The Chicago Convention Policies Attacked-Declares That the People Will Not Have Free Trade and Free Silver at 16 to 1, and That Both Will Be Buried at November Election.

CANTON, Ohio, Aug. 21 .- Two thousand farmers, mechanics and other citizens of Newcastle, Elwood and other parts of Lawrence county, Pennsylvathief, Cochran; no trace of him can be to call on Major McKinley. When around about. Then it rained, but bands played, thousands cheered, cannons boomed and steam calliones added their noises. The people stood through the rain for an hour, waved their banners and beat their tin helwant back the good old McKinley times;" "We want the furnaces and factories started, not the rich men's silver mines;" Honest money and a chance to earn it." The presentation was made by ex-Congressman Oscar

L. Jackson. When Major McKinley mounted a chair on his stoop to respond to the sentiments of Colonel Jackson, caliopes, cannon, bands and myraids of human voices repeated their first ovation. He said: "I note with great satisfaction the message which your eloquent spokesman brings to me, that the people of Pennsylvania have lost none of their devotion to the great principles of the Republican party and that this year they will give to the Republican national ticket an unrivaled Republican majority. (Cries of "We will do that all right.") Nor am I surprised, my fellow citizens, that this is so. We have had three years of bitter experience under a policy which the Republican party has always opposed and there has been nothing in that experience to win us to that policy, but everything to increase our devotion to the old policy of protection which stands opposed

'My fellow citizens, the earnest thought of the people this year is directed to the present condition of the country and how best to improve it. This is the thought of every mind and is the prayer of every soul. Nobody is satisfied with our unfortunate business condition and the great body of the people want and mean to have a change. What shall be the change? Shall it be the continuance of the present Democratic party under another leadership-a leadership advocating all the policies of the Democratic party which have been injurious to the American people and rejecting all which are good, wholesome and patriotic, and which have received the approval of the people of the country? The wing of the Democratic party which controlled the Chicago convention is just as much in favor of free trade as the wing of the Democratic party in control of the national administration. Most of those prominent in that convention were conspicuous leaders in the assault upon our industries and labor made by the Fifty-third Congress. They are devoted to this un-American and destructive policy and were chiefly instrumental in putting on the statute books tariff legislation which has destroyed American manufacturing, checked our foreign trade and reduced the demand for the labor of American workingmen. It stands opposed to reciprocity, too, the splendid results of which were so signally manifest during the administration of President Harrison.

"The people of this country have condemned the policies of this party in these particulars in every election since 1892. They are only waiting now for a chance to register again, and all along the line, unitedly their opposition to this free trade heresy in the general election next November. If there was, therefore, but one question-that of protection against free trade - we have it just as sharply drawn and as distinctively presented through the Chicago convention wing of the Democratic party as we had it through the united party in 1892, and a triumph this year for the Chicago platform would be a signal victory for free trade and for the continuance of free trade legislation, which has already resulted so disastrously to the American people and entailed upon the government deficient revenues, upon the people diminished trade abroad and starva-

tion wages at home. "This wing of the Democratic party believes not only in free trade, but it believes in free silver at a ratio of 16 to 1. (Cries of 'Down with free silver.') Having diminished our business they now seek to diminish the value of our money. Having cut wages in two, they want to cut the money in which wages are paid in two, and we will not have either the one or the other. The other wing of the Democratic party is patriotically striving for the public honor and is opposed to free silver because it believes that such a policy would disturb existing values, contract the currency of the country by depriving us of the use of the gold and putting us on a silver basis, thus creating widespread panic and bringing to every American interest serious injury."

BRYAN MAKES DENIAL

THE CHARGES OF SENATOR THURSTON ANSWERED.

The Democratic Nominee Says Ha flas Not at Any Time Been in the Em ... 9 of Silver Mine Owners, or the Bimetallic League Association-His Salary as Editor of the Omaha World-Herald.

Not Employed by SHver Men. UPPER RED HOOK, N. Y., Aug. 2J.-W. J. Bryan last night gave out the following statement regarding the charge that he was in the employ of the silver mine owners:

"I have already denied this charge on several occasions, but the reiteration of it by Senator Thurston, a distinguished resident of my own state, justifies me in answering it again. I have never at any time, or under any circumstances, been in the employ of any mine owners, individually or coilectively, directly or indirectly, nor have I ever been in the employ of, or paid, by any Bimetallic League association.

"Aside from my editorial salary of about \$150 per month paid by the Omaha World-Herald, and a small amount derived from the legal profession, my income since my retirement from Congress has been derived entirely from lectures before Chatauqua, lyceum and lecture bureaus, which have usually paid me a fixed sum, and from contributions made by the people of the localities where I have spoken. In some instances I have received nothing at all. In most cases I have received more than enough to pay traveling expenses. In only two instances, I think, has my compensation exceeded \$100, and in these instances it was about \$200 at one place and about \$300 at the other.

"Having made this answer to Mr. Thurston's letter, I shall hereafter take no notice of individual or newspaper comment on the subject. If the Republican national committee will say officially that I have ever been employed to deliver speeches by any mine owner, a group of mine owners or by any association supported by mine owners, I am ready to make a statement showing in detail all money received by me for speech-

MR. COCKRAN REPLIES.

The Tammany Orator Scores Mr. Bryan's Speech.

NEW YORK, Aug. 20. - The second notable demonstration in the political campaign in New York city was held last night under the auspices of the Democratic Honest Money League of America, in Madison Square garden, where Hon. W. Bourke Cockran addressed an immense audience with a speech entitled, "In Opposition to

Repudiation." Mr. Cockran had been selected to answer Candidate Bryan's speech because of his opposition to the Chicago platform, and because of the reputation as an orator which he had earned by his participation in the tariff debates of two congresses, and by his famous protest against the nomination of Mr. Cleveland, delivered at daybreak in the convention of four years

Eighteen thousand seats had been placed in the garden, and all of them were filled when Mr. Cockran advanced to the front of the platform and was greeted by a tremendous cheers, men climbing upon their chairs and waving little American flags which had been strewn through the hall. Three hearty cheers were given for McKinley, and there were hisses when a gallery god yelled, "What's the matter with Bryan?"

Mr. Cockran arraigned the Chicago convention, the platform and Mr. Bryan's speech in unmeasured language. He declared that the Democratic party had been led into the Populist camp and that it was the duty of true Democrats to balk. He scored the income tax plank of the Chicago platform and called the supreme court criticism treason. Concluding he said:

"Stripped of all verbal disguise, it is an issue of common honesty, an issue between the honest discharge and the dishonest repudiation of public and private obligations.

"This is a conspiracy between proessional farmers, who want to pay low wages, and the unreconciled slaveholder, who would like to pay no wages at all. Here is the real root of this conspiracy. Mr. Bryan did not create it. No man can create a movement like this. The forces that have created it are active and have been working in a thousand different directions. Mr. Bryan, representing this theory, is but like a drop of water on the crest of the wave, more conspicueus, but no more important than the millions of drops that forms its base. The Populistic movement is the attempt of these professional farmers, of these men who are unwilling to share with the laborer, to appeal to their greed. They are an enemy to public order; they are an obstacle to progress; they are conspirators against the peace and prosperity
