

### THE DRUG CLERK'S STORY.

**He Talks of Headaches and Nervousness and Gives a Cure for Both.**

From the Evening News, Newark, N. J.

The following interesting story as told by Henry Maier, who hands out medicine over the counter of Dr. Andrew P. Burkhardt's drug store at 271 Orange Street, this city, will prove of interest to all sufferers from headache and nervousness. He said: "I was not always strong and robust as I am now. Long hours of work and study had led me to a wretched condition. Frightful, lingering headaches found me a ready victim, and at times I was so nervous that the dropping of a pin would cause me to give a violent start, and then I would be seized with a fit of trembling that was, to put it mildly, exceedingly distressing. Well, I began to doctor myself. Now I flatter myself that I know something of medicine; but with all my knowledge, I could find nothing that would cure those terrible headaches or put an end to my extreme nervousness. When I picked up a bottle my hand would shake as though I had the chills, and if it was a powder that I was handling I stood a good chance of sprinkling it all over these black trousers. Things went from bad to worse, and I soon realized that a man of my physical condition had better not attempt to mix any medicine. "Try a box of Dr. Williams' Pink Pills," said Dr. Burkhardt, one day; and as you know the doctor's advice is always worth following I got the Pink Pills and began to take them. Aladdin's lamp never performed the wonders of these pills. Would you believe it? Before I had taken the contents of one box my headache began to give me a day off occasionally, and soon it left me entirely. How about my nervousness? Well, the pills put an end to that with almost startling abruptness. You see I know enough about the business to appreciate the importance of following the prescribing physician's directions, and by paying strict attention to those given by Dr. Williams with each box of his Pink Pills, I was soon another fellow. Look at me now! A picture of health, eh? Well, that is what Dr. Williams' Pink Pills will do for a man, or a woman either. See, I can hold this glass of water up now without spilling a drop, but I couldn't do that two months ago, and—

"What is it, ma'am?" he asked as a neatly dressed woman came up to the counter. "A box of Dr. Williams' Pink Pills." "Yes, ma'am, fifty cents, please. Thank you."

"These Pink Pills are great things," said Mr. Maier, as he turned to the reporter again, and the latter, after all he had heard, thought so too. Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by all druggists, or may be had by mail from Dr. Williams' Medicine Company, Schenectady, N. Y., for 50 cents per box, or six boxes for \$2.50.

### COMING ELECTIONS.

**INFLUENCE OF THIS YEAR'S VOTING WILL BE FELT.**

Many of the United States Senators Whose Terms Expires March 4, 1897, Will Be Affected—Money Question Creates Interest.

THIS will be a year of few elections. In most of the states the elections of last year, resulting in the choice of congressional and legislative representatives, put a stop to activity at the polls for about two years, excepting merely local controversies. The local elections held since the fall elections of 1894 have been spiritless, for the most part, and it was not until the introduction of national questions, and particularly the money question, into the state campaigns of this year that they began to interest.

State elections will be held on November 5 in twelve states, as follows: Iowa, Kansas, Kentucky, Maryland, Massachusetts, Mississippi, Nebraska, New York, New Jersey, Ohio, Pennsylvania, Virginia, and in the territory of Utah, which will, by that time, have about complied with all the conditions required of it in making it a state. Oregon, Rhode Island, Michigan and Wisconsin held elections early in the year.

The look ahead at the election of 1896 is highly interesting, not only because a president and vice-president are to be chosen, but because a new house of representatives must be elected, and the fate of twenty-nine senators, whose terms expire in 1897, will be affected by the determination of contests in their states.

