Talmage's Sermon.

Washington, D. C., Nov. 29, 1896 .--Considering the time and place of its delivery, this sermon of Dr. Talmage is of absorbing and startling interest. It is not only national, but international in its significance. His subject was "The Dying Century," and the text, 2. Kings 20:1: "Thus saith the Lord, Set thine house in order; for thou si ' die, and not live."

No alarm bell do I ring in the utterance of this text, for in the healthy glow of your countenances I find cause only for cheerful prophecy; but I shall apply the text as spoken in the ear of Hezekiah, down with a bad more long breaths, each year a breath. and the century will expire. My theme is The Dying Century.

Eternity is too big a subject for us to understand. Some one has said it is a great clock, that says "Tick" in one century, and "Tack" in another. But we can better understand Old Time, who has many children, and they are the centuries, and many grandchildren, and they are the years. With the dying Nineteenth Century we shall this morning have a plain talk, telling him some of the good things he has done, and then telling him some of the things he ought to adjust before he quits this sphere and passes out to join the eternities. We generally wait until people are dead before we say much in praise of them. Funeral eulogium is generally very pathetic and cloquent with things that ought to have been said years before. We put on cold tombstones what we ought to have put in the warm ears of the living. We curse Charles Sumner while he is living, and cudgel him into spinal meningitis, and wait until, in the rooms where I have been living the last year, he puts his hand on his heart and cries "Oh!" and is gone, and then Doctor Sunderland, chaplain of the American senate, accompanying; stopping long enough to allow the dead senator to lie in state in Independence ton State Heuse, where not long before, damnatory resolutions had been. passed in regard to him, and then move on, amid the tolling bells and the boom of minute-guns, until we bury him at Mount Auburn and cover him with flowers five feet deep. What a pity he could not have been awake at his own funeral, to hear the gratitude of the nation! What a pity that What a pity that out of the great choirs | churches and missionary stations. Serwho chanted at his obsequies one little | mons and religious intelligence which girl, dressed in white, might not have solo! The post-mortem expression con- paragraph of three or four lines, now tradicted the ante-mortem. The nation | find the columns of the secular press times about Charles Sumner. across this continent and from ocean to ocean; a billow of revival joy in 1857, and a billow of blood in 1864. I havfie seen four generations of the huand their graves dug. I have heard the near a hundred years. I have clapped my hands for millions of joys and wrung them in millions of agonies. I saw Macready and Edwin Forrest act. and Edward Payson pray. I heard the first chime of Longfellow's rhythms, read the first line of Bancroft's History, and the first verse of Bryant's 'Thanatopsis,' and the first word of Victor Hugo's almost supernatural romance. I heard the music of all the grand marches and the lament of all the requiems that for nigh ten decades made the cathedral windows shake. I have seen more moral and spiritual victories than all of my predecessors put together. For all you who hear or read this valedictory I have kindled all the domestic firesides by which you ever sat, and roused all the halloos sick man, after a great deal of entreaty. have ever heard, and unrolled all the pictured sunsets and starry banners of the midnight heavens that you have ever gazed at. But ere I go, take this dignity and composure. The servant admonition and benediction of a Dying Century. The longest life, like mine, must close: Opportunities gone never come back, as I could prove from nigh a hundred years of observation: The eternity that will soon take me will bald then takes a piece of paper, writes soon take you: The wicked live not out | on it a few mysterious words, orders a half their days, as I have seen in ten simple diet of lentil coup, gives the thousand instances: The only influence for making the world happy is an influence that I, the Nineteenth | five minutes at the hookah, leaves the Century, inherited from the first century of the Christian era-the Christ | and departs without giving any further of all the centuries. Be not deceived instruction. The patient may get betby the fact that I have lived so long, for a century is a large wheel that turns a hundred smaller wheels, which are the years and each one of those years turns three hundred and sixtyfive smaller wheels, which are the days; and each one of the three hundred and sixty-five days turns twentyfour smaller wheels, which are the hours; and each one of those twenty-four hours turns sixty smaller wheels, which are the minutes; and those sixty minutes turn still smaller wheels, which are the seconds. And

