CATCH THAT MAVERICK

The frisky dollar. In all lines of Boots and Shoes there is no dealer in Southwestern that can

ROUND UP BARGAINS

To equal yours respectfully. We are here for business from the ground up, and propose to let you know it. Come and see us.

I WILL

Is the key-note to success. The firmness of our resolution to

LEAD THE TRADE

In Boots and Shoes is symbolized in the noble figure here given. THE BOSTON SHOE STORE has already set the fashion

IN McCOOK

Of making people talk about their goods and prices. A visit to their store will convince you of this.

A Big Drive

Is now being made by us on many lines, but especially on a fine line of

LADIES SHOES.

Ladies will find the selection very desirable, while the shoes themselves are admitted to be

EXTREMELY

COMFORTABLE.

Call at once and get the pick before sizes are broken. These goods will go like ice cream.

Herman Pade was called to Indianola, Monday evening, to embalm the remains of the mother of the Powell Bros., who died while out from the east on a visit to her sons. The body was shipped home.

Miss Eunice Dean, of Kenton, Ohio, gave her sister Mrs. A. C. Marsh a pleasant surprise on Saturday last, by coming unexpectedly from Larned, Kansas, where she was making a short visit. She returned to Larned on Monday's early train well pleased with the looks of Nebraska.

Mr. Will S. Kimmell, who wandered off east with the Y. P. S. C. E. excursion in July, has become so infatuated with the effete east that he has decided to remain there and embark in business on his own responsibility; and in a brief while The Somerset Vidette will be launched upon the turbid sea of journalism by the publishers in response to the customary loud and piercing and popular demand. Having learned on THE TRIBUNE how to eradicate type-lice from a standing galley and how to sustain life on mileage and a sample of early-rose potato, he is eminently qualified to make The Vidette a robust and rip-sporting shaper and trimmer of public opinion, and in true occidental style. His many friends out here in Nebraska will join THE TRIBUNE in wishing him a full measure of success, prosperity and fame.

### WE "PASS" NOBODY.

George Laverty is confined to bed and is reported quite ill.

L. C. Wolfe has been on the main line during Reddin's illness.

William Smith, machinist, is putting him up a stable, this week.

The construction train came down from the Imperial branch, Tuesday afternoon.

Buy a house from S. H. Colvin on the monthly installment plan and save money.

Jack Curran entered upon his new passenger run on the Orleans-St. Francis line, Monday.

A train a mile and a quarter in length was lately hauled over the Reading railroad by a single engine. It consisted of 250 empty freight cars.

Harry Crandall is carrying his right hand in a sling and is minus the ends of his first and second fingers, the result of getting between two cars.

Jay Tubbs went down to Holdrege on 2, Wednesday, and will work in the round there for a season until he shall have recovered his usual health to go on the road again.

A man flagged a train just as it pulled out of Somerset, and when the conductor rushed forward to see what was the matter the fellow said he had a keg of beer on the train he wanted to get off.

Holiday is thinking of rechristening his black mare Nancy Hanks, since her performance of 3:24 on Wednesday afternoon, when Ben Bowen thought \$10 worth that she wouldn't go in 3:45.

A sharp collection agent from Iowa came to Plattsmouth and Havelock and purchased a lot of accounts against B. & M. employees and then garnished the company. The first the employees knew of it was when their monthly checks failed to arrive. They are very indignant.

The "surfactors" came down from the Imperial branch, Tuesday afternoon, and were paid off; consequently the wet goods business was brisk for a day or two. Some of the gang promptly shipped to Wyoming to engage in work being pushed by the Burlington in that section of country.

The breaking of the turn table at the round house, Tuesday morning, has been a source of great inconvenience; and for a time it was impossible to get a locomotive in or out of the house, engines being cleaned on sidetracks, and those out doing double service for the imprisoned ones. A Y-track was at once constructed upon which to turn locomotives and cars. It will be necessary to send to Pittsburg for a new casting. Engine 276 was on the table when the break occurred.

Who would think, to look at a big railway locomotive, that it could by any possibility be put together in less than one day? A London paper stated that the feat was accomplished at the Stratford works of the Great Eastern railroad of England. The locomotive was a "standard freight locomotive of the six coupled type, weighing more than thirty-seven tons and able to haul 300 tons." From the driving of the first rivet to the application of the final coat of varnish the work occupied less than ten hours.

The ball and banquet by Boyd Hook and Ladder Co., last evening, was not largely attended, and its financial success was marred by the skipping out of Messrs. Fox and Westland with most of the proceeds, an east bound freight some time about midnight, leaving all bills for hall, music, printing, etc., unpaid.
