**OREGON KIDNEY TEA**  
CURES KIDNEY TROUBLES  
Recently the following notice appeared in the San Francisco Chronicle:  
"Judge S. — had been sick nearly two weeks, and it was not until the last three or four days that the malady took a serious turn. At the beginning of his illness he suffered from diabetes and stomach disorder. Later the kidneys refused to perform their functions and he passed quietly away. This ended the life of one of the most prominent men in California." Like thousands of others his untimely death was the result of neglecting early symptoms of kidney disease.

**IF YOU** are troubled with diabetes, gravel, or any derangement of the kidneys or urinary organs, don't delay proper treatment until you are forced to give up your daily duties, don't waste your money on worthless liniments and worse plasters, but strike at the seat of the disease at once by using the greatest of all known remedies, the celebrated Oregon Kidney Tea. It has saved the lives of thousands. Why should it not cure you? Try it. Perfectly safe and pleasant to take. \$1.00 a pack, 6 packs for \$5.00.

**Literary Note.**  
The November number of Romance is a typical American one. Here are grouped together characteristic stories by Nathaniel Hawthorne, Edgar Allan Poe, Mary Hartwell Catherwood, Henry S. Brooks, Sherwood Bonner, Mary E. Wilkins and Harriet Prescott Spofford—the last of whom contributes a thrilling, Thanksgiving story. The east, the west, the north and the south are alike represented in the vigorous wholesome and picturesque narratives, among which are half a dozen uncommonly strong original ones, by Violette Hall, Granville Sharpe, W. Thomson, K. L. Ketchum and Fred M. Hopkins. This is the third in the magazine's series of "Special numbers," illustrating the fiction of different nations, which are proving as popular as they are novel. Romance is issued by Romance Publishing Company, Clinton Hall, Astor Place, New York. The price is 25 cents a copy; subscription, \$2.50 a year.

**The Name and Fame**  
Of Wisdom's Robertine is known from the Atlantic to the Pacific. The demand for this elegant toilet article has spread so rapidly that it can now be had in every city, town and hamlet in the United States, likewise in many foreign countries, a position it could never have attained did it not possess rare and unquestionable merit. It beautifies and preserves the complexion, repairs the damages done by the use of the many dangerous cosmetics now in the market, and by its tonic and stimulating effect restores the skin to a natural, healthy action. Wisdom's Robertine is as harmless as the morning dew, and as invisible—saves the bloom and delicacy it gives to the cheek—as the air we breathe. Read the testimonials from famous artists, celebrated chemists and eminent physicians.

The best salve in the world for cuts, sores, bruises, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25c. a box. For sale by A. McMillen, May 23-1yr.

**Shiloh's Consumption Cure.**  
This is beyond question the most successful cough medicine we have ever sold, a few doses invariably cure the worst cases of cough, croup and bronchitis, while its wonderful success in the cure of consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a cough we earnestly ask you to try it. Price 10c. per bottle. If your lungs are sore, chest or back lame, use Shiloh's Porous Plaster. Sold by A. McMillen.

**Deserving Praise.**  
We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters and have never handled remedies that sell as well or that have given such universal satisfaction. We do not hesitate to guarantee them every time and stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. McMillen, druggist. Nov. 10.

## SOUTHERN FRANKNESS.

Some Sample Sayings by People Who Speak for the Democrats.

I am for the brave Buffalo man who slapped the dirty pensioners, who are for the most part beggars, in the face. They were dirty and lousy rascals who came into this country, and who abused women, who burned homes, who stole all that was in sight, and today, without an honorable scar, are bleeding this country, and I am helping to pay for it. Let the hired Yankees howl! I am of the south and for the south. The pension fraud is a theft, and we repeat that the south has been taxed to death to pay this Grand Army of rascals—those bottle-scarred bums who reach in the empty palm—and when Cleveland struck the beggars in the face he did a good business job. We hope to God that he may have a chance to hit 'em again. Vagrants and mendicants should be both vigorously slapped and kicked.—Durham (N. C.) Globe.

Cleveland vetoed over 250 pension bills and allowed a large number to die by what is known as the "pocket veto." Because of this work Cleveland was defeated four years ago, when he should have been re-elected.—Raleigh News Observer.

This drain of \$40,000,000 is exhausting the energies of the south, and, in connection with the tariff taxes, has reduced the southern farmer to a condition of actual want. The continuation of Benjamin Harrison in the presidential chair opens the way for a still further looting of the treasury. A service pension bill will be passed before long unless the people drive off the looters.—Memphis Appeal (Dem.)

