

The McCook Tribune.

FOURTEENTH YEAR.

McCOOK, RED WILLOW COUNTY, NEBRASKA, FRIDAY EVENING, AUGUST 9, 1895.

NUMBER 12.

Further Instructions.

INDIANOLA, Neb., August 29, 1895. Mr. F. M. KIMMEL, Dear Sir: Having received further instructions in regard to the law in regard to free attendance at public high schools, I wish to have the following published:

An examination will be held at McCook in the high school building, east ward, Saturday, August 17th, for those pupils living in the west part of the county who wish to enter the high school next year and receive the benefits of the free attendance law.

WHAT STUDENTS MAY ATTEND UNDER THIS LAW.

PROVISION I, Section 1, requires a certificate of proficiency from the county superintendent. This certificate will be issued by the county superintendent only under one or the other of the following conditions:

1. The county superintendent must have personal knowledge of the fact, or a certificate from the director and last teacher, that the pupil has completed satisfactorily the work laid out in the state course of study for common schools.

2. Special examinations. Students who cannot meet the conditions stated above may receive the necessary certificate only after passing a satisfactory examination. This examination will be held this year on August 17th, at such place as may be arranged by the county superintendent. The questions will be furnished by the state superintendent; the county superintendent will inspect the papers and pass upon their merits. The examination will cover the following requirements:

READING—Ability to read with correct understanding and good expression various selections furnished by the examiner.

ARITHMETIC—Ability to use numbers readily and accurately in the fundamental processes, decimals, fractions, compound numbers and measurements, and the general principles of percentage, interest and proportion.

ENGLISH LANGUAGE AND GRAMMAR—Especially the relation and dependence of the parts of sentences, writing letters and descriptions in good language and form, correct use of plurals, possessives, capitals, etc.

A good general knowledge of geography, United States history and physiology, orthography and penmanship will be judged from papers submitted in other subjects.

These papers will also be considered in marking the candidate in language.

H. R. CORBETT,
State Superintendent.

Mr. Corbett in a letter further states that "Students now enrolled in high schools who are entitled to full tuition under this law, and all others about whose fitness there is no question, should receive the certificate without examination".

J. H. BAYSTON,
County Superintendent.

A Sad Case.

Mrs. Bart J. Doyle, who was adjudged insane by the board of insanity, last Friday afternoon, was on Monday evening taken to Lincoln for treatment in the state asylum. Her husband, sister Mrs. Fitzgerald, and brother Ed. Farrell, accompanied her on her sad journey.

Mrs. Doyle came here from Wymore on a visit to relatives, was taken ill with pneumonia and insanity of a violent form quickly developing. She is the mother of four children, all under six years of age.

Mr. Doyle has been working at Sheridan for some time. He and all the relatives of the afflicted woman have the sympathy of all.

Eastern Land Agents.

On next Tuesday evening, August 13, a Burlington special, carrying some 85 eastern land agents, will arrive in our city, on a tour of this section of Nebraska. They will take supper here, and will then proceed up the Frenchman line as far as Imperial, returning the same night. They will then go on west as far as Haigler and perhaps to Denver.

The party is made up of real estate dealers from Ohio, Indiana, Iowa, Illinois, Missouri and other eastern states. And they are guests of the Burlington, over whose extensive lines they are being carried for the purpose of advertising the country through which the company lines run.

Doubtless great and good results may be expected to follow from such a commendable and characteristic enterprise. Southwestern Nebraska promises to be in fine condition to receive this notable company.

A Fable With a Moral.

Said the sheriff to the merchant, don't advertise, I will do the rest.

Moral: It pays to advertise.

The prospects for the early establishment of an administration democratic paper in this graveyard do not seem to be as rosy as immediate as they appeared to be a week or two ago.

The Democratic county central committee met here on Tuesday of this week and prepared a call for a county convention in Indianola on August 19th. The call is published elsewhere in this issue by request.

The Rocky Mountain News, published at Denver, Colo., is the only daily Populist paper in the nation. The Pythian band has been invited to consolidate with the Indianola band and play at St. Joe during the great races September 10th to 15th. The Indianola boys have been invited to come up here, next Tuesday evening, and indulge in a joint practice with the Pythians. If such an arrangement could be perfected, it would give both of the boys a pleasant vacation.

Sing a song of penitance, a fellow full of rye, four and twenty serpents dance before his eye. When his eye was opened he shouted for his life, wasn't he a pretty chump to go before his wife? His hat was in the parlor underneath a chair, his boots were in the hallway, his coat was on the stair; his trousers in the kitchen, his collar on the shelf, but he hadn't any notion where he was himself. When the morn was breaking, someone heard him call; his head was in the ice box, and that was best of all.—Ex.

Alfalfa is King.

We again want to call the attention of our farmers to alfalfa culture. From a further examination of the reports received by C. F. Babcock we find that the results published, last week, are if anything below the average.

