THE CARNEGIE COMPANY'S
LAST NOTICE TO THE MEN.

THEY WANT THEIR OLD EMPLOYEES.

Works at Homestead and Elsewhere to Be Started Up Next Saturday Independent of Labor Organizations—Preparing for Non-Union Men—Frick's Testimony to Be Answered by the Men.

PITTSBURG, Pa., July 18.—The following notice was posted by the Carnegie steel company at the Homestead mills and in the vicinity of the works and copies sent all over the country:

Notice—Individual applications for employment at the Homestead steel works will be received by the general superintendent either by letter or in person until 6 p. m., Tuesday, July 21, 1892.

It is our desire to retain in our service all of our employes whose past record is satisfactory and who did not take part in the attempts which have been made to interfere with our right to manage our business. Such of our old employes as do not apply by the time above named will be considered as having no desire to re-enter our employment and the positions which they held will be given to other men, and those first applying will have the choice of unfilled positions, for which they are suitable.

This notice will be the last given to the employes for the works and on non-compliance with this the places will be filled with non-union men.

That there are non-union men in the Homestead mill and more coming today is evident from what Secretary Lovejoy of the company said, when asked how many non-union men were in the mill: "Well, now really I cannot discuss the details of this question and an man at liberty to tell you how many men there are in the mills."

"Will you say how many men will go up to-day or before you get ready to start the mill?"

"No, I cannot. There are some things the public has no right to know and that is one of them. The Homestead mills will be started up July 23, and the notice posted to-day will be the last. The men at the Beaver Falls and Union mills will be given till Monday, July 18, to return to work under a new agreement. The Union mills will be started Monday, the 18th, and we will have no trouble in getting competent men to fill the places."

The Carnegie steel company has advertised for bids for furnishing materials and building 100 houses on the city farm lots at Munhall station. These houses will be erected at once, and will be for the use of the men employed in the mills.

One of the leading officials of the Carnegie steel company was found at the general office to-day, sorting over a miscellaneous collection of mail, among which were many letters making applications for positions in the Homestead mills. Others expressed a dissatisfaction with the strike and were intended to square the writers with the firm when the trouble is over. The men have prepared an answer to part of Frick's testimony as to wages, by which they show that in the open hearth department the men do more work and are paid \$4 a ton less than in other mills.

Another Notice.
HOMESTEAD, Pa., July 16.—This morning every man in the mechanical department of the mills received the following notice:
Carnegie Steel Company, Limited, Homestead, Pa., July 15, Dear Sir:—Repairs will be resumed on Monday morning July 18, 1892. We write to you to return to your old positions, work to commence at the usual time. Respectfully,
J. A. POTTER,
General Superintendent.

DRIVEN INTO HER GRAVE.
A Beautiful Young Woman Worried to Death by a White Cap Note.

JACKSON, Mich., July 18.—Miss Rose Woodruff, adopted daughter of Mrs. George Woodruff of this city, was stricken with spasms Wednesday, which resulted in hemorrhage of the lungs and heart trouble, from which she died yesterday. She was a beautiful woman, 23 years of age.

About two weeks ago Miss Woodruff received a white cap letter with skull and crossbones printed in red ink upon it. At the bottom was written: "You are white-capped by twelve of our best friends. Look out; we give you but two more of these warnings." She was greatly distressed by this letter and fell into a decline which resulted in death.

Huns for Carnegie.
POTTSTOWN, Pa., July 18.—A large number of Hungarians, employes of the steel works, left their work yesterday without giving any notice and they have been engaged to go to Homestead to take the places of the strikers in the Carnegie mills. As a result of the foreigner's sudden departure, the Pottstown company is now advertising for workmen to fill their places.

A Farmer's Trust.
LEBANON, Ind., July 18.—The farmers in this county have perfected an organization by which the threshing of this year's wheat crop is to be let by contract through a committee appointed, who will also make sales for seaboard delivery. They expect to realize better prices on account of being able to fill larger sales.

The Coat Tail Duelists in Hard Luck.
NEW YORK, July 18.—A Paris cable says: Hallett Alsop Borrowe, the hero of the unfought duel, yesterday sent the following cablegram to a relative in Bernardsville, N. J.:

Harry fined \$300 as my second. Is too ill to move. As fundraising must surrender myself to Belgian government. Lord Dufferin, minister of Peace, promises to have fine refunded in ten days. Hallett.

Italy's Big Deficit.
ROME, July 18.—The Tribune, the government organ, states that the budget of 1892-93 will show a deficit of 20,000,000 francs, exclusive of 20,000,000 francs already agreed upon as necessary for the new railways.