**The Bird That Thrives on Calamity.**

The resolution of the convention in favor of bimetallicism declares, I think, the true and necessary conditions of a movement that has, upon these lines, my cordial adherence and support. I am thoroughly convinced that the free coinage of silver at such a ratio to gold as will maintain the equality in their commercial uses of the two coined dollars would conduce to the prosperity of all the great producing and commercial nations.—Harrison's Letter of Acceptance.

Another "Congratulation" on Maine.

Chairman Manley, of the Maine Republicans, evidently believes in the old adage that "he laughs best who laughs last." Anyhow, he is now having his "laugh." Chairman Harrity, of the Democratic committee, sent out a congratulatory address to the Democrats on the result of the Maine election without waiting for full returns. Now that the votes are all counted Mr. Manley has his turn. He says:

"The Republican state committee desire to congratulate the Republicans of Maine upon the full and complete victory achieved on Monday last. The Democratic party, with the best organization it has had for years, failed to poll as many votes by 6,000 as it gave to its candidate for governor in 1888, and did not cast as many votes as it gave its candidate for governor in 1884, in 1880 or in 1876. Complete returns show that the Republicans have elected Henry B. Cleaves governor by 13,300 majority over the Democratic candidate; have returned to congress Hon. Thomas B. Reed, Hon. Nelson Dingley, Hon. Charles A. Boutelle and Hon. Seth L. Milliken by large majorities; have elected thirty out of thirty-one senators, 110 out of 150 representatives to the legislature, and have elected a majority of county officers in every county in the state."

It was the Republican party, under the aggressive, progressive, wise and benign policy of a generous tariff upon foreign importations for the protection of home labor primarily and the raising of revenue necessarily, that abolished slave labor and emancipated the American wage earner, of whatever color or condition, from the drudgery of pauper wages.

**Effect of Reciprocity with Brazil.**  
On the 30th of June the reciprocity agreement with Brazil had been in existence fifteen months, and the statistics show that the imports from that country into the United States increased \$56,836,205, and the exports from the United States to that country \$1,764,483. The total exports to Brazil during that period amounted to \$18,044,452, being an increase of 10.84 per cent. as compared with the fifteen months ended March 31, 1890. The items of exports were as follows: Breadstuffs (almost entirely flour), \$6,828,794; cotton manufactures, \$863,777; chemicals, drugs, dyes and medicines, \$1,068,799; iron and steel manufactures of \$3,189,650; illuminating mineral oils, \$1,456,931; provisions (mainly bacon, hams and lard), \$1,549,912; lumber, \$1,016,288; all other articles, \$2,560,701.

It is Peck, the Democratic official—Peck, the Cleveland appointee—who reports a net increase in wages for 1891 over 1890 of nearly \$6,378,000. It is Peck, the Democratic official—Peck, the Cleveland appointee—who reports a net increase in production for 1891 over 1890 in sixty-eight industries, employing 285,000 persons, of \$31,315,130.—New York Tribune.

It was highly creditable to Mr. Harrison that he resented the unlawful discrimination against Americans on the Welland canal.—New York Sun.

## IT HURT.

DEMOCRATS WRITE UNDER PECK'S REPORT.

They Make Unreasonable Demands for the Purpose of Derediting It—Democratic Truths Are Unpleasant to Them. Peck Undismayed.

The manner in which the report of Commissioner Peck, of the New York state bureau of labor statistics, has been received by the managers of Mr. Cleveland's campaign strikingly proves the familiar charge against the Democracy that it is essentially a calamity party. Mr. Peck is a Democrat; he has always been a Democrat. He was appointed to be commissioner of the labor bureau of New York on the date of its creation April 4, 1888, by Grover Cleveland, who was then governor of New York. He has then performed the duties of his office so admirably as that each successive Democratic governor has successively reappointed him. In 1886 he received his second commission from David B. Hill; in 1889 Governor Hill renewed the commission, and last May Governor Flower appointed him for the fourth time. Mr. Peck's distinguished character as a statistician and the successful and important work he has done were recognized last May by his election to the office of president of the American Association of Labor Commissioners at the association's convention in Denver. Mr. Peck succeeded in that office the well known statistician, Carroll D. Wright. It thus appears that the same high opinion of Mr. Peck's character, ability and record was entertained by his fellow commissioners of labor throughout the Union as has been expressed by Mr. Cleveland, Mr. Hill and Mr. Flower successively during the last ten years.

