

**NO MORE BACKACHE**  
**OREGON KIDNEY CURE**  
**TEA FOR KIDNEY TROUBLES**

Recently the following notice appeared in the San Francisco Chronicle:

"Judge S. had been sick only about two weeks, and it was not until the last three or four days that the malady took a serious turn. At the beginning of his illness he suffered from diabetes and stomach disorder. Later the kidneys refused to perform their functions and he passed quietly away. Thus ended the life of one of the most prominent men in California. Like thousands of others his untimely death was the result of neglecting early symptoms of kidney disease."

**IF YOU** are troubled with diabetes, gravel, or any derangement of the kidneys or urinary organs, don't delay proper treatment until you are forced to give up your daily duties; don't waste your money on worthless liniments and worse plasters, but strike the seat of the disease at once by using the greatest of all known remedies, the celebrated Oregon Kidney Tea. It has saved the lives of thousands. Why should it not cure you? Try it. Purely vegetable and pleasant to take. \$1.00 a package, 6 for \$5.00.

**Wonderful.**

The cures which are being effected by Drs. Starkey & Palen, 1529 Arch St., Philadelphia, Pa., in Consumption, Catarrh, Neuralgia, Bronchitis, Rheumatism, and all chronic diseases, by their compound Oxygen Treatment, are indeed marvellous.

If you are a sufferer from any disease which your physician has failed to cure, write for information about this treatment, and their book of two hundred pages, giving a history of Compound Oxygen, its nature and effects with numerous testimonials from patients, to whom you may refer for still further information, will be promptly sent, without charge.

This book aside from its great merit as a medical work, giving, as it does, the result of years of study and experience, you will find a very interesting one.

**THE CITY OF BABYLON.**

A Marvelous Town That Has Laid In Ruins Many Centuries.

According to Herodotus the ancient city of Babylon stood on a broad, level plain, and was an exact square of fourteen miles each way, making the entire circuit of the city fifty-six miles. It was protected by both a wall and a moat, the latter being broad and deep and kept constantly filled with water. But the wall was the wonder of wonders, being 93 1/2 feet in width and an even 200 feet in height. This monster barrier of solid brass, the lintels and side pieces being in bronze. Cross walls ran along the banks of the Euphrates, each provided with twenty-five gates, which corresponded to the number of streets running in each direction from the river. The most remarkable edifice inside the wall was the Temple of Bel, a pyramid of eight square stadia. On the summit of this pyramid stood a pure gold image of Bel 40 feet high, two other smaller figures of the same precious metal and a golden table 40 feet long and 15 feet wide. This wonderful city first came prominently into the history of the world in the year 747 B. C., but since Alexander the Great it has been a ruin, the site having at one time been entirely lost.

**Children Cry for Pitcher's Castoria.**

A Pretty Surprise.

A beautifully illustrated and charmingly bound edition of Longfellow's "Evangeline," the most popular poem ever published by an American author, and one of the most famous poems in the language, just published, is a pretty surprise for book lovers. It is in large type, numerous and excellent illustrations, very fine and heavy paper, gilt edges, remarkably handsome cloth binding, with gilt title and ornaments. No illustrated edition has ever before been published at less cost than \$1.50, and that is about what you might "guess" the price of this to be, but it isn't—it sells for only 19 cents! plus six cents for postage, or by mail. This covers only about the actual cost of manufacture by the 100,000, the publisher's object being, not profit, but to show the book loving millions what he can do. His publications are not sold by dealers, but only direct, catalogue, over 100 pages, a literary curiosity in its way, is sent for a two-cent stamp. Every home in the land ought to have a copy of this Evangeline, so charmingly beautiful, as a poem, as a collection of artistic illustrations, and as a product of the book-making art. Address, JOHN E. ALDEN, Publisher, 57 Rose St., New York.

Jas. S. Kirk & Co., of Chicago, have put upon the market lately, as a result of their half century's experience, their Dusky Diamond Soap, a soap adapted to all household uses. By a happy but peculiar combination they are enabled to use tar in this soap, and there is no one that needs to be told that tar is recognized as the greatest of the healing agents. It also is recognized for its softening qualities, and any one troubled with hard, sore hands, will become enthusiastic over the "Dusky Diamond" Soap after once using it. Your grocer keeps it.

Cholera infantum has lost its terrors since the introduction of Chamberlain's Colic Cholera and Diarrhea Remedy. When that remedy is used and the treatment as directed with each bottle is followed, a cure is certain. Mrs. Fanny Lauderdale, of Rock, Pope county, Illinois, says it cured her baby of cholera infantum and she thinks saved its life. A. W. Walter, of Waltersburg, Illinois, says it cured his baby boy of cholera infantum after several other remedies had failed. The child was so low that "he seemed almost beyond the aid of human hands or reach of any medicine," but Chamberlain's Colic, Cholera and Diarrhea Remedy cured him. 25 and 50 cent bottles for sale by Geo. M. Cheney.

