

THE many admirers and friends of Ex-Congressman W.E. Andrews will be delighted to learn of his recent appointment as auditor for the treasury department, a very comfortable, four-year berth, with a salary of \$3,600 per annum attached.

THE republican senators have happily agreed on the sugar schedule in caucus, the amendment of the finance committee to the Dingley bill being amended and agreed upon. The amendment is calculated to remove the objections urged in some quarters that the Aldrich schedule was too favorable to the sugar refiners.—State Journal.

JUDGE BAKER'S refusal to continue the Bartley case over until the next term of court is highly commended in business circles. There is no reason, in a simple issue of this sort, an issue of fact, that can be decided in short order. For dragging the trial through six months or a year. Since the ex-treasurer has not shown up the money of the state with which he is charged, he should be given the earliest chance possible to locate the cash or take the consequences.—Journal.

THE Omaha World-Herald stops its press to inquire "what grounds a protection party has for levying a tax on tea?" It is a pleasure to answer that it is on grounds of a bonded indebtedness of \$262,000,000 contracted by Grover Cleveland with the assistance of the Wilson-Gorman-Bryan deficiency for-revenue-only act. It is no more nor less than a war tax, to pay the war debt incurred by the crowd that surrendered the industries of the country to "Yurup" and made a wreck of the finances of Uncle Sam. The World-Herald is at liberty to start its press again.—Lincoln Journal.

THE suit of the South Omaha stock yards people to prevent by injunction of the federal court the enforcement of the new state law regulating stock yards and fixing maximum rates of charges for them is stimulated by the success of the railroads in holding up the Nebraska maximum freight rate law. The two cases, however, seem to be altogether different. If the federal court can undertake indiscriminately to stop state laws from going into effect on mere allegation that they reduce the inflated profits of some corporation, the legislative power of our states will be to all intents and purposes abrogated unless its exercise meets the approval of the federal judges.—Omaha Bee.

CANADA is to issue a new series of postage stamps in commemoration of the queen's jubilee which are described as being almost the size and shape of our old Columbian postage stamp and embellished with two portraits of Victoria, one representing her in 1837 and the other in 1897. Canada will be welcome to the exclusive use of these stamps, as after our experience with the Columbian posters patrons of the American postoffice find their present adhesives quite large enough. The double portraits, too, is likely to be confusing to Canadians of convivial habits as conducive to duplex vision. As ornaments to the postage stamp fiend's album the new Canadian issue may be a distinct contribution, but for practical purposes its career does not seem hopeful.—Omaha Bee.

Quarterly meeting at the Coleman school house, last Sunday night. It was not at all like the ones we remember of fifty years ago. Had it not been for the name we would not have had the least suspicion that a quarterly meeting was on hand, Sunday night.

June 5th, 18 years ago to day, we first drove over this town. There was but one family in the township, that of Wm. Proctor. After locating a claim we took the bows from the wagon, set the ends in the ground, stretched the cover on them and moved in. During that summer we saw but five men on this prairie. We hauled water 8 miles. Nearest neighbor was five miles away. The first two and a half years we had but three lady visitors, all in one day. The nearest school was down in the valley, five miles off. A preacher living fifteen miles northeast of Arapahoe drove up once a month and preached to us. The trip made a drive of 140 miles. He drove up in a farm wagon and camped out at nights. When he arrived, he unharnessed and lariatied out his horses on the prairie to eat, while he preached. Such were the good old days of long ago.

A BEAUTIFUL GIRL Barely Escapes a Life-Long Calamity.

It happened in this way: The young daughter of Mrs. E. S. Gibson, Greelyville, South Carolina, was slowly but surely becoming a hopeless invalid. Her mother became anxious and haggard in her frantic efforts to save her daughter. None of her attempts to find a cure seemed of any avail. As stated in her own words: "My daughter was taken sick some time ago and I tried many medicines in vain. She was very weak, appetite poor, bowels costive, and night sweats. She appeared to be cold all the time, being taken with violent chills at times. Her nerves were in a very bad condition. At last I happened to see one of your little books and wrote you. You recommended Pe-ru-na. I gave it to her and she has now completely recovered. I owe all that I am worth in this world to you for saving my daughter's life. I shall always keep a supply of your medicines on hand. May you live long to help those suffering as my daughter was".

Pe-ru-na always cures such cases. Send for free book, written for women only. Address The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

A Heavy Storm.

For the space of over two hours, last night, a severe rain, thunder and lightning storm prevailed in this section. The rain fell in torrents and was accompanied by terrific lightning and thunder, making strong hearts quake and the timid to seek seclusion.

The steeple of the Congregational church was struck and considerably shattered; the damage will amount to about a hundred dollars.

Lightning went into the Episcopal church on the electric light wires, and a number of persons were somewhat stunned, Rev. Russell and Miss Burgess being among the number.

The precipitation as recorded at the Burlington station was 1.80 inches. It was one of the heaviest storms of the year.

The stroke that damaged the Congregational church went out of the church on the electric light wires, which became heavily overcharged played havoc with the electric lights on that entire circuit; and there were similar experiences with electric lights all over the city.

The rains extended from the mountains on east, being lighter east of Cambridge. At Barr, Colorado, the Burlington has a big washout, which will delay trains badly. No. 2 is coming over the U. P. to Cheyenne and then east over Cheyenne branch.

Mr. Isaac Horner, proprietor of the Burton House, Burton, W. V., and one of the most widely known men in the state was cured of rheumatism after three years of suffering. He says: "I have not sufficient command of language to convey any idea of what I suffered, my physicians told me that nothing could be done for me and my friends were fully convinced that nothing but death would relieve me of my suffering. In June, 1894, Mr. Evans, then salesman for the Wheeling Drug Co., recommended Chamberlain's Pain Balm. At this time my foot and limb were swollen to more than double their normal size and it seemed to me my leg would burst, but soon after I began using the Pain Balm the swelling began to decrease, the pain to leave, and now I consider that I am entirely cured."
