

# What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

### Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."  
Dr. G. C. Osmond,  
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."  
Dr. J. F. KINCHLOP,  
Conway, Ark.

### Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."  
H. A. ACHSEN, M. D.,  
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

### DO YOU WANT TO STOP TOBACCO?

You CAN BE CURED WHILE USING IT.  
The habit of using tobacco grows on a man until grave disease and conditions are produced. Tobacco causes cancer of the mouth and stomach; dyspepsia; loss of memory; nervous affections; congestion of the retina and wasting of the optic nerve, even to the extent of blindness; dizziness; vertigo; tobacco asthma; nightly suffocation; dull pain in the region of the heart, followed later by sharp pains; palpitation and weakened pulse; resulting in fatal heart disease. It also causes loss of vitality.  
QUIT BEFORE TOO LATE.

To quit suddenly is too severe a shock to the system, as tobacco—an inveterate user, becomes a stimulant that his system continually craves. "BACCO-CURO" is a scientific and reliable vegetable remedy, guaranteed to be perfectly harmless, and which has been in use for the last 23 years, having cured thousands of tobacco users—smokers, chewers and snuff-dippers.

You can use all the tobacco you want while taking "BACCO-CURO". It will notify you when to stop. We give a written guarantee to permanently cure every case with three boxes, or refund the money with 10 per cent. interest.

"BACCO-CURO" is not a substitute, but a reliable and scientific cure—which absolutely destroys the craving for tobacco, without the aid of will power, and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke.  
Sold by all druggists, at \$1.00 per box, three boxes (thirty days' treatment) and GUARANTEED CURE, \$2.50, or sent direct on receipt of price. Send six two-cent stamps for sample box, booklet and proofs free. Eureka Chemical & Manufacturing Company, Manufacturing Chemists, LaCrosse, Wisconsin.

### A VALUABLE FIND.

"After years of study and labor there has at last been discovered a sure and never-failing remedy. It has been tested on patients who have despaired of ever being cured, and the results have been in every case wonderful. It is also a valuable blood purifier, being especially useful in eczema, psoriasis, scrofula, all glandular enlargements and diseases of the liver and kidneys. It is absolutely free from all narcotics. Severe attacks are relieved in from three to five days, and a positive cure effected in from five to eighteen days. For sale by McConnell & Co. 3-29-3m.

### DON'T TOBACCO SPIT OR SMOKE YOUR LIFE AWAY?

Is the truthful and startling title of a book about No-To-Bac, the harmless, guaranteed tobacco habit cure that braces up the nicotine-tized nerves, eliminates nicotine poison, makes weak men regain strength, vigor and manhood. You run no physical or financial risk as No-To-Bac is sold by druggists everywhere under a guarantee to cure or money refunded. Book free. ORDER OF HEARING ON APPOINTMENT OF ADMINISTRATRIX.  
In the County Court of Red Willow county, Nebraska. In the matter of the estate of Bernard V. Haley, deceased.  
On reading and filing the petition of Sarah A. Haley, filed this 20th day of June, 1895, praying that Letters of Administration be granted her upon the goods, chattels, rights and credits of Bernard V. Haley, deceased, who died intestate on or about the 2nd day of June, 1895.

It is ordered, that Tuesday, July 16th, 1895, at one o'clock, p. m., be assigned for a hearing in said matter, when all persons interested may appear and show cause, if such exist, why the prayer of petitioner should not be granted; and that notice of the pendency of said petition and the hearing thereof be given by publishing a copy of this order in THE McCOOK TRIBUNE, a weekly newspaper published in said county, for three weeks prior to said day of hearing.  
Dated this 20th day of June, 1895.  
CHARLES W. BECK,  
County Judge.

