Mrs. Will Archibald is here on a visit. A stock special east, Tuesday evening. A slight wreck on this division, Saturday night.

Hi, Thrailkill is home from his trip to the Pacific coast.

Charlie Parsons was the guest of Jake Burnett, close of last week.

Mrs. F. W. Campbell has joined her husband, the engineer, at Alliance.

The company's gauge indicated a rainfall of three inches, last Saturday, at Wilsonville.

Roadmaster Web Josselyn was up from Orleans, on official business at division headquarters.

Mrs. J. O. Lindley is visiting relatives at McCook and Culbertson, this week.—Red Cloud Chief.

Mrs. M. A. Campbell went down to Wymore, last week, to visit her daughter Mrs. D. N. Ritchey.

Mrs. C. W. Bronson will be home from Iowa soon. He mother, who has been sick, is expected to accompany her.

Fireman and Mrs. C. E. Benedict came home, Monday night, from their wedding trip of a week or two. Cigars were in order.

Agent Hawker of Stamford has been laid off by the company. He is succeeded by an operator from Long Island, Ks. C. V. Shields is now in charge of Long Island office.

Engineer Heber, wife and son John departed on last Friday night for California. Charlie will remain here and hold down his old position in the office of Supt. Campbell.

J. F. Heber, who left for California on last Friday night, has, we are informed, secured a passenger run between Sacramento and Los Angeles. His success has caused some of the other men here to look longingly toward the coast.

The services of station agent at Laird have been dispensed with and the agent transferred to Wray as night operator. . . T. P. Haines, now special agent for the Burlington, is acting agent here during Agent Burghard's vacation of a few days in Denver. Tommy is a steady young man and will soon merit a good position from his employers.—Haigler News.

Night Operator Hendley was given the g. b., Monday. As near as we can learn Hendley was too fond of the girls, he having one or two transients with him nearly every night, and when the company heard of this it decided that he could not attend to business and give the proper attention to the girls; hence he was given the latter privilege and his services were dispensed with entirely. Ed. Malridge is the gentleman who succeeds him.—Haigler News.

Lanterns issued to engineers are now painted black. Train and section men have no use for black lanterns. . . We are reliably informed that Roadmaster Curran is the inventor of a new machine worked by the friction of the air and animal heat, to be worn in roadmaster's hats while on trains. It will record the speed of trains. Also has an alarm that will go off when a train exceeds its schedule time. This he says will be of great value to roadmasters. Mr. Curran is confident that he can still improve it so it will record bad places in track and bridges, as well as the speed.—Alliance Grip.

The postal clerks on the Kansas City and Oxford route are going to make a vigorous kick for change of grade. This would result in a raise of salary. This is one of the hardest and longest runs in the state and its clerks have been ill paid, so far. It is to be hoped that success may crown their efforts, and we believe it will, if they kick long and loud and all kick together. . . Conductor Green and his crew had an unusually long, heavy and exciting run, this week, as a stock extra. They left St. Francis at 2 a. m., Wednesday, (after having run there as the regular local) for Hastings via Oxford with about 35 cars of stock. Arriving at Hastings they were turned and sent to Holdrege with a train of empties, and from there they came home, getting here at 4:35 on Thursday morning. While the boys were coming down the line this side of Oxford, they run into a drove of horses, the property of an emigrant camped near the track. The train was stopped and slowly backed up to where the stock had been struck, and it was found that four horses had been killed outright and several others injured. The owner could not be found, however. It was evident that he mistook the boys with their lanterns for white caps or train wreckers and took to the woods in negligence attire. The place where he had been sleeping was still warm and this is the only theory that can be advanced for the man's miraculous disappearance. The boys are not having many forty-eight hour runs without sleep, but this seems to have been one of them.—Republican City Democrat.

Parks cough syrup cures coughs, colds and consumption. Mrs. Catherine Black of Le Roy, N. Y., says: "I took one bottle of Parks' cough syrup. It acted like magic. Stopped my cough and I am perfectly well now." Sold by McMillen.

