It long ago seemed as though shoes could never be better and never be cheaper, but they are better now and cheaper now than they ever were before.

We will be much obliged to our friends in the surrounding villages and country if they will send us any accident, sudden deaths, or other news that may be of interest to the general reader. In most cases a postal card will be sufficient for a single accident. Just give us the simple fact, and we will elaborate them. "You touch the bottom, and we do the rest."

This month the new money postal order will go into use. The system has been so simplified that there is little or no complication, and at the same time it is a good way to send money. A sheet calling for amounts from one cent to \$3 has been prepared, which on payment of one cent, the amount to be sent will be torn off about the same as an express order. There will be no writing on it by the postmaster, the sender endorsing the check or draft. The government guarantees its safe transportation. It is thought that the new system will be used extensively by senders of small amounts.

Farmers are reading men and consider well what they read, says the Cincinnati Commercial. They are not easily deceived by buncombe speeches or buncombe articles in newspapers. On the question of the tariff they are as well if not better informed than any other class of citizens. Therefore they must by this time be convinced that a tariff which protects their products from injurious foreign competition, which fosters manufactures and increases the home market demand for their farm products and which, by a reciprocity policy, increases the foreign demand for the same, is the one they should endorse, and the party that stands for that tariff is the one that should, in their own interest, have their support.

W. R. Starr, the Republican candidate for county attorney, has a splendid record as an old soldier, and is a lawyer of acknowledged ability. He is in every way furnished and equipped to make Red Willow county a competent and faithful officer in the responsible and important capacity of attorney. Let the voters consider well his merits and act accordingly.

The Messrs. Hatfield have an abiding faith in Red Willow county dirt; and they have just added 480 acres of fine land to their large holdings, by purchase from Samuel Lyons. Their new acquisition is situated on Ash creek, just east of the G. Lloyd Clark place, is heavily timbered as well as valuable from an agricultural standpoint. They are now among the heaviest, if not the largest, landholders in this county.

Con. Ryan will make a good commissioner, and the voters should see to it that he is elected. The patience of our people should not be asked to stand three more years of misrepresentation by the present incumbent. He does not deserve reelection. McCook has already twice paid him the debt she may owe him. Now let us have a commissioner for the people, who will secure needed improvement in roads and bridges and business methods.

A SCRAPER.

(From the Indianola Courier.) Some of the boys are much worried over Mr. Sheridan's scraper deal. They think it will lose him votes.

Now we take an altogether different view of this matter. Mr. Sheridan has never told his most intimate independent lieutenant that he came to this country for his health, but wholly on account of comfort which money brings. And who is more able to contribute to Mr. Sheridan's comfort than the county of Red Willow, and what could be more becoming of a corporation curser than that he should single out some corporation, municipal or private, and in the same name and by the authority of the people's party make it disgorge some of its hoarded wealth. Mr. Dodge, the financial encyclopedia of the independent party, was working the railroad for an annual pass in the interest of reform, and we can therefore see no good reason why Mr. Sheridan should not charge the county a good 200 per cent on road scrapers.

There may be some obstreperous individual who will claim that this is even worse than the banks that charge 3 per cent a month, but the two are entirely dissimilar. The banker is either a democrat or a republican. Mr. Sheridan is a reformer. The bank used the gold bug dollar, Mr. Sheridan used the fat, i. e. his individual credit with the wholesale house. In other words Mr. Sheridan did the business for both the county and the scraper company.

The scraped and unvarnished facts are these: About the first of July Commissioner Young ordered of Mr. Sheridan 12 road scrapers. On the 16 of July Mr. Sheridan furnished the county the aforesaid scrapers. Four weeks later, August 12, he filed his claim in the following words and figures:

"The county of Red Willow in account with I. A. Sheridan, July 16, 1892. Dr. 12 Columbus Road Scrapers at \$16 each \$ 192 00 Discount for cash 19 20 \$172 80

I, I. A. Sheridan, being duly sworn, do depose and say that the above account is just and correct and that the amount claimed is wholly unpaid after allowing all just credits.

I, A. SHERIDAN."

Later on the county wanting some more road scrapers, Commissioner Bolles was instructed to purchase them. This time Mr. Will LaTourette, of McCook, a republican, was given the order. October 7 he filed his claim in the following words and figures:

"The county of Red Willow in account with W. C. LaTourette, Dr. 12 Columbus Road Scrapers at \$6.00 each \$ 72 00 No discount for cash 72 00 \$ 144 00

This claim was allowed on the 7th inst. and then Commissioner Young interviewed Mr. Sheridan. It is said that Sam was so evenly balanced on his ear that he declared that when it came to furnishing road scrapers he didn't know a reformer from a republican. After thinking the matter over for three or four days the independent leader marched up to the court house and refunded \$88.80. And so after all Mr. Sheridan only gets 40 cents per scraper more than LaTourette. And this of course is caused by the McKinley bill.

We propose to stand right by Mr. Sheridan in this matter and accept any explanation he may choose to make as the true and bottom facts.

The railroad probably charged Mr. Sheridan more freight than it did LaTourette. The Columbus Scraper Company charged him just double the price and we have no hesitancy in saying that Treasurer Henton should never have accepted the money that Sheridan returned to the county.

Mr. Sheridan is in no position to be posted on the price of hardware, especially an article that fluctuates like road scrapers.

COLVIN HAS THE SACKS.

Now Let the Farmers Respond With the Grain.

S. H. Colvin informs us that he has received 100 sacks in which to place Red Willow county's exhibit of small grain for the World's Fair, and he desires us to urge upon the farmers of this county the importance of responding promptly to the request for their best samples of small grain for such exhibit, of course only the best and purest samples are desired. Those of our farmers who have meritorious products of the farm and are willing to give samples for this laudable object should report to Mr. Colvin at once. He will give all the requirements and particulars. And we urge prompt action, hoping many farmers will answer this request for assistance to place Red Willow county's attractions properly before the world.

THE TRIBUNE is pained to learn the death of Mr. and Mrs. Reuben Trowbridge's second child, a daughter almost seven years of age, last Friday morning, by membranous croup. The shrill shriek of the steam swing engine whistle is still heard in the land.

The genial countenance of Mr. Joe Wells will still grace the establishment, also the presence of the former employees.
