A Large and Successful Enterprise.

The publisher accompanied a party of inspection to the Meeker irrigation ditch on Sunday afternoon, and with others was surprised at the magnitude of the work and at the great obstacles successfully overcome by Mr. Meeker in the construction of his irrigating canal, especially at what are known as the "narrows," where almost insuperable difficulties were encountered and finally and substantially solved, by dint of hard work, skill and keeping eternally at it. The ditch was in fine running order, everything working smoothly, with about two feet of water in it. There are twenty-two miles now completed, extending from the junction of the Republican and Frenchman rivers east to a point somewhat beyond the Pickens farm southeast of the city. A pretty feature of this great enterprise is the numerous small lakes which dot the course of the ditch, numbering in all over twenty. They are not alone valuable as storage reservoirs but as fish ponds they have inestimable worth, and should be stocked with proper species of the finny tribe at once. Mr. Meeker is entitled to great credit for his ceaseless efforts to make the project a success, and it is to be hoped that he may reap a bountiful harvest therefrom.

Republican club headquarters have been established in the Meeker block, upstairs; and the star spangled banner is still there.

Don't fail to attend the republican rally tomorrow night.

The man who can only shake hands when he is a candidate is not to be trusted. He is one who manufactures his friendliness for occasions and lacks the uniformity which always characterizes the man who is genuine.

Remember the grand rally on Saturday night. Hon. Lorenzo Crouse, Hon. J. C. Allen, Hon. J. Gilham and Hon. T. J. Majors will be the orators for the occasion. Let the people all turn out.

A way car, two brakemen standing therein, a cut of cars running wild, crash, two brakemen lying prone on the floor—sulphurous atmosphere—sequel, one senseless shock, one bruised jaw, cut eyes, doctor's bill. This is railroading. It occurred in McCook yard and Shorty Keith is still laying off.

The Burlington is rapidly pushing its line toward Sheridan, Wyo., and will be running trains into that town by November 1. Sheridan already has a population of 1,000 and is growing rapidly. CALLEN-BEYER.

Yesterday afternoon Rev. A. W. Coffman of the Methodist church uttered the words which joined in the holy bonds of matrimony Mr. Samuel E. Callen and Miss Dora E. Beyer. The ceremony was performed at the residence of Dr. A. P. Welles, being witnessed only by relations of the contracting parties and a few friends. The groom is well known in railroad circles as one of the Burlington's most capable and trusted conductors. The bride is one of McCook's most estimable daughters. Widely known for devoted affection for her brothers. They were handsomely remembered by many friends and well wishers. The happy couple left on 6, the same afternoon, for the east, where they will pass an extended honeymoon; at the conclusion of which they will take up their residence in our midst and go to house-keeping after the fashion of all well regulated young married people. The Circus.

Brazil (Ind.) Times, May 31, 1892. Walter L. Main's circus here yesterday drew a large crowd. The affair was much larger than expected and was meritorious throughout. There was a pleasurable absence of fakers, tough characters, three-card monte men and such dangerous nuisances that usually congregate around a circus. The performance was good and much appreciated. McCook, Sept. 26th.
