The Great Northern operates 3,766 miles of track and its operating expenses for the year ending Jan. 30, 1895, were 7,146,462.

The old Hannibal & St. Joe depot at St. Joseph, Mo., was burned, last Sunday, together with eighteen cars of miscellaneous freight.

A telegraph cable up the Amazon river 3,500 miles will be laid to a point 1,365 nautical miles above its mouth, and sixteen stations will be established.

The N. Y. N. H. & H. are building two robber-proof mail cars. They have established ends, and the steps are inaccessible when the car is in motion.

We understand the whiskey trust has absorbed the Columbian distillery at Omaha, owned and operated by Mr. Lawler and Mr. Spearman, formerly of McCook.

The Manhattan Elevated Railroad Co., for the year ending Sept. 30, 1895, carried 188,000,000 passengers. Evidently everybody in New York city travels over this line numerous times during the year.

Lewis Lamora, a Burlington switchman at Leavenworth, Kas., slipped on account of ice on top of the train and fell between the cars they were switching, cutting him in two above the hips.

The flyer on the Santa Fe had a collision with a freight at Shoemaker, N. M., last Monday, killing the engineer and postal clerk and seriously injuring twelve passengers. Using short time caused the accident.

The supreme court of the United States has declared the exclusive right contract between the Union Pacific railroad and the Western Union Telegraph Co., for telegraph service over that system, null and void.

The failure of the engineers to make the new schedule on the fast mail over the Union Pacific is causing trouble. An order is now out that they must make it or go back to freight and let some other good man up that will.

Eugene V. Debs was given an ovation and escorted to Chicago by the A. R. U. upon his release from jail, last Friday. He ought to be muzzled now to prevent the re-occurrence of such a calamity as the late Pullman strike.

A heavy wind, last week, in Wyoming stalled a heavy freight going down grade on the Union Pacific, west of Cheyenne. It had to have a helper to get into town. The zephyr played various pranks and for one day almost tied up the road.

The terrific winds of last week have strewn the shores of our great lakes with wreckage. No sailor business for us, we thank you! We prefer to railroad. When a wreck on the latter occurs, it's easier to walk ten miles than to swim that distance, as in former instance.

The Gulf & Interstate have commenced building in a new locality. This time between Ruthven, Iowa, and Jackson, Minn. We hope the "pops" will finally accomplish the construction of the railroad from Manitoba to the Gulf. The more roads the better. Whoop! Let her go!

Last week, engine 1800 pulling the fast mail, east bound, upon the Union Pacific just east of Grand Island, broke an axle on the middle pair of drivers, while running at the rate of about fifty-six miles per hour. A part of the piston rod crashed through the window of a coach and out of a window on the other side, barely missing two lady passengers. It fell at the feet of four section men who were standing beside the track. When the rod struck the ground the men stood as if petrified for a few seconds and then dropped their tools and ran across the prairie. The fireman was on the deck and thus escaped injury as the side rod demolished the cab on that side.

At a meeting of Osconoxee Council No. 16 on Monday evening last, the following officers were elected for the ensuing year: H. W. Cole, T. J. M.; H. H. Easterday, D. J. M.; E. C. Ballew, P. C. W.; S. L. Green, treas.; S. Cordeal, sec'y; J. A. Wilcox, C. of G.; A. Probst, C. C.; C. W. Bronson, steward; J. R. Roxby, sentinel.

Reports were received here that gold had been discovered near Akron, last week, which assayed about \$4.85 to the ton, free gold, and it caused a great deal of excitement in eastern Colorado and western Nebraska. Further investigation, however, reveals the fact that it was found in the same place where Roadmaster Sam Rogers planted 4 bushels of brass and copper filings about 5 years ago when there was a movement on foot to populate the sand hills around Akron, or at least such is the report THE TRIBUNE correspondent received from the goldfields.

The wife of Mr. Leonard Wells, of East Brimfield, Mass., had been suffering from neuralgia for two days, not being able to sleep or hardly keep still, when Mr. Holden, the merchant there, sent her a bottle of Chamberlain's Pain Balm, and asked that she give it a thorough trial. On meeting Mr. Wells the next day he was told that she was all right, the pain had left her within two hours, and that the bottle of Pain Balm was worth \$5, if it could not be had for less. For sale for 5 cents per bottle by McConnell & Co.

Children Cry for Pitcher's Castoria.
HOW TO PREVENT CROUP.—SOME READINGS THAT WILL PROVE INTERESTING TO YOUNG MOTHERS.—HOW TO GUARD AGAINST THE DISEASE.

Croup is a terror to young mothers and to post them concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. Even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. For sale by McConnell & Co.
