The temperature has been about normal in the western part of the state and below the normal in the southeastern part of the state. There has been an excess of sunshine, which has intensified the effects of the drought. HUNDREDS ARE HOMELESS.

TERRIBLE WORK OF WISCONSIN FOREST FIRES.

TOUCHING SCENES AT PHILLIPS.

Nothing But Heaps of Ruins Mark the Place Where It Once Stood—Fifteen Lives Lost—The People Relate an Awful Experience of Suffering—Relief Trains Going to Their Assistance.

PHILLIPS, Wis., July 31.—The terrible scene here beggars all description—the blackened faces of those who fought to save their homes, stare with blood-shot eyes at the heaps of ruins which mark their once happy homes. Not since the terrible forest fires that destroyed Peshtigo, has anything occurred which will compare with the scene of ruin here. A committee of citizens from Ashland arrived with a special train of provisions Saturday night at 9 o'clock. It was the first material relief to arrive and it came just in time to keep the people from actually suffering from want of food. Provisions were given out in small quantities so as to make them last as long as possible and keep something available until other provisions arrived.

Men and women walk the street all begrimed, wringing their hands and bemoaning their sad fate. Only a town hall and a few small buildings are all that are left standing. They were immediately converted into shelter for the destitute, but only a few of the women and children could crowd into them. A vast multitude had to remain without shelter and food all night, but tents were brought in from neighboring towns and improvised huts utilized. Governor Peck and his staff arrived from Madison yesterday, as also a dozen cars of provisions from various cities and the organization for relief has been completed.

Great crowds of residents who were chased out of the city by flames Friday are returning to look over the ruins. Already lumber is being shipped in for the purpose of rebuilding, and operations have begun.

Two more bodies have been recovered from the river where the terrible loss of life occurred, those of Mr. J. Locke and one of his children. The boat-house on which the desperate men, women and children took refuge was pushed from the shore. Before it had gone far the suction of the flames drew it right up into a regular furnace of fire. The boats were either overturned or the people jumped. It is now estimated that fifteen lives were lost at this place. It is supposed that the bodies of several children are buried under the ruins of the wagon and foot bridge, which it is claimed gave way while they were trying to escape from the flames to the peninsula which runs out into the lake, approaching closely the location of the John R. Davis Lumber company's plant. Mrs. Cliss, who was picked up after clinging to an overturned boat for over an hour, is doing nicely, and it is thought will recover.

Relief trains have fairly poured in here to-day and there are supplies of food here now sufficient to last the fire sufferers a month. The relief committee asks especially for clothing and money, and these will be amply provided by the people of the state without outside help.

An Archduke Accidentally Killed.

VIENNA, July 31.—Archduke William III, son of the late Archduke Charles and a second cousin of Emperor Francis Joseph, met an accident yesterday that resulted in his death. He was riding at Weikersdorf, near Baden, when his horse, being frightened by a passing electric car. The archduke was thrown out of the saddle and in falling his head struck a stone.

Rev. Dixon a Prophet of Evil.

NEW YORK, July 31.—Rev. Thomas Dixon spoke yesterday morning in Association hall on the "Coming Strike." Among things he said: "The outlook for the immediate future is one of suffering and oppression. The capitalists will surely retaliate on the workman. They will triumph in their strength. Yet they should not imagine that they are safe from future violence. Another strike is bound to come. It will effect every industry and paralyze the world. I predict that a fearful struggle will occur in the near future."

Killed Over the Price of a Drink.

KANSAS CITY, Mo., July 31.—D. F. Wolf, a bartender in John F. Mael's saloon at 1501 Grand avenue, was shot and instantly killed early this morning by Philip H. Jackley, for many years prominent in local railroad circles. The row arose over a dispute about the price of a drink.

DEBS MADE A SPEECH.

He Addressed a Large Audience at Terre Haute.

TERRE HAUTE, Ind., July 31.—Packed like sardines were the people who listened to President Debs, of the A. R. U., in the opera house Saturday night. The theater never held such a crowd, and hundreds were turned away. Many ladies were present. Debs was enthusiastically received. He said: "This is a crisis brought about first by the inhuman cruelty and oppression of Pullman toward his employes; secondly, by the railways deciding to stand by Pullman in his oppression; third, by an understanding among the railway managers that it was necessary to crush the railway union."

Debs then said that he had always been in favor of arbitration and opposed to strikes until the gauntlet was thrown down and an effort made to crush organized labor and there was a time when not to strike meant degradation and dishonor, and this was that time. He made quite a lengthy address and was vociferously applauded. The labor leader did not admit defeat, but on the contrary he declared that the war against Pullman would be carried to the bitter end. He said further that so far as he was concerned this was the last strike in which he should engage and that hereafter he would fight out the battle along political lines, appealing to the ballot for restitution of the laborers' rights.

THE SANTA FE AND ITS EMPLOYEES.

