CARLISLE'S INSTRUCTIONS.

THE SECRETARY TO THE CUSTOM COLLECTORS.

POINTS ON THE NEW TARIFF BILL.

The Free List and Bonded Goods: Cleared Up—Wool in Bond to Be Withdrawn Free of Duty—Reciprocity Treaties Revoked as Applies to Venezuela, Columbia and Hayti—Other News.

WASHINGTON, Aug. 28.—The tariff bill which has been in the custody of the treasury department since shortly after it was sent to the president was returned to the White House this morning. It is stated authoritatively that a veto is out of the question and that the bill will become a law at 12 o'clock to-night.

Secretary Carlisle has decided that goods placed in bonded warehouses under the McKinley law and made free of duty under the new tariff act are entitled to free entry and need not be exported and reimported to get the benefits of the new act. This is of great interest to the wool trade, a large amount of wool being stored now in bonded warehouses. In this, as in all other mooted questions, the secretary will follow the intent of congress and let aggrieved parties appeal to the courts if they care to contest on technical grounds. He undoubtedly will hold that diamonds are dutiable, notwithstanding the erroneous punctuation of the free list.

The secretary sent the following telegram to collectors at New York, San Francisco, Boston, Philadelphia, Baltimore, New Orleans, Chicago and Port Townsend, Wash.:

Treasury Department, Office of Secretary, WASHINGTON, D. C., Aug. 27, 1894.—Collectors of Customs: You are instructed as follows concerning the collection of duties under the recent revenue legislation of congress:

First—All articles heretofore subject to duty made free by the provisions of the new act may be withdrawn from the warehouses on and after August 28, 1894, without payment of duty.

Second—All manufactured articles especially or generally provided for in schedule "K" where composed wholly of materials other than wool or worsted or of which some one material other than wool or worsted is the component part of their chief value, will be admitted on and after August 28, 1894, at the rate of duty prescribed in the new act; all other manufactured articles specifically generally provided for in the said schedule will continue, until January 1, 1895, to pay the rate of duty imposed thereon by the act entitled "An act to reduce the revenue, equalize duties on imports, and for other purposes," approved October 1, 1890.

Third—Coffee and tea, hides and skins, raw or uncurd, whether dry, salted or pickled, will be admitted free of duty on and after the 23rd day of August, 1894, and treasury circular "S" 12,510, dated March 24, 1892, issued in accordance with proclamations of the president of the United States dated March 15, 1892, and directing the collection of duties upon certain articles being the products of or exported from Venezuela, Columbia and Hayti is hereby revoked.

J. G. CARLISLE, Secretary.

K. P. ENCAMPMENT.

The Flag Over Camp Washington at Half Mast.

WASHINGTON, Aug. 28.—The flag over Camp George Washington was lowered to half mast to-day on account of the announcement of the death of Congressman George B. Shaw of Eau Claire, Wis., past supreme chancellor of the Knights of Pythias. Resolutions were drafted at once by the supreme lodge, to be sent to his family.

Three hundred extra tents from the war department were raised to-day, making the number in the camp 2,000, but there were complaints of overcrowding and the Washington divisions, which had tented with the visitors, marched out of camp and gave their quarters to the Michigan men. Estimates of the number in camp are about 10,000, as each tent accommodates five men. There are also many unattached knights in town. Many divisions arrived during the day and there was a jolly time in camp notwithstanding the damp, uncomfortable weather.

The state brigades which are here are: Kentucky, Indiana, Kansas, Iowa, Illinois, Wisconsin, Texas, Pennsylvania, Nebraska, West Virginia, Missouri, New Jersey, Ohio, Tennessee, Minnesota, Michigan, New York and Connecticut. Separate regiments are on the field from Florida, Georgia, South Carolina, North Carolina, Maryland, Maine, Rhode Island, Louisiana, Delaware, Arkansas, and Colorado.

There was a wild scramble for the windows and doors, but fortunately no one was injured.

