\$1.50 A YEAR IN ADVANCE.

THE average annual gold yield of the world for the last ten years has been \$32,000,000.

THE question with the Nebraska democracy is "what shall we do with this young man Bryan?" And the echo answers, "what can you do?"

HON. EDWARD ROSEWATER thinks that Hon. John Thurston's silver views are absurd. It might be of interest now to hear John's opinion of Edward's silver views.

THE McCook Times-Democrat is bellowing for a congressional candidate "with a spine as well as brains." Well? What's the matter with Andrews? He has the brains and Col. Deitrich the spine. —Hastings Tribune.

JACK MACCOLL seems to have a pretty good following in the western part of the state. It looks like a neck and neck race for the gubernatorial nomination between Tom Majors and the man from Lexington. —Hastings Tribune.

The experience of those eastern coal barons and others with their foreign laborers cannot draw out one tear of western sympathy. Men who import that sort of laborers for the purpose of forcing down American wages are not entitled to much consideration.

THE assassination of President Carnot of the French Republic will cause sorrow and indignation throughout the civilized world. Anarchist Santo's dagger did the cowardly deed, Sunday night, as the president was on his way to the opera house in Lyons.

CHURCH HOWE dropped in on Norman Musselman of the Falls City Journal, the other day, unawares. This was Musselman's introduction to this popular cormorant, and he was quite taken with the clever, genial Church's fetching smile, though disappointed because he had left his horns, and cloven feet and spear-headed tail at home.

THE McCOOK TRIBUNE says that "four more years for Grover and then it will be all over." We don't grasp the meaning exactly. Will Grover be all over or will the four years be all over Grover; perhaps in four years it will be Grover all over with the same unanimity that it was in 1892? —Hastings Democrat.

Politically it will be all over with Grover. Commercially and financially the country will be in it all over—in the soup.

THE annual cry is now going up that our assessment laws need a general and thorough reformation. To be sure they do need the jag cure, and everybody knows it, but our law makers seem to be very shy about tackling this outrageously rotten system. Why, the question naturally arises? There should be a state law absolutely requiring under the severest penalty a full value assessment. This would increase Nebraska's valuation by millions, though the amount of taxes to be raised would remain the same. The per cent. would of course be much lower, and the basis more just and equitable. Will the next legislature do its duty in the premises?

THE investigation of New York city's police has uncovered a depth of infamy absolutely unimaginable. It has shown that the police of the metropolis annually receive from houses of ill-fame, unlicensed saloons and other institutions conducted in violation of law \$20,000,000 for so-called protection. It has developed the fact that the police appointments cost the appointees \$500,000. Such boundless corruption and unfathomable infamy do not seem possible in this christian age, and shows more than ought else to what immeasurable extremes men will go to satisfy their selfish greed for gold. This condition of affairs is not of course confined to Gotham, but prevails measurably in all our cities. The system needs changing radically.

THIS talk of Cruzen going into the next state convention with the solid vote of the Fifth congressional district for him for secretary of state is veriest bosh. Wind! It can't be did.

THE national republican league meeting at Denver, this week, adopted the following regarding the silver question: We believe in the use of gold and silver as money metals, maintained on a perfect parity and incontrovertibility. We do not believe that there will be a permanent return of prosperity to our country until the full use and highest position of silver shall be restored, and we favor such legislation as will bring about such result.

IN a few days we will be brought face to face with the glorious Fourth of July. And then, dear people, you will realize what a ruthless curtailer of blessed privileges is the present administration. We fear firecrackers, red lemonade and imported orators will be sadly missed by many communities, but local talent may get in its work by mounting a dry goods box and telling how it happened. Let the spew of the buzzard be substituted for the scream of the eagle; let every man do his dirtiest to appear patriotic.—Ex.

PROTESTANTS and Catholics in Chicago have united in a petition to the board of education asking that a reading book of selections from the scriptures be prepared for use in the public schools. The petition recites that the whole religious world unites without objection in the universal prayer, "Our Father, which art in Heaven," and that right-minded Americans will agree on the daily reading of suitable selections from the scriptures in the public schools, fixing in the minds of the children the "vital, spiritual principles on which good citizenship and the future welfare of the country so largely depend." Here is a movement that is destined to spread over the whole nation. It is difficult to find a single objection to the 60,000 Chicago petitioners. Considered as literature alone there is nothing more perfect than portions of the sacred scriptures. It is impossible to gather more inspiring matter for the daily reading of pupils than selected passages from the old and new testaments. Books containing these selections properly classified for school use are already in existence. Their general adoption cannot be too strongly recommended.—Journal.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three of Electric Bitters bottles cured him. Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box of Bucklen's Arnica Salve cured him entirely. Sold by McMillen.
