SHOULD BE RETIRED. [From the Omaha Bee.] THERE ought to be no question about the defeat of Congressmen McKeligan and Kem in the fifth and sixth districts. It must be that the constituents of these representatives are fully convinced that it was a great mistake to send them to congress, and to re-elect them would be an inexcusable blunder. They not only misrepresent the real sentiments of the people of Nebraska, but they also discredit their intelligence. No other two men were of so little consequence in congress, and yet there was opportunity for them to have made themselves felt if they possessed the ability to do so. They were ignored and disregarded, not from any unwillingness on their part to be recognized, but for the reason that it was very promptly discovered that they had no claim to recognition. So far as any interest of Nebraska was concerned they were entirely useless and undoubtedly would be under any circumstances. A constituency that sends such men to congress does a positive wrong to the whole state.

The republican candidates in the fifth and sixth districts are capable men, who would be serviceable to their constituents and to the state at large as representatives in congress. Prof. W. E. Andrews, in the fifth, is a man of fine acquirements, while Hon. James Whitehead, in the sixth, has every qualification for a useful representative in the national legislature. Both of these gentlemen are familiar with the wants of Nebraska and in hearty sympathy with the best sentiment and aspiration of its people. They are thorough republicans, who, in case of the election of a republican president and house of representatives, which now seems almost assured, will be able to do the state good service, and in any event would represent it creditably.

McKeighan and Kem have not a single valid claim to the support of an intelligent and progressive constituency. They are mere political charlatans, whose failure in private life is proof of their unworthiness for any public station, and least of all for that of representatives of a great and growing state like Nebraska, with an intelligent, industrious, thrifty and honest people. The voters of the fifth and sixth districts, we confidently believe, will not discredit their intelligence by electing such mountebanks as McKeighan and Kem over such capable men as Andrews and Whitehead.

PASTOR KOENIG'S NERVE TONIC. St. Vitus Dance Cured! VIII. SAN ANTONIO, CAL., FEBRUARY, 1900. My boy, 13 years old, was so affected by St. Vitus Dance that he could not go to school for two years. Two bottles of Pastor Koenig's Nerve Tonic restored his health, and he is now attending school again. MICHAEL O'CONNEL.

FREE A Valuable Book on Nervous Diseases sent free to any address. This medicine free of charge. This remedy has been prepared by the Reverend Pastor Koenig, of Fort Wayne, Ind., since 1876, and is now prepared under his direction by the Koenig Med. Co., Chicago, Ill. Sold by Druggists at \$1 per Bottle, 6 for \$5. Large Size, \$1.75, 6 Bottles for \$5.

NO MORE BACKACHE. OREGON KIDNEY TEA. CURES ALL KIDNEY TROUBLES. Recently the following notice appeared in the San Francisco Chronicle: "Judge S. had been sick about two weeks, and it was not until the last three or four days that the malady took a serious turn. At the beginning of his illness he suffered from diabetes and stomach disorder. Later the kidneys refused to perform their functions and he passed entirely away. Thus ended the life of one of the most prominent men in California." Like thousands of others his untimely death was the result of neglecting early symptoms of kidney disease.

A DEMOCRATIC VIEW. THE MCKINLEY TARIFF HELPS THE WORKINGMEN.

The Democratic Labor Commissioner of New York Commends the McKinley Tariff—It Has Added Millions to the Earnings of Laborers. The most important incident of the campaign thus far has probably been the report of the Democratic commissioner of labor in New York, Hon. Charles F. Peck. This report, prepared by a Democrat, is recognized by Republicans and Democrats as the most striking indorsement that could have been given the McKinley law.

Mr. Peck, who is a Democrat, was appointed to the office of commissioner of labor statistics by President Cleveland, and has held the position (as a Democrat) ever since. In his report he takes up the question of wages and manufactures since the enactment of the McKinley law, comparing the first year under the McKinley law (1891) with the last year under the old law. Of course his figures relate only to the industries of his own state of New York, but they are very interesting and important in their bearing.