The terms of Nathan F. Dixon of Rhode Island, James F. Wilson of Iowa and Joseph N. Dolph of Oregon, Republicans, and Eppa Hunton of Virginia, A. J. McLaughlin of Mississippi and John T. Morgan of Alabama will also expire next year. Rhode Island has already elected as Senator Dixon's successor, George Peabody Wetmore. Iowa has elected as Wilson's successor ex-Governor Gear. Ex-Senator Walhalla had already been elected for the next term from Mississippi before he resigned and gave place for the appointment of Mr. McLaughlin's successor from Virginia. Mr. Dixon's successor from Rhode Island will be Senator Martin, who has been already chosen. In Alabama and Oregon the legislatures have already been elected and Senators Morgan and Dolph are practically assured of their being chosen their own successors. Besides senators, N. C. Blanchard of Louisiana and Thomas J. Jarvis of North Carolina, Democrats, and George C. Perkins of California and John Patton, jr., of Michigan, Republicans, were chosen by governors to fill vacancies and the legislatures to be elected this fall will choose their successors for the balance of their terms. Montana, Washington and Wyoming had only one senator each during the present congress and the vacancies caused hereby are to be filled by the legislatures elected in these states this fall.

FLOODED BY A WATER MAIN.

A Torrent Fours Forth and Deluges a Section of New York City.

New York, Aug. 28.—Last night a Lexington avenue water main, exposed by excavation for a cable road, broke just as Watchman Yale was passing over the impoverished wooden bridge that spans the hole. Then came a loud report that shook the buildings in the vicinity and could be heard half a mile away. A moment later a great body of water resembling a geyser, rose in the air to a height of forty feet. Paving stones, dirt and bits of iron pipe were thrown across the street.

The main connects with a twenty-inch pipe at the point where it burst, the full force of the larger main flowing through it and a tremendous body of water rushed along Lexington avenue, carrying everything movable before it. Within a few minutes the entire avenue presented the appearance of a rushing river. The water reached to the stoops of the houses and rushed into the cellars and basements.

When the explosion occurred the streets were crowded with people, especially One Hundred and Twenty-fifth street. Both sidewalks were jammed with excursionists bound for the Harlem river boats and the resorts on Washington Heights. The water spout occurred as cable car No. 24 was passing. The tracks are at the edge of the hole. The water rushed into the car with a force that carried the passengers from their feet and drenched them thoroughly. People on the sidewalk were knocked down and carried along fifty feet by the flood. Men and women ran in a panic for places of safety. At the junction of One Hundred and Twenty-fifth street and Third avenue 500 people were standing waiting to be transferred to the Third and One Hundred and Twenty-fifth street cars. They were ignorant of the danger until the flood was upon them, when there was a general scamper. The water flowed into the cellars of all the stores on One Hundred and Twenty-fifth and many on One Hundred and Twenty-sixth street, doing great damage.

He is at liberty to earn or accept money which may be spent for anything but transportation. He is in excellent health and spirits.

A Pardon With a Condition.

FRANKFORT, Ky., Aug. 28.—Governor Brown to-day pardoned Mrs. A. Peoples from the penitentiary on condition that she leave the state within three days and not return again. It is feared her injuries are fatal.

GRAND ISLAND, Aug. 24.—The populist state convention, held in this city today, made nominations as above given.

W. L. Greene of Kearney was temporary chairman, which was afterward made permanent. Holcomb was nominated for governor on the first formal ballot.

THE PLATFORM.

The following platform was adopted: We, the people's independent party of the state of Nebraska, reaffirm the principles laid down in the national platform adopted at Omaha July 4, 1892. We emphasize the demand for free and unlimited coinage of silver and gold at the present ratio of 16 to 1. We brand as treason to labor in every field, and to the best interests of the whole country, the unconditional repeal by congress of the purchasing clause of the Sherman act. We demand both state and national laws for the encouragement and promotion of the irrigation of our arid and semi-arid lands.

We demand that congress shall speedily pass a law by which the federal courts will be prevented from suspending the operation of the state law at the dictation of corporations.

We demand a liberal service pension to all honorably discharged union soldiers and sailors of the late war.

We declare for municipal ownership of street cars, gas and electric light plants and waterworks.

We demand compulsory arbitration of all controversies between employers and employes.

We heartily approve the course of Senator William V. Allen and Congressman W. A. McKeighan and O. M. Kem for their fidelity and loyalty to our entire interests, and we compliment Congressman W. J. Bryan, who, though elected as a democrat, has given strong support to many of our reform measures.

We demand a more economical administration of our state government, and a more strict accountability of moneys appropriated and expended.

We reiterate our demand for a maximum freight rate law or the enforcement of the one now on our statute books.

We demand the amendment of our state constitution by the adoption of what are popularly known as the initiative and referendum.

We demand the enforcement of the present law for the investment of our permanent school fund as directed, and not through bond investment companies, at a loss to said fund or profit to speculators and money sharks.

