

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osmond,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other harmful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kincheloe,
Corway, Ark.

The Centaur Company, 77 Murray Street, New York City.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. Archer, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Sowing wheat is the order of the day.

Harry Wade sowed wheat for Henry Pade, Tuesday.

James and Charlie Boatman are very busy putting in wheat.

Jacob Pickrell has returned from Johnson county, and is rustling around as usual.

E. F. Duffey is contemplating going back to Galesburg, Illinois, to farm this season.

Warner Anderson is having quite a hunt after some horses that strayed away, Sunday.

Those who kept their horses at home the past winter did better than those who sent them to Haigler to be wintered, as those that have been brought home from there are in worse condition than when they went away.

Our editor remarked in his last week's paper that he was not a peanut roaster. We don't think at all he is, for it takes money to buy peanuts.

A CHANCE TO MAKE MONEY.

I saw one of your subscribers tell in your columns a few weeks ago how she made money selling Dish Washers. I wrote to the Iron City Dish Washer Co., E. E. Pittsburg, Pa., and obtained one of their Dish Washers and tried it myself. It is just lovely; you can wash and dry the dishes for a family in two minutes, without touching your hands to a dish or putting them in hot water. I made the first day, \$5.00, and everybody wanted a Dish Washer just as soon as they saw me wash their dishes. Since then I have made as high as \$18.00 a day, and I believe that I can get enough money to keep my brother at school this winter and have money in the bank too. Any lady or gentleman can do as well as I am doing, I am sure, as I had no experience. When everybody wants to buy, it is not hard to sell. Anyone can get information by writing the above firm, and I am glad to add my experience, because I think it is my duty to others to help them over the hard times.

COLEMAN.

Seeding and garden making are the order of the day.

In anticipation of a soaking rain Wm. Coleman has reshingled his house with native shingles.

John Smith jr. who spent the winter in the eastern part of the state returned, last Saturday, to farm here this season.

Phillip Blatt has erected a neat frame house up here which will soon be ready for occupancy. Henry Blaholder will occupy it.

Wednesday evening, the young people to the number of twenty-seven gathered at the home of Mr. and Mrs. Sharp and had a very enjoyable time.

One hundred and eighty-five bushels of seed potatoes for the farmers of this township were purchased with the money secured by S. D. McClain during his visit to Illinois.

On Thursday of last week S. D. McClain, R. Traphagen, H. Simermas and A. Prentice hauled out 112 bushels of seed wheat to sow on the F. H. Gensicke farm. He lives in Iowa and Wm. Coleman induced him to furnish the seed to sow on his land.

In 1880, the first rain that fell in this town, was on the 17th day of May. The writer hereof then broke out twenty acres and commenced to plant corn June 1st, and raised a fair crop of good, sound corn. There was scarcely any snow during the preceding winter, about two inches falling on the 11th of April. The soil is in far better condition now than it was any time that spring before the 17th of May.

Sam Johns is well known in this township. He came here from the state of Iowa in 1888, and after farming three seasons went back in 1890, but returned in 1891, and farmed here until last fall, when he went back to Iowa again and purchased eighty acres near Panorama, Guthrie county. The first of this week he traded his eighty acres for the W. T. Richey farm located four miles northeast of McCook, and is now on his way back to farm in this county. He has tried farming here and there, but evidently prefers this for farming. Mr. R. expects to leave tomorrow for his new home near Panorama. They are both fine men and good industrious farmers.

The following quotations have appeared in Iowa papers during the past two or three weeks: "The farmers are busy discussing prospects for rain." . . . "There would be louder rejoicing to see rain than there was to hear of the decease of the 53d congress." . . . "The most important question before the people today is, when will it rain?" . . . "It is said the drouth is on account of the sins of the people. If this is a fact the people had better be scratching around for sanctification." . . . "Des Moines, Iowa, March 28.—A storm of sand and dust prevails over Iowa today. The dry surface of the fields being lifted by the wind and driven across the country and into the upper atmosphere, clouding the sun. Dust and sand is drifted in great piles along the fences and hedges." . . . "The small streams are practically dry. The springs are drying up and half of the wells in the country are so dry that a wooden pail would soon go to pieces in the bottom of them. Some farmers have to drive their stock three or four miles to water. Water for house use is becoming a serious question."