**E FELT FRISKY.**

number of cattle were landed at the wharf one morning lately. The animals seemed quiet. The driver tried to drive them without any success.

reaching Conway street a heifer, which had been moving along very placidly, became very much animated, and made things very interesting for the balance of the herd. The street being too wide for her she danced up an alley. A gate blocked her way, but only momentarily. Through it she went and then another obstacle presented itself. Mrs. Emma A. Poole, who proved to be no more of a stop to the heifer's onward progress than Ft. Carroll would be to a man-of-war.

In a moment Mrs. Poole was knocked to the ground, and in the kitchen it went. There some destruction of property was committed, but not enough to satisfy the heifer. The dining room was next entered where the well-known quadruped-in-a-china-shop scene was re-enacted. The hallway was then taken in, and a lamp was knocked down. The heifer wanted to conquer higher worlds, so she went upward into a bedroom. Here, temporarily, repose was sought on the bed, but it fell under the animal's weight, other damage being done during this occurrence. From here, the weather being warm, her heiferhood went into the bath-room and hopped into the bath tub.

Mrs. Poole then commenced calling for help; and with the assistance of a blue-coated soldier, drove the animal out and she at once sailed up Hanover street and entered another house, but did no damage. The driver finally caught the animal.

**THE "DOG-FACED WOMAN."**

She Lived Off Nature in Lancaster County and Expired in a Tent.

Mary Alloway, an aged and eccentric character of Mount Joy township, Pennsylvania, familiarly known in the neighborhood by the title of "Mary, the dog-faced woman," died lately in her hotel in Eshleman's woods.

She erected a tent in the woods and there lived in poverty all the year around, having only a tattered blanket for a bed covering even in the severest winter weather. In the summer she subsisted off wild fruits, berries, nuts and roots, and for the remainder of the year she contrived to keep soul and body together by begging from neighboring farmers.

She roamed at will all over the region, accompanied by a pack of dogs as lean and gaunt as herself. Several months ago the people of the neighborhood, who had come to regard her as a nuisance, burned her tent and had her removed to the county almshouse, but she soon escaped to the woods, erected another hovel, and there died.

**More Than a Match.**

In the straits settlements the Chinese appear to be occasionally more than a match for the Western barbarian. It is the practice of the merchants selling goods to receive payment in rolls of copper coin done up in paper, each roll containing 50 cents, and it has occurred to some of their customers to substitute for the rolls packages containing a piece of bar iron the exact size and weight of a roll of 48 cents. An ordinary cent is put on each end of the bar, in case of the end of the roll should be opened. One merchant, it is stated, received \$40 in alleged rolls of copper, and found, on opening them, that each roll contained two cents and an iron bar. The unlucky dupe, it is added, failed to obtain conviction from lack of sufficient evidence.

**A Girl From the Cooking School.**

An editor who married a girl from a cooking club prints the following in his paper after a few years of married life: "Go stand where I have stood, go feel what I have felt, eat clammy half cooked feed, and fish and eggs that smelt. Go take what I have took, go bear what I have bore, throw tea cups at the cook, and swear as I have swore. Go live on juiceless steak, and soggy bread half baked; at midnight lie awake, and ache as I have ached. Go gnaw with all your might on tough pieces of doughnuts and pies, and stop between each breath to pick out hairs and flies. Go do what I have done—make yourself a fool; by winning as I have won, a girl from a cooking school."

**Over the Mountains.**

Plans are being examined for the construction of a railroad across the main chain of the Caucasus mountains. The line will have a length of 100 miles and will present great engineering difficulties. There are to be two tunnels, one four and a third and the other six and three-quarter miles long.

**Everything Is Regulated.**

One of the regulations of the Russian police refers to the censorship of price lists of goods, notes of invitation to parties and personal visiting cards; also for the censorship of seals, rubber stamps and business cards of individuals or corporations. Another order regulates the sale of soap, starch, tooth brushes and insect powder, and another controls the printing on the paper used in making cigarettes.

**The Farther the Cheaper.**

It costs \$105 per ton to transport dry goods from New York to San Francisco by rail, the time being from twenty-two to twenty-six days. The same goods, if brought via Panama, part rail and part steamer, pay \$81 per ton, the time being about forty-five days. By clipper ship around the Horn the same goods can be laid down at a cost of \$20 per ton, the time being about eighty-five days.