### ONLY A SCRATCH NEEDED.

The Frequency of Blood Poisoning Among the Meat Packers.  
"It would surprise you to know," recently remarked an officer of one of our large packing houses, "how frequent cases of blood poisoning are among our employees, and the cause in most of these instances would doubtless surprise you more. A scratch on the hand from a bone of a calf's head or a pig's foot often disables a man for a week, and, strangely enough, in almost every case that has come under my notice the scratch has been so slight as to be almost imperceptible."  
"The first intimation the man has of his injury is a swelling of the forearm, accompanied by a smarting pain. Both swelling and pain generally extend to the shoulder, under which a large lung sometimes forms. Even after the presence of the scratch has been in this manner demonstrated it is often impossible to detect it. It is usually caused, in the case of the calf's head, by the sharp edge on the bone of the neck, due to the carelessness of the butcher who severs the head from the carcass. If he does his work well and his cleaver has severed the joint perfectly, all is well, for there is no sharp edge to cut, but if he has missed the joint by even a hair's breadth, which happens in five cases out of ten, there is an edge on the bone that will probably work mischief."

"Of course none of these cases has ever resulted seriously, as prompt measures are always taken and as we always insist that a man so injured immediately consult a physician. This rule we never vary, for we feel bound to retain a man on the pay roll while suffering from such an accident, even though he be unfitted for work, and the unskillful treatment of an apothecary, on which many of them would like to rely, or the even less satisfactory methods of home surgery would only prolong the term of illness."—New York Sun.

COINS OF LITTLE PRACTICAL USE.  
The Gold Dollar Had No Utility, While the Three Cent Piece Served a Purpose.  
To one who has not given the subject thought it would seem that the most useless coins ever issued by the United States were the silver 3 cent pieces. They were small, as thin as a sheet of manilla paper, and before they finally disappeared from circulation they came to be regarded as nuisances.  
Although there is much to be said against the annoying little coins, they were, as a matter of fact, of far greater utility, as far as circulation is concerned, than another coin. This is the gold dollar, which, experts at the subtreasury say, has never served any useful purpose. Said Maurice Muhleman, cashier of the subtreasury, recently:  
"From the mutilated condition of the gold dollars sent here for redemption it is positively shown that the public do not regard them as coins. Their only use appears to be for bangles, necklaces, watch charms, scarfpins and the like. It is doubtful if one in a thousand ever really passed in circulation."  
"With the 3 cent silver piece it was different. When first coined, the country had nothing in the shape of a coin between the huge copper cents and half cents and the silver half dime. The small coin was hailed as a blessing and became popular at once. There was an excellent reason for its issue also.  
"Strange as it may seem, it was not provided for by a coinage act, but by an act revising the postal rates. This law lowered the cost for transmitting the unit of weight for letters from 5 to 3 cents. It was deemed advisable by congress thereupon to issue a coin of corresponding denomination. The coin was of great utility and circulated freely until the advent of the nickel."—New York Herald.

### INJURIES TO THE EYES.

An oculist of long experience in this city, who was recently asked to state the most common causes of accidental injuries to the eye, replied: "Among children, throwing stones and playing 'shinny'—a most dangerous game. Another not infrequent cause of accident is allowing children to stand about the kitchen range when the cook is frying fat that splutters and flies about the room. Among adults, the umbrella (its point when carried open in a crowd and tip when carried closed over the shoulder) is a quite common cause of injury and flying cinders another. But most of the cases we treat are not due to accident, but rather to the prolonged misuse of the eyes by close application either in dim or glaring light, and often injuries arise from strictly constitutional disorders."—Philadelphia Record.

### IRISH SUPERSTITIONS.

Mr. le Fanu, writing on Irish superstitions, says: "The so called battles of the Derins (burials) originated in the superstition that the last person buried has, in addition to his other troubles, to ally the first of all previously laid in the churchyard. Where the water carried is procured I have never heard, but as much is wanted, the atmosphere being very hot, the labor involved is incessant and the carrier not relieved till the next funeral takes place. Peasants have been known to put shoes or boots into coffins to save the feet of their relatives on these weary water carrying walks. Our neighbor, John Ryan, provided two pairs of shoes in his wife's coffin—a light pair for ordinary wear and a strong pair for bad weather."