HINDOO DOCTORS. And Their Peculiar Method of Treating the Sick. The doctor in India, or the "bald," as he is called, is not like the physician of any other country, says an exchange. He is a peculiar genius who acts in a peculiar way. If a well-to-do Hindoo merchant becomes ill with fever he usually fasts three or four days, scarcely even touching water standing by his bed. His relatives become alarmed, but the merchant refuses to have the baid called, in the hope that two or three more days of fasting will cure him. A gray-haired neighbor counsels the sick man not to take any drugs at this stage. Let the fever run as high as it can is the advice given, and further fasting should be indulged in. The fasting does not seem to do the patient any good, so the doctor is finally called. The bald has a reputation as a first-class physician. The family believes that if any man can snatch a tick man from the grasp of death it is the bald. This man of medicine is convinced that all European doctors are but a farce. He will admit their superiority in surgery; but then, in his belief, surgery is not the function of a learned doctor. The brothers of a manage to get the bald to accompany them. Arriving at the patient's house he enters the sick man's room and sits beside him with a great deal of offers him the "hookah" (a smoking apparatus similar to that used by the Turks.) About ten minutes spent in smoking, he feels the patient's pulse and finds he has a very high fever. The sick man two small black pills to swallow, takes another pull of about mysterious prescription behind him ter or possibly he may die, most likely the latter. The Indian doctor finds his profession a sorry one. The highest fee for the complete cure of a rich man is about \$10. Some of the balds, however, have been known to effect wonderful cures, where the best European doctors have completely failed. A case is recorded of a European afflicted with asthma, who derived but little benefit from the treatment of his own countrymen. When his case had been pronounced hopeless by the best English physicians a Hindoo doctor gave him a few black pills, which brought about a complete cure in a very short time. The European offered a fabulous price for the secret remedy, but the old bald | put your face in the water with your

One of the curious superstitions | ways built for the entrance to Westwhich has come down from the mid- moreland place, equally effective; in dle ages is that wine grown in "comet | equally good taste. -years," or years which were signalized by the appearance of comets of unusual size, possessed a more exquisite bouquet than wines of other years. There is no good reason that the idea has a more substantial basis than popular superstition, but it is certain that the belief is sufficiently potent to influence the market. The wines of 1811, 1825, 1839, 1845, 1858, 1861 and 1882, which were all comet years, are said by a competent authority to command a higher price than the vintage of other years.

refused all offers. The bald will never reveal the secret of his remedies, for it would cost him his caste, and caste in India is all in all.

GATEWAYS FOR STREETS.

Noble and Stately Structures That Add to the Beauty of St. Louis.

A new idea is being exploited in St. Louis. It is nothing less than the stone or brick, suggesting to some extent the gate lodge of a great estate. It is known in Paris, where the stately Rue Monceau is entered through an iron gateway of some pretensions to monumental character. London can the sense of dignity and privacy which they conveyed, the distinction which they imparted to the entire neighborhood. Here in America, says the New York Tribune, that distinction has seemed beyond us, chiefly because of lack of space. It requires a wide thoroughfare to begin with.. To shut up the ends of a narrow street would be absurd, spoiling the horizon and creating a cramped look, where one of

breadth is to be desired. For, given a wide street, nothing more monumental than a big gateway at the end can be imagined. It joins the two sides; it gives them unity; it makes a whole that has an architectural importance and even grandeur which nothing else will secure. What is especially interesting in the

St. Louis experiment is that it creates at points where ordinarily we would look for no art whatever little centers of artistic attractiveness. That is a most refined and stately screen of base. columns and copings which the architects have erected at the west entrance to Vandeventer place, and the gate-

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts-gentle efforts-pleasant effortsrightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs. promptly removes. That is why it is the only remedy with millions of families, and i everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by

all reputable druggists. If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Snawley feels, who used to be only "night watchman" at a swimming school, since somebody called him "night commander of the bath."
