THE United States supreme court has postponed handing down its decision in the Nebraska maximum rate case until October, much to the disappointment of many Nebraskans. IF it was the corporations who made Pingree governor for the purpose of getting rid of him as mayor of Detroit, as has been hinted, they must be heartily sick of the job by this time. But it is probable that the corporations only flatter themselves when they take the credit for Governor Pingree's promotion. The people of Michigan seem to have had something to say in that matter.—Omaha Bee.

SECRETARY OF AGRICULTURE WILSON says the system of making weather forecasts by means of kite observations has been perfected to such a degree that during the coming year he expects to locate twenty or thirty stations equi-distant in the region between the Alleghanies and the Rocky mountains. From the daily readings of these kite stations the chief of the weather service will be able to construct a chart of the condition of the atmosphere at an elevation of one mile throughout a stratum 2,000 miles in width, which will so strengthen the forecast work as to render it of utility to the industrial and commercial interests of the country.—Omaha Bee.

For some reason or other farmers seem to complain more than any other class of people. No matter what their may be, grumble they will, quarrel and seap and fight about one thing or another. It's generally understood that everything, especially of late years, is not as it should be, but to look gloomy and cass and discuss matters upon the street corners, as many farmers do, is a bad habit and shows an improper bringing up and lack of interest in home affairs.

About Water.

Persons who want to use water at the cemeteries must apply to the city clerk for permission. The charges are, \$2.00 for a lot, \$1.25 for a half lot or burial space. The clerk's receipt must be taken for the sum paid and the receipt given to the sexton, Howe Smith, who will see that all lots are properly watered. The contract with the water works company gives free use of water for two years, after that for a period of five years \$1.50 will be charged extra per lot in addition to the \$2.00, which will be used in paying the salary of the sexton. The sprinkling season will be the same as the lawn sprinkling time, from April 15th to October 15th; and the hours any time during the day except the hours for lawn sprinkling.

The ladies of the cemetery committee request that all barrels be removed from cemetery by the 15th of June. The ladies want it known also that the sprinkling of lots must under the contract be done by the sexton and not by individuals.

At the meeting, Monday evening, in the opera house, H. H. Perry, cemetery superintendent, explained the terms and other particulars of the use of water in the cemetery. It is in brief given elsewhere in this issue under the caption, "About Water".

"Weep not for him who sleeps so low Within his narrow bed; While fragrant breezes gently blow, And stars shine overhead.

Weep not for him, no more his eyes Beam on you as you come; In yonder happy world of light, He's near the great white throne.

Weep not for him, no more his feet Tread where he loved so well; He's treading now the golden streets, With angels now he dwells.

Weep not for him, 'twas God who gave And He has all the right To call His loved one through the grave, To be with Him in light.

A little while and then, thou too, Shall leave these scenes of care; Triumphant shall the grave pass through, And with his glory share".

His wife did not approve of Mr. Rowland's purchase at first, but nevertheless applied the Balm thoroughly and in an hour's time was able to go to sleep.