**What Peck Really Did Tell.**  
Three weeks ago Mr. Peck issued his ninth annual report. Necessarily it dealt with the conditions of labor in the state of New York since the McKinley bill went into effect. It is Mr. Peck's duty to ascertain from year to year how American workmen have fared in wages and production. He corresponded with 6,000 manufacturers in the state of New York and received from them statements of what had been going on in the various lines of trade and reported to the governor the simple facts, as he was in duty bound to do. These facts were summed up in his own language as follows:

"It appears that there was a net increase in wages of \$6,377,925.09 in the year 1891 as compared with the amount paid in 1890, and a net increase of production of \$31,315,130.68 in the year 1891 over that of 1890. Of the sixty-seven industries covered by these statistics 77 per cent. of them show an increase either of the wages or production, or both. There were no less than 89,717 instances of individual increases of wages during the same year."

Mr. Peck reported elsewhere in his summary statement these further facts: "Of the sixty-eight industries included, 75 per cent. of them show an increased average yearly earning in the year 1891, while the total average increase of yearly earnings of the 285,000 employees was \$23.11. The average increase of yearly earnings of the employees of the fifty-one trades showing an increase was \$43.96 in 1891 as compared with 1890. The total number of strikes reported for the year 1891 was 4,519 as against 6,235 occurring in the year 1890, a decrease of 1,740. Of the total number—4,519—2,375, or 53 per cent. of them, were in the building trades."

**It Hurt Their Feelings.**  
Notwithstanding that Mr. Peck is a Democrat, a Democratic official, and was an appointee of Mr. Cleveland himself, these facts have dreadfully hurt the feelings of the Democratic party, and more particularly of Cleveland's managers. They frankly confess that they do not want wages and production to increase in the United States under a Republican administration—they won't listen to Mr. Peck's figures. They say the figures are false—they utterly decline to believe them—they simply won't have the facts as Mr. Peck reports them. One would suppose that every American party ought to be patriotic enough to welcome the fact of increasing prosperity among the people, but the Democracy thrives and grows fat on calamities. It is happiest when the people are overburdened with debts—when the statistics of labor are statistics of mortgages and mercantile failures. This is a Democratic heyday, a condition that calls for its fullest rejoicings. Mr. Cleveland's managers in New York have challenged Mr. Peck to a war of proofs. They propose that he shall submit his statistics to the examination of a committee of expert free traders, gentlemen who are always competent to make figures mean anything that suits their purpose. The announced intention of this committee is to take Mr. Peck's statements of increased wages and increased production and prove therefrom that American labor is worse off in New York than ever before, and that the saddest calamity which can befall an American workman is to have more goods to sell than he used to have and to get more money for them.

It is my deliberate judgment that the prosperity of America is mainly due to its system of protective laws. I urge that Germany has now reached that point where it is necessary to imitate the tariff system of the United States.—Bismarck.

One sentence of President Harrison's letter of acceptance contains enough of high national doctrine for a dozen Republican campaigns. It is that in which he describes the party's principles as embodying "a policy of safe progression and development—of new factories, new markets and new ships."

The business man who recalls the days of wildcat banking will not vote to destroy a system which gives every state all the banking facilities it requires and makes every banknote in circulation as good as gold both at home and abroad.

**Cost of Living Reduced by the McKinley Law.**  
Senator Carlisle's ingenious but not entirely ingenuous argument, in which he attempted to show that the cost of living had been increased by the McKinley tariff, has been ably answered by Senator Hiscock. That gentleman, in a speech in the senate on Aug. 1, completely swept away Senator Carlisle's arguments. He showed that the only increase in the cost of living in the twenty-seven months covered by the senate finance committee investigation was in prices of such articles of food as are produced by the farmers of this country. On the other hand, in articles which pertain to daily life, such as clothing, fuel, tools, lumber and building materials, houses furnishing goods, drugs and everything of this character, there had been a decided reduction in cost. The advance in prices of agricultural products are of course largely due to the increased demand abroad, and the increased amount that the people of this country must pay for food cannot properly be charged to the tariff. On the other hand, Senator Hiscock shows from Senator Carlisle's own figures that there has been such a marked reduction in prices of other articles of daily use, and affected by the tariff, as to warrant the conclusion that the cost of living was reduced through the action of the McKinley law in the sum of over \$47,000,000 in the period, between October, 1889, and September, 1891. Senator Hiscock's speech on this subject has been printed in full by the Republican national committee.

**Under the first full year of the McKinley law** importations of manufactures of wool, silk, hemp, cotton, iron, steel and tobacco were reduced \$46,692,454, thus giving increased employment to persons engaged in their manufacture in this country.

**Republicans Must Not Neglect.**  
Republican prospects are bright. But that is no reason for neglecting the thorough work which is necessary to insure success. Repeatedly the great party to which the country owes so much of its prosperity within the last thirty years, after beginning a presidential contest with scanty confidence, has compelled victory by the magnificent energy of its workers.—New York Tribune.

