This week's horoscopes are as follows:

X. Y. Z., Crete, Neb.

You are a mixture of the signs Aries, which Mars rules, and Taurus, which Venus rules, and therefore Mars and Venus are your ruling planets. You are medium height or above; medium to light complexion; the eyes have a peculiar sparkle and sharp sight and are of a medium to light color. You are very active and energetic and quite ambitious to push business; yet, if this time is correct, you have no constitution that will allow you to carry out your ambitions, and your worst ailments will be in some way connected with your head. You have a great love for the beautiful in art and nature; you are possessed with a great ability to talk, write and work fine embroidery and paint; you have natural ability in some of the fine arts. However, only those that know you well will fully appreciate you, and the first half of life will be uphill work, the last half will be some better. Marriage is unfortunate for you.

NOMINATED. The Usual Conflict Arises as to the Duties on Silver Lead Ores. WASHINGTON, Jan. 11. - The House MISSOURI'S SENATOR THE

committee on ways and means reached the metal schedule to-day. The first speaker before the committee was Representative Draper of Massachusetts. In behalf of the machinery manufacturers of New England he advocated the restoration of the McKinley rates. W. H. Alexander of the Grant Smelting company of Omaha spoke for lower rates on lead ore, asking a provision that the lead in all metals containing lead ore be dutiable at three-fourths of a cent a pound. The importation of lead ore was necessary for smelting, he held, and under an erroneous interpretation of the present law it paid as high rates as five and five and one-half cents a pound. Duties of one and onequarter cents on lead bullion and one and three-eights cents on pig lead were asked. American capital was invested in Mexico and British Columbia for producing the ores.

PLEAS FOR METAL DUTIES.

John D. Davis of California asked for a duty of one cent a pound on lead

Dwight A. Jones of New York, representing the St. Joseph Lead company of Missouri, spoke for protection, which would enable Americans to conserve their lead supply and prevent the abandonment of mines. The bonding system enabled the Mexican ores to affect the American market injuriously. Under the Wilson law they controlled the market.

Representative Herrmann of Oregon recommended a duty of ten cents a pound on nickel.

A Thirteen-Year-Old Child Paralyzed.

It Was Caused By a Nervous Affection, and Rendered One Arm Lifeless.

(From the Times, Paola, Kansas

A happy family is that of Mr. James McKinney, of Hills fale, Kansas, on whom a Times reporter recently called. His business with these people was to learn the facts for his paper of the cure of their 13 year old daughter from a case of nervous prostration, and the facts were learned from Mrs. McKinney herself, who quickly told the following story:

"The first perceptible result of her extreme nervousness was apparent in a halting step of the child in her right limb," said the mother, "and a physician was called in to attend her. No apparent change coming, another doctor was called to attend her She continued to grow worse, although we thought the doctors helped her, until she lost the use entirely of her right arm, which hung listless, and apparently lifeless by her side.'

"The physicians finally told us," continued Mrs. McKinney, "that Mary would outgrow it in time, but by accident my husband picked up a circular in his shop, which so highly recommended Dr. Williams' Pink Pills for Pale People, that we concluded to try them. Mr. McKinney procured a box at Grimes' drug store in Paola, and we began by giving Mary a half pill at a time, and gradually increasing to one pill at a time, and before we had used one box we could see they were doing her good. This was one year ago. She had been suffering at that time for four years, under the doctors, and we were so encouraged over the good effects of the use of Dr Williams' Pink Pills that we continued to use them and the child started to school again and has been able to attend school ever since, gradually getting stronger and in better health all the time as you now see her, and we don't notice the old trouble any more.

"Yes, we are always ready and willing to recommend Dr. Williams' Pink Pills, and do so all the time to our friends," replied Mrs. McKinney to our question; and con-tinuing, she said: "We do not know what the doctors called Mary's affliction, but we took it to be something like paralysis or St. Vitus' dance, and we became very much alarmed about her.

"Our local physician," she says, "now tells us that Dr. Williams' Pink Pilis are as rood a thing as we could use; and while Mary is apparently well, she has occasional attacks of nervous headache, and then she says: 'Mamma, I must take another Pink Pill.' so you see she has great faith in them. but does not like to have us talk about her late affliction.

