

### NEBRASKA CROP CONDITION.

On another page of this paper will be found a complete report of the condition of crops and of business in nearly every county of Nebraska, secured through the commercial agency of R. G. Dunn & Co. Pains have been taken to make this report reflect with perfect accuracy the state of affairs found by trustworthy reporters, and we believe that it may be relied upon as a fair and conservative statement in every instance.

Business is of course dull as a rule. There is no more reason for this stagnation in the country towns than there is for the depression in the cities, but it exists and under the circumstances nothing else could be expected. The merchants are running as close to shore as possible, the banks are reefing in on all sides, and all people are limiting their expenditures and preparing for a long period of dull times.

But aside from the depression which comes from the unsatisfactory financial condition of the country, the prospects for business in Nebraska are most favorable. Our prospect are of course based upon wheat and oats and corn and live stock, and these reports show that the outlook is entirely encouraging. The acreage is larger than last year and the growing crops seem to be on the whole in better condition.

Wheat and oats will of course produce less than last season. Both were put back early in the season by insufficient moisture, and a considerable acreage was plowed over to make way for corn. The general estimate is that in spite of these unfavorable conditions the crop will net from one-half to three-fourths of the average. Corn is king this year and promises to rule with more potency than ever before. The acreage has been increased by fully 33 per cent. The stand is good, the plants are strong and healthy, and are making a phenomenal growth under the influence of the warm June sunshine. If nothing occurs to retard this growth the yield will be the largest we have known for years; and that of course means good times for the state.—Journal.

GENERAL ALGER'S sensible talk on the pension business will commend itself to every thinking man in the country. Instead of blasting the administration with several kinds of palsy, as did the historic Fairchild, he candidly admits that he has seen nothing that indicates a hostile feeling to the veterans of the union who are entitled to pensions. Alger does not hesitate to declare himself in favor of a complete investigation of the pension rolls. When Grand Army veterans as eminent as General Alger talk in this vein there is but little excuse for the frenzy of the politicians who are declaring so vociferously against pension reform.

A METHODIST church down in Ohio has passed an order abolishing the old apostolic custom of passing around the cup at communion, and providing "individual glasses" for communicants. The plea is that modern science has shown that promiscuous drinking out of one tumbler is in the highest degree unwholesome and liable to spread germ diseases. Nothing hereafter will be common about the communion in the church but the decanter.

OUT of 400,000 immigrants who came to the United States in the past twelve months, but 4,155, or about 1 per cent, have found homes in the south. The west still affords the greatest attraction to men and women who come to America to win free homes for themselves by unremitting toil.

### Novelties in Ladies' Outing Costumes

At this season of the year when so many ladies are planning their prospective trips to the country, the question naturally arises in regard to an appropriate traveling costume, which experience teaches is an indispensable garment for every woman tourist to possess. Moreover, a well ordered wardrobe presupposes in addition, an outing costume. The selection of the latter is a problem of no mean importance, for it consists in finding a model both stylish and comfortable and which may, at the same time prove a judicious economy. On the other hand lovers of out-door pastimes are in quest of novel designs for garden parties and tennis costume, while for those who prefer our fashionable watering resorts, a bathing suit is of course, de rigueur. Now since all the above essentials of a summer outfit follow the dictate of Fashion and since there is nowadays, as much style in a bathing or tennis suit as in a traveling or outing costume, one is obliged to conform to the current modes. The McDowell Fashion Magazines are precisely calculated to give the desired information on these matters, for they contain the best and largest variety of new models direct from Paris. "La Mode de Paris" and "Paris Album of Fashion" each cost \$3.50 per annum, or 35 cents a copy. "The French Dressmaker" is \$3.00 a year, or 30 cents a copy. "La Mode" costs only \$1.50 per annum, or 15 cents a copy. All these magazines include much more valuable information besides. They can be subscribed for or purchased at any newsdealer, or by applying directly to Messrs. A. McDowell & Co., 4 West 14th Street, New York.