The report shows that there was a net increase in wages of \$8,877,925.09 in the year 1891, as compared with the amount paid in 1890 and a net increase of production of \$31,315,130.68 in the year 1891 over that of 1890. Of the sixty-seven industries covered 77 per cent. of them show an increase either of the wages or product, or both. Commissioner Peck gave as a reason for selecting the tariff as the subject for his ninth annual report that it especially affected the working classes. He had feared that the statements of the Democratic speakers were not borne out by facts. Governor Campbell had said that not a single workingman's wages had been raised as the result of the McKinley act. "My reports show that there were just 285,000 men whose salaries were raised as the result of this law," asserted the commissioner. Mr. Peck added that he was free to admit that his report was not in harmony with the platform adopted at Chicago in so far as it related to the subject of the tariff. However, his report was as he had found the condition of affairs.

The summary prepared by Commissioner Peck says in opening: "In pursuance of law the undersigned has completed the work attendant upon the issuing of the ninth annual report of the bureau of statistics of labor, and herewith gives a brief summary of the contents of the same. Its completion has been necessarily delayed by reason of the unusual amount and important character of the work undertaken. Of all the varied subjects investigated and reported upon during the bureau's nine years of existence none has borne a closer relationship to the welfare of the wage earners of the state or furnished the public in general with statistical data so valuable to a comprehensive understanding of the practical workings of the one great economic question of the present day than the tariff. Tariff, whether levied 'for revenue only' or for 'revenue and the incidental protection of American manufacturers and American labor,' is certainly a question of such vast import as to enlist the most thorough and dispassionate investigation at the hands of the American people. And while the present report has under the law been confined to the state of New York, its results can but be taken as indicative of the conditions existing in every section of our country where manufacturing and industrial pursuits are followed.

Down in our part of the country we fire off shotguns and revolvers on election mornings to let the colored voters know we are going to have a fair election.—Congressman Allen, of Mississippi. Women at Work. The thinking women of the United States—and all women think—feel that they ought to be interested in the campaign. Mrs. Ellen J. Foster, who is at the Hotel Savoy, was at the Republican headquarters yesterday and saw Mr. Carter and General Clarkson concerning the work of the Women's Republican Association, of which she is president. Much of this work is the distribution of literature. Mrs. Foster, in speaking of the different features of the work, said: "Our women's work is going along finely. A most gratifying feature is the hearty response which comes from Republican officials throughout the country. There is scarcely any state committee which does not urge the circulation of our literature and the organization of our women. The first issue of the Home and the Flag series is just out. We think it the prettiest bit of political literature ever issued from any headquarters. It will be followed by ten or a dozen other books in like style, covering the main principles of Republicanism. These are being sent to state chairmen, and by them circulated through county committees among women.

Loss to Farmers and Manufacturers. A Washington special says: "The cutting down of the consular appropriation by congress at its last session will have the effect of crippling this important branch of public service. Considering the size and wealth of the country our consular service is not what it should be. It is not as well supported as that of England, France or Germany, and is consequently not as efficient. It is reported at Washington that the department of state, in consequence of the reduction of the appropriation, will be obliged to suspend the publication of the consular reports that have proved to be so valuable to the country."

KIRK'S DUSKY DIAMOND TAR SOAP. HEALTHFUL, AGREEABLE, CLEANSING. For Farmers, Miners and Mechanics. A PERFECT SOAP FOR ALKALI WATER. Cures Chafing, Chapped Hands, Wounds, Burns, Etc. A Delicately Scented Shampoo. WHITE RUSSIAN SOAP. Specially Adapted for Use in Hard Water. WONDERFUL! The cures which are being effected by Drs. Starkey & Palen, 1529 Arch St., Philadelphia, Pa., in Consumption, Catarrh, Neuralgia, Bronchitis, Rheumatism, and all chronic diseases, by their compound Oxygen Treatment, are indeed marvellous.

