W. S. Perry, boss bridegroom, arrived home, Sunday night, from Chicago. He reports all nature tearful and the natives all praying for sunshine.

Colorado roads are now giving a fine sample of the nonsense and tyranny of railroad managers on the rate question. No such arbitrary should be vested in any one man.

Engineer and Mrs. Ed. McKay and Miss Sarah Knauff were passengers, Wednesday evening on 6, for Arkansas hot springs, whither they go for the benefit of Mrs. McKay's health.

Conductor and Mrs. C. W. Bronson will leave for the east tomorrow, the former to be absent a month and the latter even longer. They will take in the fair and also visit relatives and friends.

Frank Rank, one of the gentlemanly switchmen at the B. & M. depot, in talking of raising chickens, made the assertion that Will Yeiser hatched five chickens out of three hundred eggs in a refrigerator. This is a kind of a rank statement but we will forgive him this time.—Red Cloud Belt.

This week we welcome an old citizen back to Oxford in the person of Toney Stark, one of the B. & M.'s trusted employees who has been making headquarters at McCook for a long while past. Toney has been promoted to the position of night switchman, succeeding Ed Laidley, and arrived with his family on Monday.—Oxford Standard.

The Western Passenger association has decided to place round-the-world tourists tickets on sale at \$600. It was decided to inaugurate summer tourist rates June 1st instead of May 1st. It was agreed that lines of the association will require as their percentage the regular one-way word's fair rate where they receive a one-way haul on world's fair round trip tickets.

Red Willow county people who contemplate visiting the World's Fair should be careful about purchasing wild-cat cheap railroad tickets, which may prove worthless, and thus cost the purchaser much annoyance. The safe way will be for the people to call upon Mr. Hulaniski for information. He can sell you tickets just as cheap as they can be found anywhere. When you buy a ticket from your home agent you can rest assured that it will carry you through. This article is not written as an advertisement. THE TRIBUNE offers these suggestions, knowing that if adopted they will save hundreds of our people trouble and expense.

The pay car is due on Thursday, May 11th. Dr. G. W. Curfman of Denver was a registered guest of the Commercial, Saturday.

Jake Burnett is cleaning up his new bought premises here in fine shape. It is one of McCook's handsomest homes and Jake will keep it up in good form.

George Foster has added a neat kitchen to the rear and a neat porch to the front of his dwelling, which is improved in appearance and convenience thereby.

Since May 1st No. 1 carries postal clerks and gives regular mail facilities between here and Denver; and No. 6 also carries a postal car between the two points.

Mr. and Mrs. John T. Bradley are the fond parents of a boy born on Monday morning. The little fellow started out with two fairly well developed teeth—an unusual occurrence.

The Wells-Fargo Express company will make a unique exhibit at the world's fair in the way of old stages, strong boxes, fire arms and other things suggestive of life as it was experienced during the gold excitement on the Pacific coast.

Mrs. Andrew Cummins, and Mrs. Baxter Goodrich secured this week, \$731.00 each, from the Loyal Mystic Legion. Conductor Quigley of McCook was in the city this week. Wm. Brown, conductor from McCook, Sundayed in Red Cloud.—Red Cloud Chief.

If you want to know where you can secure board or lodging in Chicago during the world's fair, or how to avoid the danger or inconveniences which will attend upon the same, or if you want any information about the fair, call on Agent Hulaniski, who has a book containing almost any information you may desire.

A new time card at the B. & M. is expected on Sunday, May 7th, which it is supposed will contain some important changes. Additional trains for some portions of the system is quite probable. It is also rumored that the changes to be made will station some of the train crews here which are now running to Oxford.—Red Cloud Argus.

The friends of Engineer and Mrs. Newton Newkirk will most sincerely mourn with them the death of their little four-year-old son, Sunday, from brain complications following an attack of measles. The funeral took place on Tuesday morning at ten o'clock from the residence in west McCook, burial being made in Longview cemetery.

The switch engine caught drayman James Carl, Tuesday evening, at the crossing at the west end of the yard, and a serious accident was narrowly averted. Mr. Carl was thrown from the dray wagon onto his head and breast, but not severely injured, while the horses escaped entirely. The wagon was, however, considerably the worse for the fracas.

F. C. Rice, superintendent of the Illinois lines of the Chicago, Burlington and Quincy, authorizes a denial of a widely circulated report that head officials of the Burlington had ordered a 15 per cent reduction on the system. On the other hand he says it has been the policy to raise the wages during the past year. This is notably true in case of the train men, whose pay a few days ago was made standard. Mr. Rice knows no reason why there should be any reduction of wages. In some of the poorer paid departments wages will be raised slightly in the coming month. The falling off in business during March Mr. Rice attributes to poor country roads, he is confident by June 1st the movement of grain will begin.

Deputy County Clerk Barnes is in the city today.

W. O. Russell visited Hayes county relatives, middle of the week.
