# "German Syrup"

Martinsville, N.J., Methodist Parsonage. "My acquaintance with your remedy, Boschee's German Syrup, was made about fourteen years ago, when I contracted a Cold which resulted in a Hoarseness and a Cough which disabled me from filling my pulpit for a number of Sabbaths. After trying a Physician, without obtaining relief—I cannot say now what remedy he prescribed—I saw the advertisement of your remedy and obtained a bottle. I received such quick and permanent help from it that whenever we have had Throat or Bronchial troubles since in our family, Boschee's German Syrup has been our favorite remedy and always with favorable results. I have never hesitated to report my experience of its use to others when I have found them troubled in like manner." REV. W. H. HAGGARTY, of the Newark, New Jersey, M. E. Conference, April 25, '90.

## Famous Aerolites.

Of the vast number of meteors seen in the sky the great majority are of insignificant size—mere particles of cosmic dust that are completely consumed on striking the atmosphere. Yet many of the masses are large enough to reach the earth's surface, and some are of great size, quite a number being known that weigh more than 1,000 pounds. This list of some of the more famous aerolites has just been compiled by M. Jacques Leotard: 1. The aerolite which long served as a bench at the door of the church of Caville, in the Maritime Alps, now in Paris, weight 1,675 pounds. 2. The aerolite found in 1788 at Tucuman, Argentine Republic, now in London; weight 1,695 pounds. 3. The aerolite discovered in Siberia by Pallas in 1749, now in Paris; original weight 1,876 pounds. 4. The aerolite which fell in 1816 at Santa Rosa, New Granada; weight 2,010 pounds. 5. The aerolite which served as an idol, afterward as a church ornament, at Charcas, Mexico, finally taken to Paris; weight 2,290 pounds. 6. The aerolite discovered in 1861 at Melbourne. The two pieces, one in Melbourne and the other in London, weigh together 8,040 pounds. 7. The aerolite of Bendigo, near Bahia, Brazil, discovered in 1816 and taken to Rio Janeiro in 1877; weight 13,364 pounds. 8. The aerolite which was found near the source of the Yellow river, China, and was nearly fifty feet high; weight 26,800 pounds. 9. The great aerolite of Tucuman, South America; weight 40,290 pounds. 10. The enormous aerolite discovered in 1875 on a mountain of the province of St. Catherine, Brazil. The combined weight of fourteen fragments is 67,000 pounds. 11. The greatest stone of all, which was discovered at Yimenes, Mexico, and whose two pieces have the enormous weight of 75,000 pounds.

## The Famous Carlson Cottage.

The Carlson cottage at 1872 Ashland avenue, Chicago, in which Dr. Cronin was murdered May 4, 1889, is no longer a remunerative piece of property for the owners. Even on the anniversary of the crime this year only an occasional visitor paid the requisite fee of 10 cents. The Carlson family reside there. It is neatly furnished. A card on which the following words are printed in bold letters hangs in one of the windows: "Carlson cottage now opened to exhibition; admission 10 cents." Ever since the horrible murder the place has been visited by a stream of townspeople and strangers who have examined with deep interest the spot where the doctor fell under the storm of murderous blows. Lately the number of visitors has decreased and only occasionally now is a crowd of gaping folks in front of the O'Sullivan house on the next street.

## Woe! Woe! Unutterable Woe.

Why endure it daily, nightly, we had well nigh said, hourly. They do who are tortured by chronic rheumatism. The remedy, botanic, pure, safe and prompt is at hand. Were the interests of Hostetter's Stomach Bitters collated, it would be found to contain the most authentic proof that the medicine is both a preventive and a remedy in this malady of varying acuteness and ever present danger. To forestall its chronic stage is the dictate of prudence. Repoussant dangerous medication. Far more effective, more certain, more permanent in the beneficent consequences is the use of the Bitters. Experience indorses the recommendation of physicians based on these. Begin relief. Hostetter's Stomach Bitters relieves constipation, biliousness, kidney ailments, dyspepsia and malarial trouble.

## Smuggling Into Paris.

Everything that enters Paris has to pay city duty. For many weeks an elegantly attired gentleman drove a well appointed dog cart from the outskirts to the city, being attended every evening by a neat looking groom. One night the dog cart was upset in the presence of the gendarmes, who on going to the rescue, noticed that the groom had not moved from his seat. "Come," said one of the men. The groom preserved a dignified silence.

"Come down," cried they, angrily. "Don't you see your master is hurt? Is he drunk or stupid?"

The groom preserved his English sang froid, and the employes, giving him a shake, discovered to their unutterable astonishment that he was made of zinc and contained fifty bottles of cognac.

## Give and Take.

The following story may not be true. Indeed, it probably is not; but we may say that if it were true, it would teach a lesson as well as excite a smile. We find the story in a New York paper.

When Jay Gould arrived in Boston a few days ago, he was confronted by a youngster with an unusually dirty face, who shouted, "Mornen' paper, only two cents!"

The millionaire bought a paper, and gave the boy a five-cent piece, saying, "Keep the change and buy a cake of soap to wash your face with."

The newsboy counted out three cents, and dropped them into Mr. Gould's hand.

"Keep your change," said the boy, "and buy a book on politeness."

## Musical Gas Machine.

The musical gas machine, called the pyrophone, seems to have attracted much attention abroad. Its compass is three octaves, and it has a keyboard, being played in the same manner as an organ. There are thirty-seven glass tubes, in which a like set of gas jets burn, and these jets, placed in a circle, contract and expand. When the small burners separate the sound is produced; when they close together the sound ceases. The tone depends on the number of burners and the size of the tubes in which they burn; so that by a careful arrangement and selection all the notes of the musical scale may be produced in several octaves. Some of the glass tubes in which the jets burn are nearly eleven feet long.

## Weapons of To-Day.

The energy of modern artillery is somewhat appalling, and threatens to destroy friend and foe together. A 67-ton gun on the British battle ship "Trafalgar" was pointed directly ahead and fired with 630 pounds of slow burning powder and a 1,250 pound projectile. The blast produced by the rush of powder-gas and the shot was so tremendous that the plates of the forecastle were forced in and the deck beams bent out of shape. A hint what the effect might be on an enemy will be given at the naval exhibition, where will be shown a projectile that has been fired from a 110-ton gun. This remarkable shot is said to have been driven in succession through a twenty inch steel plate, eight inches of iron, twenty feet of oak balks, five feet of granite and eleven feet of concrete, finally lodging at a depth of three feet in a mass of brick masonry.

## There's a patent medicine

which is not a patent medicine—paradoxical as that may sound. It's a discovery! the golden discovery of medical science! It's the medicine for you—tired, run-down, exhausted, nerve-wasted men and women; for you sufferers from diseases of skin or scalp, liver or lungs—it's chance is with every one, it's season always, because it aims to purify the fountain of life—the blood—upon which all such diseases depend.

The medicine is Dr. Pierce's Golden Medical Discovery.

The makers of it have enough confidence in it to sell it on trial.

That is—you can get it from your druggist, and if it doesn't do what it's claimed to do, you can get your money back, every cent of it.

That's what its makers call taking the risk of their words.

Tiny, little, sugar-coated granules, are what Dr. Pierce's Pleasant Pellets are. The best Liver Pills ever invented; active, yet mild in operation; cure sick and bilious headaches. One a dose.