The following list of alfalfa growers report the product and value per acre for 1894 as follows:

Perry Stone, McCook	\$76 00
S. E. Solomon, Culbertson	70 00
H. J. Cox, Benkelman	56 00
C. W. McCombs, Wilsonville	60 00
I. S. Meyer, Hendley	90 00
O. W. Clark, Beaver City	75 00

The average amount of seed sown per acre, twenty pounds. A majority of growers say the best time for seeding is in March, April and May.

O. W. Clark of Beaver City says "No fear of frosts", and Mr. Clark has been growing alfalfa for thirteen years.

C. E. Adams of Superior seeds in April, May and September. Mr. Adams reports having sown 20 pounds per acre on 100 acres on the 20, 22, 23, 24 of May, this year, on sod that was broken in April and May, 1895, and on July 28, 1896, cut 1 1/2 tons per acre. But the majority of the growers say to thoroughly eradicate the wild nature of the soil, especially the low bottom lands that have more or less clay. Nearly all recommend broadcast seeding, and say drill seeding compacts the roots.

In view of the results herein shown, in the driest year in Nebraska history, with a soil particularly well adapted to alfalfa, with no hardpan underneath to check the growth of the roots or hold the water too near the surface, and with the showing made by such men as J. S. Schmitz and R. P. High on land 50 and 75 feet above water, it appears to us the day of redemption for southwestern Nebraska is at hand, and it rests entirely with our farmers. It is thoroughly demonstrated that the bottom and bench lands are all capable of producing the same results as shown above. Now let every farmer on the uplands prepare at least 5 acres of his farm by deep plowing and sub-soiling and in the spring seed his alfalfa. You farmers who want to sell try this and in a year you will have a field of alfalfa that will cause you to raise the price or withdraw your land from market and conclude that this country is good enough for you.

Lack of Courtesy.

We are enabled, this week, by copying the same from the McCook Times-Democrat, to present our readers with the text of the call for the Republican Judicial convention. But for lack of common courtesy—not to speak of political propriety—either on the part of Chairman J. E. Kelley of this city, or Secretary O. E. Butterfield of Haigler, we would have published the call last week.

Or, perhaps it was an oversight. We would rather be charitable, if the facts would warrant it. Eh?

Land! Land! Land!

I have the largest list of lands on my books of any agency in southwestern Nebraska, and all of these lands can be bought right and at prices that will make the purchaser money. But in addition to my regular list I have a few tracts upon which I took options, last spring, and for the next 60 days I can sell these lands at dry weather prices. There are some very fine alfalfa lands among them.

Have Paid in Full.

Dr. E. E. Faulkner, vice president of the Woodmen accident association of Lincoln, is in the city. He comes to pay to Mrs. Sarah A. Haley the sum of \$2,000 on her husband, the late B. V. Haley, who was recently killed in a railroad wreck, and who carried a policy in this company.

The promptness of this company in paying their claim will make it many friends and every Modern Woodman of America should carry a policy in the association and give it their hearty support.

This company is a Nebraska enterprise and the first six months of this year paid in death losses and indemnities about \$20,000. Mrs. Haley wishes to add the following:

McCook, Neb., August 5, 1895.
Woodman Accident Association, Lincoln, Neb., Gentlemen: In acknowledging the receipt of \$2,000 paid me this day by your agent, in full for policy carried by my husband in the Woodmen Accident Association, I feel it my duty to express to you my sincerest thanks for the promptness and fairness displayed by you in the settlement of this claim. Were it not for the insurance money received, myself and little ones would be in a very helpless condition, and if the good wives and mothers would give the matter of accident insurance more thought and urge their husbands to become members, there would be fewer dependent widows and orphans. With wishes for your success, Very truly,
MRS. SARAH A. HALEY.

A Successful Social.

There was a large and delighted audience present at the "National" social or reception given by the members of McCook lodge No. 1, Star of Jupiter, Tuesday evening of this week, in the A. O. U. W. temple. The large hall was comfortably filled by members and friends, and the evening was very comfortably and enjoyably passed.

The program as arranged and prepared by Mrs. Utter was excellent and pleasing, consisting of both vocal and instrumental numbers, all of which were rendered in good form and well received by the audience.

Brief remarks by J. A. Wilcox and A. G. Forman preceded the regular program of the evening.

At the conclusion of this feature of the evening's entertainment, refreshments were announced, partners for the same being selected by numbers, which added to the social success of the reception. Ice cream and cake were served in the banquet room of the temple, and this part of the affair was as thoroughly enjoyed as the other items which made up an occasion upon which the lodge is to be congratulated.

In a Substantial Condition.

The quarterly report of the Citizens Bank of McCook appears in this issue, showing that old and conservative banking institution to be in substantial condition; and especially is this fact noteworthy when we consider the perilous times through which the banks of the country have been compelled to go by reason of the continued hard times which have followed the panic of 1894.

McCook and Red Willow county are to be congratulated upon the fact that all her banks stood the crucial test in good shape, and are now in substantial, encouraging condition.

Camp Meeting.

There will be a camp meeting held in the park at Cambridge, commencing August 16th, and will continue ten days. It will be under the auspices of the Evangelical church; Rev. S. B. Jilow, P.
