About Irrigation.

The season which has just closed has been an unusual one in respect to the widely separated districts which have suffered from drouth. No single quarter has been affected, but wide areas in many parts of the country. Lands which are cultivated by irrigation have had a particularly good opportunity to show their and local sports were out in arms value, and many men have been led to study the practicability of irrigation in heretofore been practiced. Will Likely Settle.

There has long been a dispute among the several land owners as to the north line of sections numbered 14 and 23-4-30, in Coleman precinct. Farmers Moore, from Oxford. Carothers, Kelley, Traphagan and Simmerman are among those more or less interested in the disputed line. Numerous cases in justice and one or two in district court have already come up, and much money squandered in the dispute. We are glad to note, however, that there is a strong probability that the matter will soon be satisfactorily adjusted and finally settled. It is now proposed to establish a line by agreement midway between the disputed lines surveyed, and by the mutual exchange of deeds to settle this unprofitable and embittering Kansas, Wednesday, on business. contest forever. We sincerely hope that the proposed action may be carried out promptly and successfully, and that this old neighborhood sore may heal over so completely as to leave no scar to recall its ever having existed at all.

The Prize Fight.

The contest between Sullivan of this city and Anderton of Holdrege, in the opera house, last Saturday night, resulted in a victory for Anderton, in the third round. Up to this time it is said Sullivan had the best of the fight. A foul was claimed by Sullivan, but was not allowed by Referee Eugene Hampton of Holdrege. The gate receipts were \$160, which went to the victor. We'understand that these two worthies will engage in another set-to on May 12th, for similiar stakes.

THE TRIBUNE hopes most sincerely that an end will be made of this thing by our local authorities. Such disgraceful and illegal performances should not be allowed to go on in the city. Let the authorities enforce the law in the future against such affairs.

Argued and Submitted.

The case of Robert H. Thomas against We add our congratulations and best Vocances Franklin, or what will be more readily recognized as the Red Willow county-seat removal case, came up before the supreme court of the state on Tuesday of this week. The case was duly argued and submitted, and is now in the hands of the court. Just when the court will be ready to hand down its decision in the case is perhaps unknown. It may not be known until July, although an earlier settlement of the matter is looked for by some. An early decision will doubtless be satisfactory to both parties to the contest.
