The Human Electrical Forces!
How They Control the Organs of the Body.
 The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by friability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.
 Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble. The noted specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts. Dr. Miles' Restorative Nerve, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.
 Restorative Nerve cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid.

FREE ACCIDENT INSURANCE.
 That old reliable, THE DAILY STATE JOURNAL, has spent more money in securing news the past year than any other state paper, and stands to-day at the head of Nebraska newspapers, recognized for its enterprise, truthfulness, and reliability. Published at the capital, it is the paper for Nebraskans. It has just completed arrangements whereby it offers free accident insurance to every new subscriber paying \$2.60 for three months in advance, which is only 10 cents more than the regular price of the paper alone. This gives every subscriber a \$500 accident policy, or less, according to occupation, free. If you want a daily paper, THE JOURNAL is the one you should read, as its state editions contain much later telegrams than is given by the Omaha papers. Compare them for your own satisfaction. The insurance feature alone is worth the money, as it enables every man to protect his family. Try it three months and you won't be without it. Address,
 NEBRASKA STATE JOURNAL,
 Lincoln, Neb.