The figures presented by Secretary Morton of the Agricultural department will be disappointing to those who have believed that the system of meat inspection established by congress something over two years ago would have the tendency to increase exports of those products to Germany and France. Mr. Morton has no hesitancy in asserting that the experiment has been a failure in so far as practical results are concerned. The United States is sending less pork to Germany now than she did before the inspection law went into effect. In the ten months ending April 1, 1892, the exports of pork to Germany amounted to 4,881,160 pounds, while for the corresponding ten months ending April 1, 1893, the exports to the same country amounted to 644,900 pounds. Possibly this decline in the export of hog products may be due to the high price of pork.

Which will you do, smile and make others happy, or be crabbed and make everybody around you miserable? You can live among flowers and singing birds or in a mire surrounded by fogs and frogs. The amount of happiness you can produce is incalculable, if you will only show a smiling face, a kind heart and speak pleasant words. On the other hand sour looks, cross words and tearful disposition, you can make hundreds unhappy almost beyond endurance. Which will you do? Wear a pleasant countenance, let joy beam in your eye, and love glow in your forehead. There is no joy so great as that which springs from a kind act or pleasant deed, and you can feel it at night when you rest, and at morning when you rise and throughout the day when about your daily business.

Of sixty physicians, representing all schools and using the Amick cure for consumption, interviewed in New York City, Monday, thirty-two agreed with Amick that the bacillus microbe is produced by the disease, and twenty-eight while admitting Amick's treatment is the only successful one believed with Koek that the bacillus is the cause. Dr. W. Amick when shown the above said I will continue sending test medicines to these and all other doctors for each new patient until all realize their success could not come from any false theory.

One man will find an item in the paper and because it interests him, will say it is not half long enough, while another will skip this identical article altogether, after reading its heading, discover that the subject does not concern him or his interests, and will probably wonder why such stuff is printed at all. Thus it goes day after day, and no man knows better than the editor the difficulty of always finding something to print that will interest all classes of his readers.

### WONDERFUL!

The cures which are being effected by Drs. Starkey & Palen, 1529 Arch St., Philadelphia, Pa., in Consumption, Catarrh, Neuralgia, Bronchitis, Rheumatism, and all chronic diseases by their compound Oxygen Treatment is indeed marvelous.

If you are a sufferer from any disease which your physician has failed to cure, write for information about this treatment, and their book of two hundred pages, giving a history of Compound Oxygen, its nature and effects with numerous testimonials from patients, to whom you may refer for still further information, will be promptly sent, without charge.

This book aside from its great merit as a medical work, giving as it does, the result of years of study and experience, you will find a very interesting one.

Drs. STARKEY & PALEN, 1529 Arch St., Philadelphia, Pa. 120 Sutter St., San Francisco, Cal. Please mention this paper.

The temple of Ypsambul in Nubia is cut from a solid rock, and its entrance is guarded by four statues, each 65 feet high, 25 feet across the shoulders, the face 7 feet long, the ear over 3 feet.

A BLACKSMITH SAVES THE LIFE OF A LITTLE GIRL.—Minnie Carney, of Lytle City, Iowa, was perhaps as near leaving this world as any one can be, and recover. She was sick with cholera morbus; completely exhausted and unconscious. The physicians in consultation decided the case was hopeless and beyond their control.—Chas. J. Newcomb, a blacksmith, walked four miles through the darkness and storm, to get a remedy he had himself used and which he firmly believed would cure her. That medicine was Chamberlain's Colic, Cholera and Diarrhoea Remedy. He obtained part of a bottle with which he hastily returned and gave the little sufferer a half teaspoonful, which relieved her and consciousness gradually returned. The medicine was given in broken doses and in a short time she was well. He is positive that it saved her life, and has others in that vicinity. For sale by McConnell & Co.

### A NARROW ESCAPE!

How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I suffered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I could not sweep a room without sitting down and resting; but, thank God, by the help of New Heart Cure all that is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 130½. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians."—Mrs. Harry Starr, Pottsville, Pa., October 12, 1892.

Dr. Miles' New Heart Cure is sold on a positive guarantee by all druggists, or by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price. 4 for 60¢, six for \$1.00, express paid. This great discovery by an eminent specialist in heart disease, contains neither opiates nor dangerous drugs.
