The Stealing Remedy Co., Indiana Mineral Springs, Indiana. Aug. 25-1 yr.

While Minnesota is one of the most healthy states in the Union, it is one of the worst for colds, owing to the severe winters. Many of the druggists there make it a rule to give their customers just what they call for; but when they come back and say it did no good, they almost invariably recommend Chamberlain's Cough Remedy, as will be seen by the following from Messrs. Wells & Schroeder, of Sanborn, Minn.: "We have recommended Chamberlain's Cough Remedy after other leading cough preparations have failed to do any good, and always with the best results. We can always rely upon that remedy, as it is sure to effect a cure. It has no equal for children, especially in cases of croup or whooping cough." 50 cent bottles for sale by McConnell & Co.

Let's poor wife is not the only woman who did not want to move.

J. Hailey of Batavia, N. Y., conductor on N. Y. C. railway, and one of the best known men on the road, says of Parks' Tea: For ten years I have suffered from constipation. Tried everything and found nothing of lasting value. Hearing so many talking of Parks' Tea I tried it without much hope. The first dose moved my bowels easily and now I am cured. It works like magic. DR. PRICE'S Cream Baking Powder.

The only Pure Cream of Tartar Powder.—No Ammonia; No Alum. Used in Millions of Homes—40 Years the Standard.

"For several years," says John Park, of Beaver Creek, Minn., "during the winter, I have been troubled with a painful swelling of the feet which physicians claimed was rheumatic gout. I was treated by some of our best physicians, and obtained but little, if any relief and used many so-called cures, without benefit. During the winter of 1887, when my feet were so swollen and inflamed that I could not wear my boots, I commenced using Chamberlain's Pain Balm. The first application reduced the swelling and inflammation, and the use of one 50 cent bottle so completely relieved me, that I discontinued my cure, and was able to get around all right and wear my boots." 50 cent bottles for sale by McConnell & Co.

IT MAY DO AS MUCH FOR YOU.

Mr. Frederick Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back, and also that his bladder was affected. He tried many so-called kidney cures but without any good result. About a year ago he began the use of Electric Bitters and found relief at once. Electric Bitters are especially adapted to the cure of all liver and kidney troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c for large bottle. At McMillen's drug store.

The druggists resent the general statement that the red light is a sign of danger.

Persons troubled with rheumatism should read the following from Mrs. N. M. Peters, of East Des Moines, Iowa. She says: "I had suffered with rheumatism the greater part of the time for nearly seven years. At times I was almost helpless. I doctored a great deal for it with physicians, and tried electric belts, patent medicines and almost everything that is recommended for rheumatism. Finally a neighbor advised me to try Chamberlain's Pain Balm, and was so sure that it would help me that I procured a bottle. And it did help me, right from the start, but it took five fifty-cent bottles to cure me, so you can guess how bad I was, as one or two bottles will cure any ordinary case. For sale by McMillen's."

The Irrigation Movement.

Active preparations are now being made for the next National Irrigation Congress to be held about September 15th, at some point in the west not yet determined on. The last congress, which was in session an entire week in Los Angeles, October, 1893, appointed commissioners in every Western State and Territory, whose duty it is to prepare a report to be submitted to the coming congress covering all the features of special interest in each State and Territory of the Arid West. These reports will show the amount of arid and semi-arid land; the amount of land now irrigated; the sources of water supply; developed and possible of development; the cost of procuring, storing, and delivering water on lands; State legislation in force and needed; National legislation as to the disposition of arid lands and government control of water sources; and such other points as may suggest themselves to each commission as being pertinent to their own state.

The commission for Nebraska is composed of Chas. P. Ross, North Platte, chairman; J. M. Lee, Oxford; C. E. Osgood, North Platte; J. R. King, Benkelman; E. E. Brewster, Harrison; Geo. E. French, North Platte. The citizens of this state are cordially invited to correspond with any of these gentlemen, and give them such information as they may possess on the points to be covered by their report, as it is designed to cover every point of interest which can be suggested. Information covering the work of the national committee can be obtained from Fred L. Ailes, secretary, Los Angeles, California, and information as to the work in this state from any of the commissioners named above.

Army Cavalry Officers.