Mr. McKinney is as much or more enthusiastic over the great benefit done his daughter through the use of these pills. He said: "Nothing too good can be said by me of Dr. Williams' Pink Pills-they are a great medicine."

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, over-work or excesses of whatever nature. Pink Pills are sold in boxes (never in loose bulk) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Company, Schenectady, N. Y.

Data proclaim you a mixture of the signs Libra, which Venus rules, and Scopio, which Mars rules, and, therefore, Venus and Mars are your ruling planets. You are medium height; wellset figure; medium complexion; hazel eyes; hair was flaxen when young, but has been getting some darker as you have grown older. If you had been born a few minutes earlier there would be indications of a dimple in your chin. You are endowed with the indications of both the gentle, confiding, modest Venus; also the bold, aggressive, refractory, warlike Mars, and you will act in accordance with whichever one of these happens to be called forth. You are fond of anything that relates to chemistry and mystery; also the beautiful in art, such as music, painting, drawing, sketching, etc. You need some special instructions or you will get rid of all the money you can make and have nothing left to show for it. Marriage fortunate.

"Mrs. Helena." Cairo.

According to data, the sign Sagittarius, which Jupiter rules, was rising at your birth, and, therefore, Jupiter is your ruling planet or significator. You are medium height or above, with a well-set figure. The complexion very clear and healthy; the hair medium to light; eyes light; you are noted for being of a cheerful, happy disposition; you do not allow anything like the blues to come near you; you are also noted for being fully appreciated by all, and you can secure and hold a good position at any time you wish; you have had a very eventful life and have been a great traveler, and the last half of life has been the most fortunate; you can always command a good salary if you wish, and will make and handle large sums of money during your life. yet will meet with many losses. You are a great lover of horses. You have great ambition for a large business. You have a remarkably strong constitution.

Helen, Dubuque, Iowa.

You have the zodiacal sign Libra rising, and therefore Venus is your ruling planet. You are medium height or above; slender figure; medium to light complexion, hair and eyes. If born icar minutes earlier you have Uranus also for ruling planet, and that would denote a little darker shade to the eves. You are cheerful and happy most of the time, yet will be subject to short spells of the blues, and if anyone does you an injury you are not apt to forget it very soon; yet you will forgive them and be very just to them if you had any dealings with them, for you are a lover of justice, and have also a great admiration for the fine arts. You will have very strong intuitions at times, yet this will only be spasmodic in its actions. Marriage will be more than average fortunate for you.

nominated him, addressed the legislators. He said in part:

"To adequately express my thanks to you, my friends, would bankrupt my command of language. I am not vain enough to suppose this is a personal tribute. It is a recognition of the great principles for which we are fighting.

"There has never been, in the history of the country, a crisis more emphatic than the one now. Not even during the civil war was there a greater tension and strain on the spirits of our institutions. All the burdens and the benefits of our country must be equally distributed. There should be no class legislation, where the few are enriched at the expense of many.

"There is to-day a most sublime opportunity to make an adaptation of this great truth. Within our shores there is a strife for self-government. We are told now, under a Democratic administration, so-called (applause), that the people of Cuba shall not be declared free, because they have fighting bands, not dignified by the name of armies. If France had acted in that way, we to-day would be a British province and I would be a subject of a queen. Are we to forget the people of Cuba, who are imitating us? For myself. I propose to give all the influence I can command for the recognition of Cuba" (Applause). Senator Vest then speke at some

length upon the money question, while the free silver enthusiasts shouted their approval. He foretold double standard victory in 1900.

"I stand to-night for the last time," he said, "receiving an office at the hands of my countrymen. I realize that the time will soon come when we older ones will have to stand aside for younger blood. In this hall, surrounded by the memory of dead friends, I can tell nothing but the truth. When I have discharged all the duties that the present legislature has placed upon me. I shall have done my duty. · I know of no assurance for the future but to point to my career in the past. When the shadows have gathered. my prayer is that my last lingering glance shall be upon a country great, united, eternal in its free institutions, and, in the great galaxy, the star that shines most brightly is our great Missouri." (Applause.) The caucus adjourned at 10:20 p. m