The country has been brought face to face with the question, Which is the better circulating medium, state or national bank bills? Every presidential vote cast in November next will be in answer to that question. Evasion of it would be impossible. Mr. Cleveland has not intimated the slightest dissent from any part of the platform on which he stands.

**The first full year of the McKinley law** showed an increase of \$159,938,323 in sales of agricultural products, as compared with the last full year of the old tariff.

Treasury officials state that the department has a balance of \$50,000,000, and the revenues, notwithstanding the loss of the \$60,000,000 on sugar, are increasing at the rate of \$1,000,000 a month from customs alone. This rate of increase has been going on since March 1.

## CARLISLE ANSWERED.

Cost of Living Reduced by the McKinley Law.

Senator Carlisle's ingenious but not entirely ingenuous argument, in which he attempted to show that the cost of living had been increased by the McKinley tariff, has been ably answered by Senator Hiscock. That gentleman, in a speech in the senate on Aug. 1, completely swept away Senator Carlisle's arguments. ## STATE BANK NOTES.

**The Farmers' Alliance Opposing a Return to Their Use.**

The New York State Farmers' Alliance is much exercised over the Democratic proposition to repeal the prohibitory 10 per cent. tax on state bank issues. John Chamberlain, president of the Alliance, as representative of that organization, has issued a circular to the farmers and laborers under the caption, "The Peril of the Nation."

The section of the Democratic national platform recommending that the prohibitory 10 per cent. tax on state bank issues be repealed stands, the circular says, as a danger signal for the sons of toil to warn them that such repeal comprises a scheme to re-establish the wildcat fluctuating currency of a generation ago, when the state bank notes were of varying and uncertain value, and to the loss of the farmer, the planter and the laborer. The notes then were subject to a discount of 10 per cent. The circular continues: "Older men must look with dread upon this midnight madness movement to repeal the state bank tax if they will recall the condition of the currency prior to the war, when the losses by counterfeiters, broken banks and discounts were appalling, and when many of the state banks were started with the pre-conceived purpose of swindling the community by irresponsible and unscrupulous Wall street adventurers from whose offices the bills were issued, the nominal location of the banks being fixed at remote and obscure points difficult of access to prevent the presentation of such issues for redemption."

**A Double Faced Ticket.**  
How can you vote for a double action presidential combination like Cleveland and Stevenson? The team does not pull together. One is plowing in the political furrow of tariff reform, civil service and gold, while the other is pulling the old Democratic cart in the direction of free silver and spoils. Between them you do not know where you will fetch up. When there was honest, real patriotic work to be done for the country they both hired substitutes. Don't vote for substitute candidates.—New York Recorder.

**Purity of the Ballot.**  
LINCOLN, Nov. 10.—O. E. Henderson, W. S. Fletcher and Jerry Leahy, the three men arrested at Yankee Hill voting place Tuesday for voting without possessing the necessary qualifications, were arraigned before United States Commissioner Billingsley and bound over for appearance next Saturday. Leahy got Patsy Mears as bondsman, who says he will vouch for his being qualified to vote at that precinct. Henderson and Fletcher worked for John Rawlins, and he gave bail for them.

Another arrest on a little different order was made yesterday. The man arrested was no less a personage than Professor L. E. Hicks, chairman of the board of public works. The charge made is that his real residence is out of the city limits in Grand View, while he registered from the Oriental hotel. The professor claims that his wife is living at Grand View for her health, and that he has never removed his real residence from the city. He was taken before County Commissioner Billingsley and gave security for his appearance November 16th. It is thought by Professor Hicks's friends that this arrest is prompted by jealousy of his official position, there having been some talk about his holding the office while residing outside the city. Professor Hicks does not seem to feel worried about the outcome of the affair.

**Best of The Kind.**  
WEST POINT, Neb., Nov. 10.—Last Sunday marked a memorable epoch in Catholicism in this section by the dedication of the large and handsome new church edifice which had cost the parishioners over \$20,000. This is the largest and finest church in the state outside of Omaha and Lincoln, and is a lasting monument to the zeal and enterprise of the pastor, Rev. Father Reussing, as well as the congregation. The building was begun one year ago last spring, and one year ago last August the corner stone was laid with imposing ceremonies, and at which the bishop and president of Creighton college were present.

At the dedicatory ceremonies last Sunday the church's capacity was taxed to its utmost, as hundreds came from every section in northeast Nebraska to be present. Preaching was had in English, German and Bohemian. The great feature in the erection of the church is the fact that the \$20,000 expended there remains a debt of only \$2,000. The Catholics in this section are unusually strong and support their church in a loyal manner.
