NEW OFFICERS FOR A. P. A.

Supreme Council Decides to Make the Order International.

Milwaukee, Wis., May 13.-Three.sessions of the Supreme Council of the A. P. A. were held yesterday. The international committees, representing Canada and this country, reported that they had decided upon a declaration of principles for the order in all countries. The report has yet to be adopted by the supreme body in Canada. Among its important features are the pledging of the support of the order in all countries and loyalty to their flags. In constitutional countries, it will pledge support to the constitution and in monarchial countries to the monarchy. Any government changes desired are to be worked for and secured through the government.

The council reaffirmed the principles which were set forth in the platform adopted at Des Moines last year. It affirms that the A. P. A. is not a political party, is tolerant of all creeds, but opposed to the holding of public office by any subject or supporter of an ecclesiastical power. It declares in favor of public schools and opposes the employment of any subjects of an eccleslastical power as teachers or officers of the schools. It condemns the giving to sectarian institutions any part of the public moneys and declares for the taxation of all property not owned by the dollars. Then came a bombardment of of immigration, a change in the naturalization laws to make seven years resibuckshot to the size of small hen's dence a necessary condition of citizenship, and that all institutions be opened to public inspection.

With the exception of President Traynor and Secretary Beatty an entire new set of officers was electetd. Following is the result: Supreme president, W. J. H. VICTIM OF A CONSPIRACY.

Gov. Brown Claims a Plot Was Laid to Kill His Son.

Louisville, Ky., May 9 .- The Courier-Journal prints the following: "The sensation attending the Gordon double killing is not over by haif. The prosecution will attempt to prove that Arch Dixon Brown's death was due to a plot to assassinate him. Governor Brown has reason to believe that the facts of his son's coming to Louisville on the day of the tragedy and his meeting with Mrs. Gordon were known to a man in Fraakfort, who telegraphed to a man in Louisville. This Louisville man, the prosecution claims, notified Gordon that his wife was to meet Brown and 'activey assisted in a foul assassination.' Mr. James A. Scott, the Frankfort attorney employed by Governor Brown to prosecute the case, said:

"I want to say that Governor Brown never authorized any statement prosecute that he would not the case nor did he ever dream of granting a pardon to Gordon, as has been stated. Before deciding on the step Governor Brown took counsel with a number of intimate friends from all over the state. He came to the conclusion that it was due the memory of his son that there should be a full and fair investigation of all the facts. He was convinced that Gordon must have known that his wife was dissipated, reckless and imprudent. Governor Brown and his counsel would shrink from any attack on Mrs. Gordon's character, but would prefer to throw the veil of charity over all her acts, especially as she is dead. The future will determine whether it will be necessary to further blacken the character of Mrs. Gordon in order to show the defendant's thorough knowledge of it. I think the developments will be surprising to some people."

PHYSICIANS PUZZLED BY TH EXPERIENCE OF MRS. BOWEN

A PECULIAR CASE.

The Episcopal Hospital Said She Had Consumption.

(From the Record, Philadelphia, Pa.) Last July the Episcopal hospital admitted a woman whose pale and emanciated face and racking cough proclaimed her the victim of consumption. She gave her name as Mrs. Wm. G. Bowen, residence, 1849 Meighan St., Philadelphia. The case was diagnosed and she was told plainly that she was in an advanced state of consumption. The examining physician even showed her the sunken place in her breast where the cavity in her lung was supposed to exist. She went home to her family, a broken, disheartened woman with death staring her in the face. That was the beginning of the story, the end as told by Mrs. Bowen, who no longer expects to die, to a reporter fol-

"The first symptoms of consumption came in the form of terrible sweats, night and day. From April until September I was constantly cold and kept wrapped up in blankets through the hottest weather. A terrible cough took possession of me, my breast was sore to the slightest touch, and my limbs were like cold clay. The hardest rubbing with the coarsest towel would not create the slightest flush, and the least exertion would exhaust me

"I went to the hospital in July and they diagnosed my case as above stated. It was when the clouds were the darkest that the first glint of sunshine came. Mr. Shelmerdine, a friend, who lives around at 1844 Clementine St., said to me one day, Mrs. Bowen did you ever try Dr. Williams' Pink Pills for Pale People. I had never heard of the medicine, but in my condition could not turn a deaf ear to anything that offered relief. It was after considerable thought and investigation that I concluded to discontinue all other medicine, including cod liver oil, and depend entirely upon Pink Pills. I began to take the pills, at first with but little encouragement. The first sign of improvement was a warmth and tingling sensation in my limbs. Finally the cough disappeared, my chest lost its soreness and I began to gain flesh until I was fifteen pounds heavier. All this I owe to Dr. Williams' Pink Pills and I cannot praise them too highly.'

Mrs. Bowen is a kindly faced lady of middle age, a church member, wellknown and highly esteemed. She looks today well and strong and it seems almost impossible that she was ever given up by eminent physicians as an incurable consumptive. Yet such is the case beyond all dispute.

Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by all druggists, or may be had by mail from Dr. Williams' Med. Co., Schenectady, N. Y., for 50c. per box, or six boxes for \$2.50.

How to Walk.

A Delsarte teacher who is peculiar in knowing something of Delsarte's system of expression, says that women tan men at the old price. Other operators and the conditions on which French quotations from New York, Chicago, St. though they can't learn about walking improve their walk without a teacher, from print. The proper length of the step is twice the length of one foot, and it is measured from the hollow of one foot to the hollow of the other. Now, take a piece of tape and sew on it bits of flannel at intervals twice the length of one of your feet, stretch it across the longest room you have at your, disposal and you are ready for practice. May be you don't know that each foot should cross the same line with each successive step? It shouldthat is very important, so now you must walk your tape and set one foot and then the other right over one of these bits of flannel, letting the flannel come just under the instep. Do this and turn your toes out very well, and swing your leg from the thigh, and you are far on the road to a beautiful walk.