TOPEKA, Kan., July 31.—General Superintendent Mudge, of the Santa Fe, denies the report that a strike is contemplated by employes of that road on account of a proposed abrogation of existing contracts with engineer, conductors and firemen. He says: "The road has in no way hinted that it was going to annul the contracts mentioned, and to my knowledge there have been no new ones printed. I saw Mr. D. B. Robinson yesterday, and he told me there was nothing in the story. If there was, he would certainly know it. When we hire a man we take his statement on paper as to his railroad record. We have blanks for this purpose. Very recently we had a new supply printed, because we were out. These were probably what the men have seen. It is untrue that we have any individual contracts with anybody, or that we compel an employe to sign anything saying he is or is not a union man. The statement is annoying, but it will do us no harm, because all the chairmen of all the orders in question understand there is no truth in it. It is simply the A. R. U. making a last effort to stir up a row."

The New Republic Denounced.

KANSAS CITY, Mo., July 31.—J. A. Cummins and S. Parker, formerly ministers of foreign affairs, and H. A. Widemann, ex-minister of finance under the monarchy of Hawaii, and Major Seward passed through here Saturday night en route to Washington as commissioners from the de-throned Queen Lilioukalanui. Mr. Widemann, who heads the commission, says they seek the defeat of the recognition of the new republic, and urge a reply to the ex-queen's protest against the act of the former United States minister to Hawaii, to which her overthrow is attributable. He denounces the republic as being only such in name. Mr. Widemann was first minister of finance under King Kalakaua, also under the queen. He went to Hawaii in 1849, when the British protectorate was in force there, and he is of the opinion that the present affair will end similarly, and that the queen will be restored.

DEBS' CASE CONTINUED.

Judge Grouseup Refuses to Sit—District Attorney to Go Out of Office Soon.

CHICAGO, July 29.—In the Debs contempt case to-day Judge Woods delivered a brief opinion formally overruling the motion of the defense to quash the informations against the American Railway union officers. Judge Grouseup then announced that he had taken no part in the decision on the motion to quash and he announced further that he would take no part in the contempt proceedings for the reason that the defendants are under indictment in the United States district court over which he presides, and the same questions of law will be raised under the indictments, in fairness to the defendants, Judge Grouseup said, he would not sit any longer in the investigation of the charge of contempt. After making this announcement he left the bench.

District Attorney Milchrist announced that Special Counsel Edwin Walker was ill and could not attend the hearing. He said that he, Milchrist, will go out of office on August 2, and Mr. Walker will be left the sole counsel in the case, and suggested that the hearing be postponed until Mr. Walker is able to take charge of it.

After considering the district attorney's suggestion, the court announced that the case would be continued until September 5. Debs and his associates went into consultation regarding the giving of bail and the court adjourned.

LAND LAW AMENDMENTS.

Hall of Minnesota Introduces a Bill of Interest to Public Land Settlers.

WASHINGTON, July 26.—Representative Hall of Minnesota to-day reported to the house a bill amending the existing law regarding public lands. Provision is made whereby settlers in townships, not mineral or reserved by the government or persons and associations lawfully possessing of coal lands, or owners of grantees of public lands, shall have the right to have such lands surveyed under certain conditions. This feature of the bill has in view the enlargement of the facilities contained in the coal land laws, by permitting such lands to be surveyed as can now be done in the case of agricultural lands required for actual settlement.

The discoverer of a valuable deposit of coal upon the unsurveyed public domain may now take possession of and hold his mine, yet there is no provision of law under which a patent can issue therefor until the public surveys have been so extended as to embrace it.

Another feature of the bill provides that when settlers or owners or grantees of public lands make deposits in payment of the cost of surveys certificates shall be issued therefor and these may be used in part payment for the lands settled upon.

PULLMAN'S HOUSE ATTACKED.

An Anarchist Throws Stones Through Plate Glass Windows and is Arrested.

CHICAGO, July 26.—Simon Reskins, a Russian, made an assault upon the residence of George M. Pullman to-day. He hurled many stones at the building, breaking out ten or a dozen large plate glass windows, and was arrested.

In the pockets of his overcoat were found several more good sized stones, but no other weapons, and in his coat were found preliminary naturalization papers.

When questioned he delivered himself of curses against the United States government and George M. Pullman. He said Pullman had thrown him out of work, and that this was not the last Pullman would see of him. Later he admitted that he was a tailor by trade and had not been working at anything for a year. George M. Pullman and his entire family are in the East; no one but the servants occupying the house.

The Allen Paper Car Wheel Works Start Up—Pullman's Men Held Out.

CHICAGO, July 26.—The Allen paper car wheel works at Pullman started up to-day with about a dozen new men. The officials of the company say they have no connection with the Pullman company beyond renting power from it; that they have notified their employes to return to work, guaranteeing them protection, and that unless they return the company proposes to go ahead and operate the works with new men. There is no evidence of weakening among the Pullman strikers.
