Mrs. Alva Vanderbilt, the divorced wife of Willie K., for years has not addressed a menial directly, but has employed certain persons to take from her the royal commands. To talk to a tradesman or to order anything out of a shop is too much for her nerves. On one occasion, two summers ago, she had a list written and given to the lodgekeeper at Newport of the people who were to be admitted and those who were not.

The Spanish authorities in Cuba continue to affirm that the insurrection is practically crushed, and at the same time to send vehement appeals to Madrid for more men and money. It is hopeless to expect anything like accurate details of military movements in Cuba, as neither party is scrupulous about telling the exact truth; but measured solely by the efforts which are made to suppress it, the insurrection clearly is a formidable affair.

The new portable Maxim gun, a but forty-five pounds, bids fair to revolutionize modern methods of war. Its muzzle can be moved out by the bearer in all directions, and it will fire 600 bullets a minute, sending them through forty inches of oak. It is estimated that an army of 10,000 men equipped with this death-dealing terror would be equal to an army of 1,000,000 men with the present weapons.

Lady Churchill's achievements in English politics first showed the energy of American women abroad. Now Miss Mary Leiter and Miss Jane Chamberlain, who were, are going to give an exhibition of their political finesse. Politics in Great Britain and the United States are entirely different. It is likely that the young wives could not be tempted to electioneer on the American plan, and at the same time the sort of feminine stumping done in the United States would not capture a vote in England.

Professor Wiley, the chemist of the Agricultural Department, has initiated a series of experiments to determine the relative fertility of typical soils of the United States. The ultimate object of the investigation appears to be to determine the nature of the fertilizers necessary to restore the fertility of any particular soil, and thus to save the farmers thousands of dollars annually spent for fertilizers which do not meet the necessities of the soil to which they are applied.

Two tons of pig-iron have been purchased by the Lancashire, Pa., authorities for the physical culture of tramps. Each convicted tourist will be compelled to take five hours' active exercise by carrying this iron from one end of the prison yard to the other under penaly of stoppage of rations. The method has nothing to commend it but its utter uselessness as a productive factor and its aggravation to the tramp. The infliction of misery without some compensating benefit is the most diabolical of reform measures.

We are threatened with a hotel building age. Architects and engineers say that never to their knowledge was there as much projected hotel and apartment house construction as now. What is the reason? It is this, that electric buttons, electric cookery, electric travel, and electric action of all kinds, concentrates advantages, and helps to multiply opportunities for association. The social side of life is being developed. People want to be more together instead of divided. Theaters, churches, clubs, associations, tours, travels, lectures, reading of papers, books, magazines, cable, telephones, and what not, are springing up right and left.

Hundreds of Bulgarians Look Upon the Mangled Corpse of M. Stambuloff.

Sofia, July 22.—A continuous stream of persons, including many soldiers, viewed the body of M. Stambuloff at the home yesterday. The bandages had been removed from the head and the terrible wounds exposed to view. There was one great gash from the left cheek across the nose and over the right eve to the right ear. There was another from the eyebrow to the top of the head and there were other wounds on the cheek and neck, while behind the ear the neck was literally covered with a network of gashes. At the foot of the bier, on a stand, was a glass jar filled with spirits, in which the mutilated hands were displayed.

Prince Ferdinand has telegraphed that in view of the attitude of Stambuloff's family, and being unwilling to expose his faithful servants to insult, he is compelled to forbid any state official from taking part in the funeral. Prince Ferdinand's decision is due to the widow of Stambuloff having refused the wreaths he sent.
