Farmers' Course at the State Culversity. issued a very attractive pamphlet descriptive of the school of agriculture, which every farmer should send for. This course in Agriculture is altogether the most complete, practical and com- kept in it. mon sense thing of the kind that has ever come under our observation. It is something that no farmer's boy or girl of any ambition can afford to miss. The people in charge of the school realize the fact that most farmers' sons and daughters cannot afford the time and money required in the preparation for and completion of a regular course, but that in farming as in any other business education and training pay.

Keeping this in view, they have prepared a short, practical course of three months, beginning Dec. 29, 1896, and ending March 19, 1897. It provides for the following studies: Soil tillage, diseases of farm animals, stock breeding and judging, feeding cattle and hogs, farm dairying, fruit raising and vegetable gardening, carpentry and blacksmithing, domestic economy, etc.

An explanation given in the circular of the manner in which the instruction is given shows that the student obtains much of it by actual practice and observation. Not that he will be expected to do the work of the farm with which he is already familiar, but such operations as judging stock, milk testing, improved methods of butter-making, tree grafting, treating sick ani

CHICAGO, Nov. 2.—Chairman Hanna to-day issued the following signed statement:

as Doubtful States.

"I am confident that the strength of McKinley and Hobart in the electoral college, as a result of next Tuesday's election, will not be less than 311 votes. This estimate is made upon figures just received from chairmen of state committees, the result of final polls taken in such a careful manner as to give them the highest credence. These polls indicate that the vote by states will be as follows:

The Prince's Newspaper Organ Returns to the Attack.

Berlin, Nov. .- Prince Bismarck apparently is not alarmed by the threats to prosecute him, for his organ the Hamburger Nachrichten, to-day replied to the broadside of the officia; Reichs Anzeiger of Tuesday, which intimated that the fate which overtook Count von Arnim might await those who disclosed secrets of state. The Nachrichten says: "The negotiations of those days (of Bismarck's tenure of office) were no strict state of secrets, but belonged to history. There is no necessity for secreey so far as Germany and the dreibund is concerned, as the treaty was made solely in compliance with Russia's wish and Germany had nothing to be ashamed of. On the contrary, all peace-loving Germans have just satisfaction. It is totally untrue that the treaty implied disloyalty to the dreibund. The latter even allowed Austria to be neutral in the event of a French attack upon Germany or an unprovoked German attack on Russia. The whole dreibund could incorporate in it if Russia was willing and conclude the same argument without abandoning its main purpose. This would tranquilize all the friends of peace, and if there is any inclination on the part of Russia it would be expedient to re-

new the Russo-German treaty. The Hamburger Nachrichten then takes the Reich's Anzeiger to task for saving of its announcement of the existence of the Russo-German treaty that "It will neither correct what is false nor supplying what is incomplete," saying: "The statement made is not false, as declared by the Reich's Anzeiger, and the latter can only supplement what it declares to be incomplete by publishing the whole treaty. Under these circumstances the Hamburger Nachrichten considers itself entitled to demand a public ratification. as required by the press law, of the Reich's Anzeiger's assertion.

English Wheels Not Wanted.

Washington, Nov. 2.—According to reports from United States Consul Parker at Birmingham the trade of that place with the United States in bicycle materials is steadily declining and promises to terminate altogether in a short time. As for the complete bicycles, the trade with the United States has completely stopped. Not one was shipped this year. On the other hand some American machines were sold in Birmingham, and the consul thinks the sales may be extended if the prices are slightly lowered.

St. Joseph Silver Men Stop Speakers St. Joseph, Mo., Nov. 2. - When one of the special trains traveling through the West distributing gold standard literature stopped here at noon to-day hundreds of silver men surrounded it and trouble was threatened when the visitors referred to Missouri as "the home of Jesse James." No attempt was made to deliver addresses after that and after a short stay the train left for Council Bluffs.

Game in the Yellowstowne.

LIVINGSTON, Mont., Nov. 2. - All kinds of game except buffalo, is multiplying rapidly in the Yellowstone national park. There are thousands of deer, elk and antelope. During the past season herds of elk numbering from 200 to 400 have been seen at various times, and the deer are fully as plentiful. Bears are getting too numerous, and steps must be taken to soon rid the park of them.

A Huntress Kills Her Husband.

Vandalia, Ill., Nov. 2.-Near Hagerstown, this county, Edward Armstrong and his wife, who is a good markswoman, went out to shoot quail. Mrs. Armstrong was in a corn field and could not see her husband, who was on the other side of the fence. She fired at a covey of birds and the charge struck her husband in the back of the head and killed him almost instantly.