Oh, What a Cough. Will you heed the warning. The signal perhaps of the sure approach of the more terrible disease Consumption. Ask yourselves if you can afford for the sake of fifty cents, to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. This explains why more than a million bottles were sold the past year. It relieves cough and whooping cough at once. Mothers do not be without it. For lame back, stiff chest or Shiloh's Porous Plaster. Sold by A. McMillen.

A Little Girl's Experience in a Lighthouse. Mr. and Mrs. Loren Trescott are keepers of the Gov. Lighthouse at Sand Beach, Mich., and are blessed with a daughter, four years old. Last April she was taken down with measles, followed with a dreadful cough and turning into a fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones." Then she tried Dr. King's New Discovery, and was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at A. McMillen's drug store.

Wisdom's Violet Cream. Is the most exquisite preparation in the world for softening and whitening the hands and face. Nothing enters the composition of this delightful toilet article which could prove injurious to the most delicate skin. It is not only a substitute for, but in every respect superior to glycerine, cold cream, vaseline and like other preparations. Being neither sticky or greasy, kid gloves may be worn immediately after applying it. For gentlemen's use after shaving it stands without an equal. It acts by improving the softness, clearness and healthy tone of the skin, and its daily application tends to preserve it from the action of drying winds, vivid sunshine and extreme temperature. Try it.

Children Cry for Pitcher's Castoria. When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria. THE MILD POWER CURES. HUMPHREYS' SPECIFICS. Dr. Humphreys' Specifics are scientifically and carefully prepared Remedies, used for years in private practice and for over thirty years by the people with entire success. Every single Specific a special cure for the disease named, and they cure without dragging, purging or reducing the system, and are in fact the only Sovereign Remedies of the World.

HUMPHREYS' WITCH HAZEL OIL. "THE PILE OINTMENT." For Piles—External or Internal, Blind or Bleeding; Fistula in Ano; Itching or Bleeding of the Rectum. The relief is immediate—the cure certain. PRICE, 50 CENTS. TRIAL SIZE, 25 CENTS. Sold by Druggists, or sent post-paid on receipt of price. DR. HUMPHREYS' MANUFACTURING CO., 111 & 113 William St., New York.

Energy Always Wins. ATLANTA, ILL., March 6, 1892. Queen City Silver and Nickel Plating Co., East St. Louis, Ill. GENTS: The Queen Plater beats anything I ever saw to make money. When I received it, I put in a brass ring to test it, and to my surprise it was nicely silver plated in five minutes. I made \$29.50 the first week, and \$47.85 the second week, plating jewelry and tableware. At the end of the first month I had \$107.45 clear profit. I now get all the knives, forks, spoons and jewelry one person can plate, without going from home. I will let my son have the Plater I now have at home, and I am going out to sell Platers. I sold three today, at \$10.00 each, and did some plating besides. I sent \$20.00 today for four more Platers. I believe any enterprising person can make a grand success of this business. Very respectfully, J. C. BALDWIN.

The examinations during the day were hardly proof of anything on either side, as the state would picture a hypothetical man entirely sane and actuated by an apparent purpose, and of course the expert would have to pronounce him sane. Then the defense would picture a man with the delusions Irvine claims to have experienced, with partial consciousness at times and a total lack of it at others, and of course the hypothetical man was insane. The testimony will probably be concluded this afternoon at the most, and the argument by counsel will begin. The arguments will doubtless be long and numerous, as there is a wide field to cover and plenty of orators to cover it.

Congregational Colleges. OMAHA, Oct. 20.—There were several visiting ministers at the Congregational assembly yesterday morning and they were invited to take seats as corresponding members. After the reading of the minutes the special order of business was the report of the educational commission in which the question of relocation of Doane college and the consolidation of the educational work of the church in the state formed a very important part. Much sparring was done through the day, there seeming to be a majority of the speakers favoring consolidating the two colleges, to locate them at Neligh. It was a clear victory for the Gates college ring. However, the convention adjourned, leaving the matter in an unfinished condition.

