Engineer G. A. Noren has been running down on the St. Francis line.

Conductor Sam Moench is resting up five days, putting in his garden sass and sich like.

The U. S. supreme court has decided in a case from Nevada that railroad lands are taxable.

Conrad Krieger, who had charge of the section at Imperial, has moved here with his family.

Some of the company's telegraph poles were blown down near Bartley, last Friday, during the rain and wind storm.

The company's loss on the Cheyenne branch near Farnam by last Friday's rain storm is placed as high as \$20,000.

C. W. Britt, who has been in the eastern part of the state at the bedside of a sick father, arrived home, Sunday night.

William Fane came down from Sheridan, Wyoming, Tuesday night, to the bedside of his aged and sick mother, who is now, however, improving after a serious illness.

Bridge No. 18 between Hendley and Beaver City was considerably damaged by the heavy rain, close of last week, necessitating sending the pile driver and bridge gang down from here, to repair the same.

Pat O'Brien and family of Goodland, Kansas, are visiting J. H. Bennett and family. He was an oldtime engineer on the Burlington before the strike; and is now running out of Goodland on the Rock Island.

William Fane, who is in the city on a brief visit, reports James Ritchie as improving from his recent attack of rheumatism. He also states that all the boys who went from the Western division to the Wyoming division are getting along famously, some of them having top passenger runs; all of which is pleasant news to the friends here.

The track east of the narrows, where the River canyon empties its flood, was overflowed by the rain of last Friday, and the company sent a hand car ahead of the passenger trains that evening, for precaution and safety. The neighborhood at the mouth of Massacre canyon, west of Perry, was also badly overflowed. While the last two rains have softened up the track somewhat, the main line has escaped damage and traffic has continued as usual, although the branches suffered somewhat.

Two Damage Suits.

The Burlington has two damage suits on hand as a result of a recent ejection of passengers from No. 3.

Amelia Jensen asks \$5,000.00, and alleges that she purchased tickets on February 7 at Houston, Texas, for Indianola, Nebraska; that on Feb. 9th, after leaving Oxford, the conductor took tickets and after stopping train at Bartley ejected her therefrom with her five small children; that she and her children were obliged to sleep on the floor of the depot at Bartley, having been ejected from the train at midnight, and having no money to pay for lodging, and was obliged to depend on charity of strangers for food and conveyance.

Berthena Jensen only asks for \$4,000, alleging same as above, except that she has but one small child.

Their husbands are still in Texas, earning money enough to join them here.

Too Good for Credence.

The medical profession will be a little slow to believe with the Chicago scientists that the X ray will speedily and effectively dispose of the germs of diphtheria and typhoid and that cholera and tuberculosis will probably be compelled to go out of business when treated by the new system in which the Roentgen ray plays an important part. Physicians are quoted as risking their professional reputations upon the complete success of their experiments, but that will not carry conviction. The tale sounds too good to be true.—Journal.