WATSON'S

Chairman Butler Has the Letter, but

Refuses to Give It Out. WASHINGTON, Oct. 29. - Senator Butler, chairman of the Populist national committee, before leaving here for Indiana, authorized the publication of the following signed statement concerning Watson's letter of acceptance:

"Mr. Watson's letter was received Saturday night. It had been detained in the postoffice for want of sufficient postage, and I had not been notified by the postoffice authorities. Of course, I expected Mr. Watson to give his letter to the public in the usual way, as soon as he had it ready. Mr. Washburne went to Nashville, Tenn., on last Saturday for a conference with Mr. Watson. I wired Mr. Washburne, who had just returned from Nash ville, where he had a second conference with Mr. Watson, that the letter had been received. Washburne wired me in reply, asking me not to publish the letter at present. In the meantime, I have written to Mr. Watson, urging the advisability of making at least one important change in his letter. If he authorizes this change, I will give out the letter. Otherwise, he must take the responsibility of publishing it himself."

ACCEPTANCE. A REMARKABLE CASE.

SINCE GIRLHOOD, NOW A PICTURE OF HEALTH.

From the Star, Valparaiso, Ind. The attention of the Star having been called to several cases of radical cures effected by Dr. Williams' Pink Pills for Pale People, it was determined to investigate some of the more notable of these cases, with a view to disseminating exact information on the subject and benefiting others who were suffering. Prominent among those who had experienced benefits from the use of this remedy was mentioned Mrs. Mary Noren, wife of John Noren, a prosperous farmer, living northeast of Valparaiso, Ind., and to her a reporter was accordingly dispatched.

Mrs. Noren was found busily engaged in household duties, but she found time to detail her experience, and was willing and even anxious that the benefits she had felt should be told for the benefit of those who had suffered as she did. "I had been ill since girlhood with a

complication of complaints," said Mrs. Noren, "never so much as to be confined long in bed, but I suffered intense misery. My chief trouble was with my stomach. I felt a constant gnawing pain that was at times almost distracting, and which had been diagnosed by different physicians as dyspensia and sympathetic derangement dependent on the condition of the generative organs. I had pains in the back, sometimes so great as to make me unable to work, and frequent bilious attacks. I alsosuffered greatly from constipation, from. which I never could find permanent relief. Then these symptoms were agravated by rheumatic pains between theshoulder blades, which were most excruciating in damp or cold weather. After my marriage about five years ago, and when my baby was born the trouble seemed to increase, and I was frequently so sick that I could not domy household work. I tried different physicians and used numerous remedies but all in vain, uztil one day last fall I happened to read of Dr. Williams Pink Pills for Pale People. My husband got three boxes from Mr. C. D. Rushton, the druggist, and I began to use them. From the first I began to feel relief, and before the three boxes were gone I was nearly well. The constination was cured and the other troubles were so much relieved that I feit better than I had felt for years. As I continued in the use of the pills I grew better and strong, my appetite was more natural, and my flesh increased, until I am in the condition you see me now.

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness tothe blood and restore shattered nerves. Pink Pills are sold by all dealers, or will be sent postpaid on receipt of price, 50 cents a box, or six boxes for \$2.50 (they are never sold in bulk or by the 100,) by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

Texas.

In the agricultural line, Texas leads all other states in the variety of its products. Cotton, corn, and the cereals grow and are raised in every section of the state and in the central and southern portions sugar cane and sorghum cane are profitably cultivated. On the Gulf Coast two or three crops of vegetables are raised each year. Berries. are shipped six weeks in advance of the home crop in the north. Pears, peaches, plums, oranges, figs, olives, and nuts all grow abundantly and ean be marketed from two to three weeks in advance of the California crops. Large quantities of rice are now grown.

If the land sceker, the home seeker, and the settler desires to secure a farm larger than the one he occupies, on vastly more reasonable terms: if he wants more land to cultivate, a greater variety of crops to harvest, with proportionately increased remuneration, at a less outlay for cost of production; if he wants an earlier season, with correspondingly higher prices; if he wants milder winter, all the year pasturage for his stock, improved health, increased bodily comforts and wealth

and prosperity he should go to Texas. Send for pamphlet descriptive of the resources of this great state mailed free). Buckwheat for Cleaning.

No matter how large the spot of oil, any carpet or woolen stuff can be cleansed by applying buckwheat plentifully, brushing it into a dustpan after a short time, and putting on fresh until the oil has disappeared.

For Free Distribution.

The Cotton Belt Route has had published a series of attractive pamphlets. beautifully illustrated, which set forth in a clear and concise manner the wonderful resources of the States of Arkansas, Louislana and Texas, commonly known as "The Great South-west.

The information contained in these pamphlets is thoroughly reliable, being compiled from the best source, and each one is complete in itself. Much interest is being taken in them, and the general good they are doing in upbuilding the country traversed by the Cotton Belt Route is commendable. The pamphlets are entitled "Homes

in the South-west." "Texas," "Truth About Arkansas," "Glimpses of Southeast Missouri, Arkansas and Louisiana," "Lands for Sale Along the Cotton Belt Route." These books are for free distribution and will be cheerfully sent to any ad-

In all lives there is a crisis in the formation of character. It comes from many causes, and from some robberies is in jail in the person of Pat which on the surface are apparently trivial, but the result is the same-a sudden revelation to ourselves of our secret purposes, and a recognition of as well as a let of jewelry that he had our perhaps long shadowed but now masterful convictions.