\$40,000 REWARD

Further Details of the Missouri, Kansas and Texas Hold-Up.
PARSONS, Kan., July 18.—The Missouri, Kansas and Texas railway and the Pacific express company have jointly offered a reward of \$5,000 for the arrest and conviction of each of the men engaged in the robbery of the express car on the north bound train on the Missouri, Kansas and Texas railway at Adair station, in the Indian territory, Thursday night, to an amount not exceeding \$40,000.

A large posse of men are now scouring the Indian territory, and from advices received here last night there is good reason to believe that the robbers will be captured.

The robbery was one of the boldest that has ever occurred in the territory and rivals any of the palmy days of the James and Younger gang.

The bandits have been loitering in the vicinity of the station at Adair for several days and Thursday evening went to the depot and held up the station agent and robbed the safe of its contents. They captured the station and waited about on the platform until the train came and then deliberately went to work to terrorize the passengers before they attempted to enter the express car. Among the passengers were Detective Kinney and several members of the Indian police who are said to have received notification of the fact that the express train was to be robbed. It is even said that this notification was sent by the Daltons themselves and in their note they defied the power of the officials to stop them.

When the train came in the robbers captured the engineer and then began shooting along the train in order to keep the passengers from poking their heads out of the windows.

After the shooting had been indulged in for some time the men approached the express car and notified the messenger that they had placed dynamite under it and would touch it off if he did not open the door and let them in. The messenger was further terrorized by several shots from Winchester's fired through the car, and surrendered. He was then compelled to open the safe, and after he had done so, he was tied hand and foot and bundled off into a corner of the car, while the bandits helped themselves to everything in sight. One of the band backed a wagon to the car door and everything was swept into it and hauled off.

During this work two men were guarding the train and a battle was had with Kinney and Lafore, in which the two were slightly wounded. A guard named Ward also received a flesh wound in the shoulder.

That the robbers felt perfectly safe in their work is shown from the fact that they proceeded so leisurely at it and when they had finished they drove off through the woods, as if fearing no pursuit.

It is claimed that the big reward of \$5,000 each, which will have the effect of bringing about their capture but it must be remembered that these men belong to a gang which fights to the death, and their capture is one of the problematical things of the future.

It Raised the Price.
WASHINGTON, July 18.—It is stated by the department of agriculture that the inspection of meats, especially pork, by the officers of that department under the act of March 3, 1891, has had the effect of adding at least 1 cent per pound to the value of hogs, marketed since the withdrawal of foreign prohibition which resulted from the enforcement of the act.

CHOLERA SWIFT TO KILL.

Twenty-Four Hours Often the Limit of the Disease—Pastour Improving.
LONDON, July 18.—The epidemic of cholera is not so highly infectious as in former outbreaks. Very few persons are attacked in proportion to the population, but the disease is quickly fatal. The disease is raging in extreme violence among the workmen of Tzaritsin, where many of them have died twenty-four hours after being attacked.

The religious communities in Moscow are organizing processions to appeal to God to stay the plague.

A WORKING MAJORITY SURE.

Gladstone Will Return to Power Under Good Auspices.

LONDON, July 16.—At half past 2 o'clock this afternoon the returns show the election of 275 Conservatives, 45 Liberal-Unionists, 262 Liberals, 64 anti-Parnellites, 9 Parnellites and 3 Laborists. This gives the government 310 members and the opposition 338. There are still 23 members to be elected and at the very best Gladstone will have a majority of not over 40 behind him.

When Mr. Gladstone again enters the ministry it will be necessary for him to resign his seat in the house of commons and to again stand for election. The Conservatives and Liberal-Unionists, encouraged by the enormous reduction they made in his majority Wednesday, think that when he again appeals to the Midlothian electors they will be able to defeat him.

Justin McCarthy, who was defeated in Londonderry, has been returned from the north division of Londonderry. Sir Wilfred Lawson has been returned.

A BLOCKADE LOOKED FOR.

Grain Dealers Certain There Will Be One But at a Loss to Prevent It.

KANSAS CITY, Mo., July 18.—The grain men are very much in earnest in their efforts to do something towards preventing a car famine and general blockade when the new crop starts. The matter came up again on call to-day when the special committee appointed to consider it presented a report suggesting that an extra charge be made against receivers who hold cars over forty-eight hours and shippers who hold cars longer than seventy-two hours. The matter was not discussed again, but a resolution was passed calling a meeting to be held at 3 o'clock Monday afternoon, at which time some formal request to be presented to the railroad companies will be drawn up.

Heavy Rain in Central Kansas.

EMPORIA, Kan., July 18.—The heaviest rain since last spring is pouring down to-day. The rain is so heavy and the day so dark that gas was in use all forenoon in the stores and offices. Reports by telegraph show that the shower is widespread. The corn crop is now assured, so farmers say.
