WASHINGTON, April 6.-In the House to-day Mr. Adams of Pennsylvania, of the committee on foreign affairs, was the first speaker on Cuban resolutions. He said that he should have refrained from addressing the House "extraordinary performance of the gentleman from Maine (Mr. Boutelle) yesterday." Referring to the charge that the people were not behind the effort of Congress to grant proper recognition to Cuba, he asserted that Congress had seldom before received so many petitions on any subject as this. He contended that a handful of Senators had taken advantege of the rules of the Senate to prevent the adoption of the conference report by filibustering. The Cubans had an organized form of government and were in every way entitled to recognition. Mr. Knox of Massachusetts was recognized to read a letter from his

colleague, Mr. Draper, a member of the foreign affairs committee, opposspecial military aid to the governor of ing the adoption of the conference report. He said that he differed from Mr. Draper and made a plea for affirmative action. He thought measures should be taken to put an end to the barbarous warfare and that for this country to fail to do this would be to incur the loss of self-respect as well as to deserve the contempt of all foreign nations.

The House then decided to hold a night session for debate on the Cuban resolutions and to vote Monday after the reading of the journal.