The senators of the United States whose terms will expire in 1897 are James L. Pugh (dem.), Alabama; Jas. K. Jones (dem.), Arkansas; George C. Perkins (rep.), California; Henry M. Teller (rep.), Colorado; Orville H. Platt (rep.), Connecticut; Wilkinson Call (dem.), Florida; John B. Gordon (dem.), Georgia; Fred T. Dubois (rep.), Idaho; John M. Palmer (dem.), Illinois; Daniel W. Voorhees (dem.), Indiana; William B. Allison (rep.), Iowa; William A. Peffer (rep.), Kansas; J. C. S. Blackburn (dem.), Louisiana; Charles H. Gibson (dem.), Maryland; George C. Vest (dem.), Missouri; John P. Jones (rep.), Nevada; Jacob H. Gallinger (rep.), New Hampshire; David B. Hill (dem.), New York; Peter C. Pritchard (rep.), North Carolina; Henry C. Hansbrough (rep.), North Dakota; Calvin S. Brice (dem.), Ohio; John H. Mitchell (rep.), Oregon; James D. Cameron (rep.), Pennsylvania; John L. M. Irby (dem.), South Carolina; James H. Kyle (rep.), South Dakota; Justin H. Morrill (rep.), Vermont; Watson C. Squire (rep.), Washington; Wm. F. Vilas (dem.), Wisconsin.

The state legislature, to be chosen in August, 1896, in Alabama, will elect the successor of Senator Pugh. In Arkansas the successor to Senator Jones will be chosen by the legislature to be elected in September, 1896. The successor to Senator Teller will be chosen by the legislature to be elected in 1896. Senator Platt's successor will be elected in Connecticut by the legislature to be chosen in 1896. The election in Florida of a successor to Senator Call will be made by the legislature to be chosen a year from next November. In Georgia the legislature that is to elect the successor to Senator Gordon will not be chosen until 1896. In Idaho, Senator Dubois' successor will be elected by the legislature to be chosen in the general election of 1896.

The entire assembly and one-half the senate of the state of Illinois, to elect a successor to Senator Palmer, will be chosen in November, 1896. The successor to Senator Voorhees of Indiana will be chosen by the legislature to be elected next year. Senator Allison will be succeeded by a senator to be chosen by the legislature to be elected November 5. The senator from Kansas, to succeed William A. Peffer, will be chosen November 5, 1896. The election in Kentucky, besides an interesting contest for state offices, is one for half the senate and all of the assembly that will choose Senator Blackburn's successor. The successor to Senator Blanchard (dem.) of Louisiana will be elected by the session of the legislature to be held in May, 1896.

The successor of Senator Gibson of Maryland will be elected by the four-teen senators and all of the lower house of the legislature to be chosen November 5. In Missouri, the successor of Senator Vest (dem.) will be chosen by the legislature to be elected in November, 1896, at which time also Nevada will choose a legislature that will elect a successor to Senator John P. Jones (rep.). On the same day New Hampshire will elect a legislature to choose a successor to Senator Gallinger (rep.), and New York will elect, with fifty senators to be elected in November, 150 assemblymen, who will elect a successor to Senator Hill (dem.). North Carolina will elect a successor to Senator Pritchard in January, 1897, the legislature to choose a senator to be elected in November, 1896, also in January, 1897. North Dakota will elect a successor to Senator Hansbrough (rep.). Ohio will elect the successor to Senator Brice in the same month. Oregon will elect the successor to Senator Mitchell (rep.). In Pennsylvania, a successor will be chosen for Senator Cameron (rep.). South Carolina will elect a successor to Senator Irby by the legislature to be chosen in November, 1896.

South Dakota's senator, now Kyle (rep.), will be elected in January, 1897, by the legislature to be chosen in November, 1896. Washington will next year choose a legislature that

elect the successor to Senator Squire (rep.) about the same time that Wisconsin is to elect a successor to Senator Vilas (dem.). Utah will probably be prepared by the election of November 5 to elect two senators, to be seated in 1896.

In Georgia, it is expected that there will be a new election for representative in congress in the Tenth district, in which J. J. C. Black was returned as re-elected. "Tom" Watson asserted fraud in the election, and to remove all question about it the two candidates will resubmit themselves to a vote of the district. A vacancy having been created in the Sixth Massachusetts district by the death of Representative William Cogswell, an election to supply the place will probably be held November 5. Representative Myron B. Wright, of Pennsylvania, elected in 1894, died November 13, soon after his re-election, and the Fifteenth district elected James H. Coddling as his successor.

