COMBINATION FENCE

AS A

PORTABLE, TEMPORARY CORNCRIB

IS UNRIVALLED BY ITS MARVELOUS CHEAPNESS.

No Farmer can afford to be without it

Made from No. 1 Yellow Pine 3/4 in. thick and 1 1/2 in. wide, 4 ft. long, all being bound together by machinery, by 5 double strands of No. 12 1/2 galvanized steel wire, and put up in rolls of five rods each. After filling up a crib 4 ft. high, place another length of 4 ft. on top of same, as shown in cut above. Thus we will have 10 cables of No. 12 1/2 galvanized steel wire holding together solidly our crib.

Capacity, 500 bushels; diameter, 12 feet; height, 8 feet; price, \$3.75. Temporary corncribs do not necessarily require a board floor, except a little hay, straw or fodder, just sufficient to keep the corn from coming into actual contact with Mother Earth, and high enough to prevent flooding in case of rain. Select a patch of high, level ground on which to place the crib, and wire the end slats together. When filled, place another length on top of this as shown in cut above. When the crib is filled we advise to cover the top with hay or straw, shaped the same as a hay stack. Lots of people erect the crib right in the cornfield, filling them as fast as corn is gathered, where it may remain until the less busy season of the winter months, when it can be shelled right at the crib and hauled to the granary or market as desired.

Phelan left, Wednesday night, for Lincoln and Omaha. While gone they expect to visit Mrs. Rumer's mother at Fairfield, Iowa, and Miss Clare Phelan at St. Joseph, Mo. They may also visit in McCook and Denver.—Alliance Grip. A special dispatch from Des Moines, Iowa, states that the Iowa railroad commissioners were in session having been called together in part to consider complaints of lack of cars, which have been coming from all parts of the state for two weeks. The recent boom in grain prices has caused a greater demand than ever, and the shippers all over the state are importuning the roads to give more cars. The commission has been for a fortnight trying to impress on the roads the necessity for giving better service, but the roads declare that their utmost efforts will not begin to meet the demand. They assure the commission that they are neglecting other business and sending thousands of empty cars into the state daily.

Mr. and Mrs. Simmerman Sundayed in McCook at Wm. Sinchell's.

Mrs. Wm Sharp has been sick for a week, but is much better now.

Mr. Valentine is to address the people at Coleman on Saturday evening, October 31st.

If we are correctly informed, Dr. Harlan has rented his place and will go to Maywood to reside.

Henry Stryker, formerly of this place, was united in wedlock's holy bonds, Tuesday noon, October 20th, to Rena B. Smith, at Newark, Wisconsin.

What if McCook should lose one of its fair daughters and what if said daughter should become chief cook and mistress of a Nebraska brick mansion in our precinct.

We hear of the destructive wolves from east, west, north and south, but we do not see any of the beasts. We will not brag, however, for we are liable to their visits any time.

The Pops did not pop worth a cent at the Coleman school house, last Thursday night. 4 Pops and 3 Republicans constituted the audience. No speaker arrived, so they had a little visit and then went home.

Rev. Vivian is back on his old charge, where he is highly esteemed. I suppose we were mistaken in saying he was at conference. But the mistakes of our life are many, it comes to us more and more. And when McKinley's elected, perhaps our mistakes will be o'er.

"This lovely land, this glorious land" was never intended for a wilderness. When its true merits are understood there will be a happy and prosperous people. O for one with the pen of an angel or the tongue of a Valentine to start the people aright whereby the true worth of the country may be known and developed.

A. F. Moore and H. H. Berry let their lights shine on Republicanism at the Coleman school house on the evening of the 19th. Mr. Berry was to have been the main speaker, but preferred to listen instead of being heard. Mr. Moore made the principal address and was followed by Mr. Berry. The speeches were to the point, as most people know.

Our neighbors were over to the Doran school house, last Friday night, and heard Mr. Valentine's lecture. They think they were right royally entertained and were quite jubilant over it. They join us as do also some others in wishing the Professor's speeches put in substantial pamphlet or book form so each can obtain them for the worth that is in them and as a souvenir of Mr. Valentine.

For what is the southwestern part of Frontier county noted? It is noted for being the birthplace of several pairs of twins. A pair was added to the list on or about the 7th of October. Mrs. Beach presented the professor with a pair, a boy and a girl. The school went on without a ripple and the pupils were unaware for some days that they were being instructed by one whose bosom was overflowing with such unbounded bliss and undying fame.
