A certain secret order in McCook has ordered a couple of its members in this vicinity not to haul their corn to a certain feeder of this neighborhood. But as he pays the best price and the haul is short and the feeder is a straight and fair as a streak of daylight, he gets the corn just the same. But how is that for America, free and liberty loving America! God save the mark!

CATARRH DESCRIBED.

A SHORT HISTORY OF A BAD MALADY BY AN EMINENT MEDICAL AUTHORITY.

This is the way chronic catarrh usually begins: A person catches cold, which hangs on longer than usual. Then follows a sensitiveness of the air passages, which inclines to catch cold very easily. At last the person has a cold all the while seemingly. More or less discharge from the nose, hawking from the throat, nostrils stopped up, full feeling in the head, and cracking in the ears. The Pe-ru-na treatment for this disease is the only treatment that has withstood the test of time. Pe-ru-na should be taken without interruption until every symptom disappears.

Send to The Pe-ru-na Drug Manufacturing Company of Columbus, Ohio, for a copy of their latest book on chronic catarrh. This book is a complete guide to the cure of all forms and stages of this dreadful disease.