Connecticut, October 7.—Town elections throughout the state, at which the people will vote upon the constitutional amendments, adopted by the last legislature to re-district the state.

The Cost of Cleaning Berlin. It is true that municipal affairs are, generally speaking, conducted here more economically and much more thoroughly than in the case in American cities. Thus in 1875 the streets of Berlin, covering a total area of 6,780,000 square meters, were cleaned at an annual expenditure of 2,000,000 marks (\$500,000). Now, the area of Berlin streets having increased by 1895 to over 8,000,000 square meters, the streets are cleaned for but \$400,000—and cleaned, let me say, better than in any other large city in the world. This is due to system, to the excellent pavements, constantly renewed and mended, and to machine sweeping, which costs 60 per cent less than the sweeping done by hand. It is the same with the street sprinkling. This is done during the season whenever needed, on hot, dusty days twice, and 1,300,000 cubic meters of water are used up in the thorough system of sprinkling between April 1 and November 15. The city does it at an expense of but 2,364,000 marks this year.—Cor. Chicago Record.

Over 400 Perfumes. It is an interesting thing to know that 4,300 species of plants are gathered and used for commercial purposes in Europe. Of these 420 have a perfume that is pleasing and enter largely into the manufacture of soaps, soaps and sachets. There are more species of white flowers gathered than of any other color—1,124. Of these 137 have an agreeable scent, an extraordinarily large proportion. Next in order come yellow blossoms, with 165, 77 of them being perfumed. Red flowers number 823, of which 84 are scented. The blue flowers are 594 varieties, 34 of which are perfumed, and the violet blossoms numbering 308, 13 of which are pleasantly odiferous.—St. Louis Post-Dispatch.

Doubtful. The intellectual young lady looked over her glasses at the average young man and asked suddenly, "How old would you take me to be?" "The average young man fell into a train of thought, 'I wonder,' said he to himself, 'whether she wants to be rated five years younger on the score of her looks or five years older on account of her brains?' Darn these advanced women anyhow!"—Cincinnati Tribune.

The furniture revival next year for the drawing room will be the rosewood and red velvet of over fifty years ago, when there was less style, but more solidity.

What is the cost of building machinery? The cost of building is wonderfully reduced by the use of machinery. Walls made of brick, stone, cement, plaster, etc., are reduced in cost more than one-half. Large buildings, the estimate of which is about one dollar per cubic foot, can be built for thirty or forty cents per cubic foot by the employment of labor-saving machinery and devices. Cement and mortar, all the materials for stone work, with the brick and stone itself, may be mixed and handled almost entirely by machinery. A derrick, lifter and crane will perform in an incredible short space of time work that formerly took days and scores of men to complete. It would be advantageous if the same power and appliances could be so arranged as to be utilized in small towns on the same principle as those used in the large cities. As it now is in suburban localities, almost everything is done by hand.—N. Y. Ledger.

To Cleanse the System Effectually yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds or fevers use Syrup of Figs.

Preservation of Wood. Common pine or even basswood may be rendered almost indestructible, it is said, by soaking in a solution composed of one part blue vitriol and twenty of water. A French railway contractor announces a method of treating planks, etc., that greatly enhances their value. He piles the lumber in a tank and then covers thickly with quicklime. Water is slowly added till the lime is slacked. In about a week the wood becomes impregnated, and is ready for use. Timber prepared in this way has been used in mines and other exposed constructions with good results. Dr. Feuchtwanger gives an account of the experiments made by him for the preservation of wood. He says that wood boiled first in lime water and then coated with silicate of soda, or liquid glass, will last a very long time. The mixture is 15 per cent alkali and 10 per cent pure soda.—Detroit Free Press.