New Irrigating Canal. GERING, Neb., Oct. 20.—A new irrigating canal is now being built in the western part of Scott's Bluff county, the surveying having just been completed and about sixty teams put to work. It is the Horse creek irrigating canal and takes water from Horse creek, emptying into large reservoirs of 480 and 260 acres, respectively, from which it will be distributed by lateral ditches over an area of about 5,000 acres of land. The main canal being designed for use only in supplying the reservoirs is of ample size, being fourteen to sixteen feet wide.

A Doctor on Trial. PONCA, Neb., Oct. 20.—The case of the State of Nebraska vs. Dr. B. L. Wagner occupied the attention of the court yesterday. The doctor is charged with rape, the complaining witness being Mrs. Will Pomeroy of Allen. The testimony in effect was that the doctor, on one of his visits to his patient, ravished her. The testimony of some of the witnesses was more favorable to Wagner, inasmuch as they questioned the good character of Mrs. Pomeroy. The jury has not yet brought in a verdict.

Worked by Two Sharpers. NEBRASKA CITY, Neb., Oct. 20.—A. J. Kuhlman yesterday sold a valuable colt to two strangers. The price agreed upon was \$1,000 and the strangers gave Kuhlman a mortgage that they had for that amount on a piece of Missouri land. It soon developed that the mortgage was valueless and search was made for the sharpers. They were captured at Hamburg and will be brought back and prosecuted.

Thrown Under the Wheels. PLATTSBOURNE, Neb., Oct. 20.—Last evening between 5 and 6 o'clock Con McCarthy, a well known Oreapolis section boss, while trying to board the caboose of freight train No. 32 was thrown under the wheels and run over. His right arm was completely severed from the body and his head crushed badly, causing instant death. A special was sent to bring his body to the city. He leaves a wife and several children.

Captured a Burglar. GRAND ISLAND, Neb., Oct. 20.—Last night the police captured Wm. Hutchinson in the act of burglary. He was bound over to the district court in the sum of \$300. He had burglars' tools on his person and a number of flat pieces of gold which, from the inspection, is believed to have been in a tray used in some Catholic church. Fine Crop Outlook. OGALALA, Neb., Oct. 20.—Keith county has had most excellent rains and the ground is in better condition than it has ever been known to be at this season of the year. Fall wheat and rye is looking well and there is a very large increase in the acreage. Odd Fellows Grand Lodge. OMAHA, Oct. 20.—The thirty-ninth annual session of the grand lodge of Nebraska, Independent Order of Odd Fellows, convened yesterday morning in Odd Fellows hall. Mother and Child Hurt. FAIRMONT, Neb., Oct. 20.—Mrs. Henry Fielder and her infant were thrown from a buggy with a collision with another vehicle and severely injured. Through an Open Switch. CRETE, Neb., Oct. 20.—The west bound B. & M. fast train ran through an open switch yesterday morning causing some damage but no lives were lost.

The Irvine Trial. LINCOLN, Neb., Oct. 20.—The ninth day of the Irvine murder trial was totally devoid of sensational features, comprising almost exclusively the minute discussion of the various phases of insanity and their respective characteristics by experts, and occasional spirited verbal altercations between witnesses and attorneys. Judge Powers opened the proceedings by offering in evidence a photograph of the hotel dining room where the shooting occurred. He also renewed his offers of letters which passed between Mrs. Irvine and husband after she left Ball Lake. The state objected, but they were admitted. The examinations during the day were hardly proof of anything on either side, as the state would picture a hypothetical man entirely sane and actuated by an apparent purpose, and of course the expert would have to pronounce him sane. Then the defense would picture a man with the delusions Irvine claims to have experienced, with partial consciousness at times and a total lack of it at others, and of course the hypothetical man was insane. The testimony will probably be concluded this afternoon at the most, and the argument by counsel will begin. The arguments will doubtless be long and numerous, as there is a wide field to cover and plenty of orators to cover it.
