NO SETBACKS EXPECTED.

The Reduced Estimates of Crops Do Not Affect Business.

NEW YORK, Sept. 16.-R. G. Dun & Co's trade review says: A slight setback, which may mean much or nothing, according to the final outcome of the crops, is not unexpected at this season. If the government crop reports were correct the situation would not be encouraging. But not much confidence is placed in the reduced estimate of corn, none at all in the estimate of wheat, and even the most enthusiastic bulls do not think it worth while to quote the government report as to cotton.

The fact is that we are beginning to market not far from 2,200,000,000 bushels of corn though about 500,000,-000 bushels will be moved from the counties where it is grown; about 450,000,000 bushels of wheat, of which the farmers are very unwisely holding back a large proportion, and about 7.200,000 bales of cotton, if the latter indications are not erroneous, as they may be, to add to the stocks carried

The wheat crop is evidently larger than the department has estimated, though nobody knows how much larger, and is coming forward with more encouraging rapidity, no less than 5,773.173 bushels having been received at Western ports against 5,446,-001 bushels for the same week last year from a much larger crop. The farmers have undoubtedly been keeping back wheat under an agreement among themselves. It does not seem a profitable operation for them. Exports from the Atlantic ports for the two weeks of September have been 2,417.872 bushels (flour included) against 5,310,926 bushels last year. The price declined sharply, about : cents per bushel, with little indication of recovery. The price of corn has also yielded with a strong prospect of the largest crop ever grown, and at 38 cents at New York a large proportion of the crop will be of little profit to

Bold Plans to Escape From the Carrollton Jail Miscarry.

CORROLLTON, Mo., Sept. 12.-Soon after the jury in the second trial of the Taylor brothers rendered a verdict of guilty of murder and Judge Rucker sentenced them to be hanged October 4. the two manifested a friendliness for Night Watchman Brown of the county jail and as soon as they felt sure that he was their friend they offered him a liberal sum of money to assist them in "breaking" out of jail.

Brown listened to the proposition and then gave it in detail to Sheriff Stanley, who instructed him to encourage the Taylors and hear all their plans.

Brown met the Taylor brothers the next night and assured them that he could and would fix it so that they could escape, but that as it would throw suspicion upon him and the condemned murderers to be seen conversing together, it would be advisable to conduct further negotiations in writing. They accepted the advice and as the letters were received by Brown they were submitted by him to Sheriff Stanley, who, of course, knew what replies were sent to the Taylors. Extra guards will now be put in the jail.

GRAND JUNCTION, Col., Sept. 1 .-Just after the engineer of passenger train No. 1, which left this city last night on the Rio Grande Western road, reached Crevasse, about twenty-three miles west of here, he found that the engine had been run on a siding and was pulling only the mail and baggage car, the rear portion of the train having been cut off at the station. Then two robbere, each of medium size and masked, appeared, but finding that they had left the express car with the train, mounted horses that were in waiting and skipped for the mountains.

The first news of the hold-up was a lispatch from Superintendent A. E. McKee of the Rio Grande Western railroad to Sheriff Innes: "Call on agent of Rio Grande Western at your city if you need a car to take you and your deputies to Crevasse or other points.

Sheriff Innes and posse started at once on a special train for the scene of the attempted robbery. So far as known the robbers secured nothing.