We demand that all officers, both state and county, be paid a reasonable salary, in accordance to the labor to be performed and the amount of skill required, and that all fees be turned into the general fund for state and county purposes.

We commend to the favorable consideration of the state the building of what is known as the Gulf & Interstate railroad, now under process of construction.

We demand that immediate steps be taken for the relief of the drought sufferers of our state, and that some means be devised to give them employment and wages.

Having stated our demands we cordially invite all persons who are in sympathy with them to co-operate with us, regardless of former party affiliations.

A CALL FOR AID.

The Governor of Illinois Issues a Proclamation.

CHICAGO, Aug. 23.—Governor Altgeld has issued the following proclamation: To the People of the State of Illinois, and Especially Those of the City of Chicago.

There is great distress growing out of the want of food in and around the town of Pullman. More than 1,000 families, or in the neighborhood of 6,000 people are utterly destitute—nearly four-fifths of them are women and children. The men have endeavored to get work, but were unable to do so. As a rule the men are a superior class of laborers—industrious and steady and some of them have worked for the Pullman company more than ten years. Those who have been given work can get food, but are still in such an impoverished condition that they cannot help their neighbors if they could. The relief society is unable to get more supplies. On last Saturday it gave to each family two pounds of oat meal and two pounds of corn meal, and having nothing left it suspended operations, leaving the people in an absolutely helpless condition. The county commissioners of Cook county, as overseers of the poor, have rendered some assistance, but owing to the limited appropriation they can furnish relief but for a short time.

We can not now stop to inquire the cause of this distress. The good people of this state cannot allow women and children to be reduced to perils of hunger. I, therefore call upon all humane and charitably disposed citizens to contribute what they can toward giving relief of these people. The governor has also called on the commissioners of Cook county to do all in their power in the matter.

R. people in all the central states, was found dead last night on the National road fifteen miles west of here, lying at the bottom of a fifteen foot embankment, with his head crushed under his buggy. There is nothing to explain the mystery of his death.

"Quart" Rust, as he was called in the army and ever since, was widely known for his claim, never disputed, that he killed the rebel General Zollicoffer in the battle of Perryville, Ky., in 1862.

It is thought that they were mistaken for Sheriff Bowers and deputy.

Wirt is a man of means and a nephew of the late James G. Blaine.

Killed at a Tournament.

Henry II., of France, who excelled in every exercise of chivalry, was peculiarly fond of tournaments, and gave a splendid succession of them on the marriage, by proxy, of Elizabeth to Philip II., at Paris. The lists extended from the Palace of the Tournelles to the Bastille, across the street of St. Antoine. In the first two days the King broke several lances with Lords of his court, in all of which he showed extraordinary vigor and address. On the third day of the tournament—June 30, 1559—toward the close of the evening, and before the conclusion, Henry showed a great inclination to try his prowess against the Count de Montgomeri, Captain of his Life Guards, who had formerly wounded Francis I. so dangerously on the head, at Bomorentin in Berri, and was distinguished for his superior address in these combats above any nobleman in the kingdom. Catherine de Medici, as if by a secret presage of the event, entreated the King not to re-enter the lists; but he resisted her solicitations, saying he would break one lance more in her honor. Montgomeri accepted the challenge with great reluctance. Henry commanded him to obey, and even fought with his vizor raised; but authors are not quite agreed whether it was raised intentionally, or flew open by a blow from Montgomeri's lance, in an encounter which was so violent that the Count's lance broke against the King's helmet; he then fought with the stump which remained in his hand, and with it had the misfortune to strike the King so violent a blow under the eyes as threw him to the ground, and deprived him instantly of both speech and understanding, though he lived eleven days afterward. This circumstance occasioned the suppression of tournaments in France.

He Stopped Bowling.

Hon. B. F. Moore was for years the leading lawyer in North Carolina. He always went clean shaven—as bare-faced as any lawyer ought to be. Not long before his death he appeared at court with a full gray beard, almost covering his entire face. Colonel L. C. Edwards, a member of the bar, distinguished for his courtesy of manner, congratulated him on his improved appearance and added, with a bow, "Mr. Moore, it gives you such a distinguished appearance." Mr. Moore bowed. "It makes you so much handsomer, Mr. Moore." He smiled and bowed lower. "It hides so much of your face, Mr. Moore." The bows ceased.—Green Bag.
