sly to a most vital ac-
