WHAT CONGRESS HAS DONE.

A REVIEW OF THE WORK OF THE SECOND SESSION.

IMPORTANT BILLS WHICH PASSED.

Repeal of the Federal Election Law—Admission of Utah to Statehood—Labor Day Made a National Holiday—The Seining Sea Arbitration—Appropriation—Ethiopia—Chinese Act.

WASHINGTON, Aug. 7.—A review of the legislation which has been accomplished by the second session of the Fifty-third congress, up to and including August 3, shows much that has been done aside from the engrossing tariff struggle, which has largely diverted public attention from matters which would, under other conditions, have been considered of great importance. One of the most important acts of the session, which passed both houses by a strict party vote, being in fulfillment of a plank of the Democratic platform, was the act repealing all laws creating federal supervisors of elections or defining their power. The act to enable the people of Utah to form a constitution and state government and to be admitted into the Union on an equal footing with the original states provides the machinery by which the territory will be admitted, probably in December, 1895, by adopting a constitution providing a republican form of government and insuring against the supremacy of any church; the government ceding it much public land for charitable and educational institutions.

The act making the first Monday in September a legal holiday, to be called Labor day, was passed largely at the instance of labor organizations, while scientific societies urged that the act to define and establish the units of electrical measurement be made law. Three bills were passed to give effect to the award of the tribunal of arbitration at Paris which adjudicated the seal fisheries disputes; that act prohibiting seal fishing from May to July 31 of each year and establishing conditions under which the fishing can be carried on outside of the closed season, with penalties for violating such law and the machinery for its enforcement. Several measures were enacted in accordance with the recommendations of the Dockery commission for improving and amplifying the methods of doing the government business.

First entitled to mention are the appropriation bills for the expenses of the government which form an important part of the regular work of every session, although generally the last to be finished. The postoffice department bill authorized the postmaster general to allow postmasters of first and second class postoffices to disburse at their discretion the amount allotted for their offices and admitted to the mails periodical publications published at least quarterly by benevolent and fraternal societies and other organizations as second class mail matter.

In the agricultural bill were provisions governing the distribution of seeds by the department. Incidental to the sundry civil is a provision granting 1,000,000 acres of the surveyed arid public lands to each of the states to which the desert land law is applicable—Nebraska, Kansas and the territories of Arizona, New Mexico, Oklahoma and Utah—to be selected within ten years. One of the deficiency bills contained legislation relating to the suspension of pensioners from the rolls. It was forbidden to suspend them without thirty days' notice and notification of the charges against them.

Two resolutions appropriating \$50,000 and \$10,000 for enforcing the Chinese exclusion act were approved December 7, 1893, and April 4, 1894. As most of the appropriation bills had not passed at the beginning of the fiscal year, July 1, it was necessary to extend by resolution all appropriations for the necessary operations of the government for pensions and for the District of Columbia.

Much legislation relating to public lands was accomplished. One act extends to January, 1897, the time within which persons may purchase railroad grant lands forfeited to the government by the act of September 29, 1890, under the conditions of purchase in that act. The reservation of section 13 in each township of the Cherokee outlet, Tonkawa reservation and Pawnee reservation lands in Oklahoma, for educational purposes, and of section 33 in each township for public buildings, was ratified and conditions fixed for the lease of the lands by the territory.

An act was signed providing for the allotment of certain lands on the reservation of the Confederate Gies and Missouri Indians of Nebraska and Kansas, amending the act of March 3, 1881. The commissioner of the land office was authorized to issue patents as evidence of title for all valid locations made with land scrip issued pursuant to degrees of the supreme court, which valid locations were made prior to the approval of the act of June 22, 1879.

As a measure of relief to the West during the business depression, the requirement that on each mining claim located not less than \$100 worth of labor or improvements be made each year, under penalty of forfeiture, was suspended for the year 1894. An act was passed disqualifying registers or receivers of land offices from hearing cases in which they were interested, and providing that the secretary of the interior shall designate special agents to hear such cases.

The time for making final proof and payment for all lands located under the homestead and desert land laws was extended for one year, and the time for final payments under the pre-emption act when entrymen are prevented from making payment from causes beyond their control.

OMAHA STRIKE IS LOST.

The Butchers Have Offered to Arbitrate, But Will Be Met With Refusal.

OMAHA, Neb., Aug. 7.—The South Omaha strikers have so far refused to arbitrate their differences. They had several large meetings Saturday. There was considerable aggressiveness, but little riotous demonstration. After much discussion of the situation, the strikers agreed to trust to arbitration and appointed a committee to confer with the packing house people and arbitrate the scale of wages. The strikers called on the managers of the packing houses, and after some preliminary skirmishing, they were told that they would be given an answer to-day.

From other sources it is learned that the answer will be a positive refusal to meet the arbitration committee and to refuse any terms except those first proposed—a complete surrender and a return of the men at the old scale.

THE STRIKE IS NOW OFF.

Chicago Labor Unions Held a Meeting and So Declared Officially.

CHICAGO, Aug. 7.—After a struggle of forty days against the strike railroad, the American Railway union in Chicago, has declared off the strike, inaugurated in behalf of the Pullman employees. The strike is off in Chicago except the employees of the Santa Fe and Chicago and Eastern Illinois. By today the strike will be declared off along the entire systems of railroads affected by the recent movement.

At a meeting of the delegates of the twenty-four local labor unions affiliated with the A. R. U. yesterday afternoon, it was voted to declare the strike off in Chicago except on the Santa Fe and Chicago and Eastern Illinois. The action was purely local and the declaration does not even affect Pullman. Neither President Debs nor any of the A. R. U. national officials were present at the meeting. In fact President Debs had left the city for Terre Haute before it occurred.