It certainly is false modesty, negligence or something of the kind, when people continue to suffer from kidney or urinary troubles, for Oregon Kidney Tea can now be bought in small size packages for 25 cents, and if one package does not cure them, it will give so much relief that they will continue to use it until cured. We advise you to try it.

A workman in the Erie railway shops at Hornellsville, N. Y., conceived the idea that these bolts could be quickly and effectively removed by a projectile fired from a cannon. The master mechanic resolved to test the idea, and a steel mortar-shaped piece of ordnance was made for the purpose, with a two-inch bore, seven inches deep. This is fitted with a steel projectile the same length as the bore. The first test of this novel tool was made on Saturday. The mortar was loaded and the drill projectile placed beneath a bolt in an engine frame. At the first discharge the bolt, a particularly obstinate one, was driven from its hold. The entire frame was dispossessed of its numerous bolts by the projectile in a much shorter time than a single bolt was ever taken out before. The success of the ordnance tool will mark an important revolution in the work of locomotive repairing.—Newark (N.Y.) Sunday Call.

The Fair. This is fair week and as a result the road between town and the grounds is several feet deep in dust and as the longed for rain did not come, sight seeing is very unpleasant and real estate moves about rapidly. Yesterday afternoon we took a flying trip to the grounds and looked around for about half an hour. The horse stalls all seem to be occupied and we would judge that good races would be forthcoming.

Mr. Winans of Red Willow has a fine bunch of mules on exhibition. We noticed several bunches of rhrity looking cattle. Ora Clark of East Valley has a mace and colt and two-year-old colt entered. Horace Taylor of Red Willow shows some fine horses.

In the hog department J. H. Warfield of Ash Creek shows his 700 lb. Improved Chester boar, Montgomery 1013, second premium at state fair, and other hogs from his herd. Mr. Wagoner of Danbury shows Yorkshires, while C. C. Sibbitt of Bartley and John and David Deveny each have some fine specimens of Poland Chinas from their respective herds. Mr. Pickney of Coon Creek had a couple of fine Poland pigs on exhibition, which he sold while we were present. John Irvin of Missouri Ridge had a fine Yorkshire sow and pigs on exhibition.

The irrigation pump exhibit is attracting considerable attention. The big New Orleans steam pump with a capacity of 100,000 gallons per hour is surrounded by an interested group of visitors constantly. It is operated by John Reiter's threshing machine engine and works nicely. Lerch & Wadsworth have the Aermotor wind irrigator and it throws a fine stream of water. The Dempster Mill Mfg. Co. of Beatrice have one of their irrigation pumps at work and an agent on hand to explain its many good qualities.

The exhibit in floral hall is very interesting. The display of vegetables is good, although not quite as extensive as last year. The fancy work—we don't know anything about but think it was perfectly lovely, and honey, fruits, etc., looked good enough to eat.

The chicken department is all right, little games and big Brahmas, both the old turkeys and ducks too. If you have not attended the fair go tomorrow. It's a good show.—Indianola Courier.

I've a secret in my heart, Sweet Marie, I'd like to impart, If you'd even fairer be, You must always use Parks' Tea. The improvement you will see, Sweet Marie. Sold by McMillen.

The American beauty owes her prestige more to a clear complexion than to any other attribute. A cup of Parks' tea will enable any one to possess this. It clears the skin and removes pimples and that sallow, muddy look. Parks tea is used by Thousands of ladies for the complexion. Without being a cathartic it cures constipation. Sold by McMillen.

Parks' sure cure is a sure specific in all diseases of the liver and kidneys. By removing the uric acid in the blood it cures rheumatism, S. B. Basford of Carthage, S. D., says: "I believe Parks' sure cure excels all other medicines for rheumatism and urinary troubles." Sold by McMillen.

A cup of Parks' tea at night moves the bowels the morning without pain or discomfort. It is a great health giver and blood purifier. Sold by McMillen.

Parks' tea clears the complexion. Mrs. N. Myette of LeRoy, N. Y., says: "I have used Parks' tea and find it the best remedy I have ever tried." Sold by McMillen.
