While driving home from a hunting excursion, the other evening, Engineer Holliday had the misfortune to drive his black mare into a barb wire fence which had been built across a road, and no ditch or other obstruction made to indicate the fact. The mare was severely cut about about the front legs. When fences are built across traveled roads the law requires that some sign be given the public of the same, in order that such accidents as this one may be averted.
The unfortunate mental condition of Conductor Frank Brainard is generally deplored. A week or two since he went east to the bedside of his mother, and while there his mental derangement became so marked that he was sent back here in charge of an officer, arriving in the city on last Friday night. Since this time he has been under the care of relatives and friends here, being assisted by an uncle who arrived from Iowa, Monday night. No special cause is known for his sad condition. All hope, however, that the clouds which now obscure his mind may be soon driven away, and he be again clothed with unimpaired mental faculties.
