MR. CLEVELAND had better stick to the tariff reform idea, and let the silver question alone.

It is pretty save to conclude that America will in due time decide for bimetalism and a monetary system of her own. But it may cost the democracy its job in the decision—which will not be in the nature of a national disaster after all.

THE recent bombardment of the blue ethereal space around about Stockville, was not a success, pluvially speaking. But "in the matter of noise, rattling windows, loosening plaster and making some of the women nervous, it was all right," says the Republican.

THE Sherman law cannot be fairly held responsible for the present unfortunate condition of the finances of our land, and we do not expect to see the law repealed without a substantial compromise measure substitutes it, more favorable if anything, to the white metal.

WHEN the big national banks of Milwaukee, Indianapolis and Louisville begin to crash as they have been for the past several days, it looks as if the New York Sun had made a mistake when it declared last Monday that west of the Missouri river bankruptcy was the rule rather than the exception.

THE Stites twins of Wichita, Kas., who married twins and are each the father of twins, will find millions in the fame they have achieved in the past few days if they want to go into a libel suit business. The newspapers of the country are denominating them "Chicago fakes," "Arabian Nights figments" and the like with reckless disregard of their living feelings.

THERE is some talk up in Hayes county of voting on the question of township organization. If the people of Hayes county have as much good horse sense as THE TRIBUNE has credited them with, they will knock that foolish proposition into smithereens. They have no use for such an expensive and unwieldy organization. None whatever.

THE pop public printer of Kansas explains the dismissal of the old state militia and the reorganization of the same with nobody but long tried pops on guard, as a little preparation in good time for "marching the republicans into the shadow of hell in the face of red roaring guns." When the New York Commercial Advertiser read the programme it advised the pops of Kansas and Colorado to fan each other.

THERE are some people who think that England can dictate the financial policy of the United States. Well, she can if she can, not otherwise. But there is no need of accepting that alternative. American silver at the ratio of sixteen to one ought to be as good as European silver at a ratio of fifteen to one and a half, and woe be unto the administration or party that forces demonetization at the behest of Rothschild and the money-changers of Wall street.

WHILE the railroads of the Western Passenger association are haggling away about graded rates to Chicago, a good many people who have been saving up money to go to the World's fair are getting out of the notion. Every day that the railroads postpone the establishment of an open, one fare rate to the Columbian show decreases their present earnings, and renders the prospect for enlarged travel to the World's fair later in the season more doubtful.

Mott Droll, John and Henry Smith went to the mouth of the Willow fishing, Friday, and caught a large number.

Wm. Coleman closed up two land sales this week and has two more under way. It does look as though he will settle the country up.

On Tuesday, Hon. A. C. Modi, J. N. Smith, Matt Droll, Wesley Rozell and others went to McCook and hauled out the lumber for the new school house.

Uncle Billy says he can't see why mush and milk should bloat a fellow so. He can't eat more than three or four quarts at a time.

Mr. J. H. Warfield of Montgomery county, Iowa, has bought the Baxter Davis farm and will move on it in three weeks. We understand that Mr. Davis will move to Missouri. William Coleman will make the sale.

I. B. Smith is very notional. He took a notion and bought a fine quarter of land; then he took a notion and turned one hundred and forty acres of it upside down; then he took another notion and built a frame house; then another notion led him to build a frame stable for six horses and a tool shed, and the next notion induced him to sink a well and erect a motor wind mill, still another led him to build a crib and stock sheds and fence twenty acre for pasture. Now we suggest another notion that will lay all these other notions in the shade and that is—get married.

BALD HEADS

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

SKOOKUM ROOT HAIR GROWER

Is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the diseases of the hair and scalp led to the discovery of how to treat them. "Skookum" contains neither minerals nor oils. It is not a Dye, but a delightfully cooling and refreshing Tonic. By stimulating the follicles, it stops falling hair, cures dandruff and grows hair on bald heads. Keep the scalp clean, healthy and free from irritating eruptions, by the use of "Skookum Skin Soap." It destroys parasitic insects, which feed on and destroy the hair. If your druggist cannot supply you, send direct to us, and we will forward prepaid, on receipt of price. Grower, \$1.00 per bottle; 6 for \$5.00. Soap, 50c. per jar; 6 for \$2.50.
