

THE Dingley tariff measure is getting along swimmingly.

THE high school law is definitely defunct. The state supreme court has denied a re-hearing of the case upon which its constitutionality was questioned and defeated.

SENATOR HANNA won the race with Senator Foraker and Governor Bushnell in a canter, and Major Charles F. Dick, secretary national committee, will be chairman of the Ohio committee vice Charles L. Kurtz, who has managed the last two campaigns. Hanna is a marker.

THE Washington News Letter of recent date contains a sketch and half-tone of Senator John Mellen Thurston. The sketch refers to the junior senator as a brilliant example of the self-made man, a lawyer of signal ability, and an orator whose utterances are models of eloquence, terseness and comprehensiveness. Nebraskans have little cause to be ashamed of their brainy and energetic junior senator.

"If my life is prolonged," said John Sherman in the closing lines of his "Recollections of forty years," "I will do all I can to add to the strength and prosperity of the United States, but nothing to extend its limits or to add new dangers by an acquisition of foreign territory." The same John Sherman put his signature Wednesday to the treaty for the annexation of Hawaii. Time occasionally brings striking changes in men's moods and opinions, and the period covered by this change is short.—Globe-Democrat.

SETTING over the hearing of the stock yards injunction till next month improves the chances for the new stock yards law being hung up in the federal courts over the time when it should go into effect according to the usual rule. There ought to be some way by which prompt adjudication might be had on matters affecting the enforcement of a law in which so many and great interests are involved, especially when a great corporation appeals to the federal courts to set aside and nullify legislation enacted by the legislative authorities of one of the states in the union.—Omaha Bee.

THE people of this commonwealth may congratulate themselves on the result of the trial of Ex-State Treasurer Joseph S. Bartley for embezzling state funds. The verdict of guilty is not only a righteous one, but this vindication of the law will have a reassuring effect on the people, who have, not without cause, been fearful that an acquittal might be secured through some trivial technicality. There were absolutely no grounds for a legitimate defense, and that put up was trifling. The prosecution was vigorous and able, and the firm rulings of Judge Baker were most helpful in keeping out bewildering and irrelevant testimony and expediting the case. The jury is entitled to the gratitude of the people for the verdict rendered. The result in this case will encourage the people to believe that embezzlement in high places can be punished; and it will serve as a warning for the future. If this lesson be not lost there will be some compensation to the state for the money stolen and the expenses of the prosecution.

The pilgrims of Illinois drove over from McCook, last Saturday day morning, escorted by U. S. Leisure and S. R. Messner, who led them a roundabout way in order to show them the good features of what can be done in the southwest part of Nebraska. Leaving McCook about five o'clock in the morning they were taken across the plains, striking the Beaver creek about half way between here and the Bluffs, then bringing them down through the valley of Eden, showed them the fruits of labor produced by man in the way of improvements, alfalfa fields, corn fields, wheat fields, rye fields, live stock and etc., telling them that these were not done by man alone but by the richness of the soil which nature has produced. Arriving here about 11 o'clock they were greeted at the hotel with an address of welcome by Phillip Gliem, to which they responded, thanking the citizens of Danbury and vicinity for their kind and courteous treatment already received; also expressing themselves that they were well pleased with the country which had been shown them. After dinner they were accompanied to the train, taking with them a few samples of grain and clover that they might show their relatives the progress of success in the west.

THE defense which the attorneys for the defaulting state treasurer of Nebraska will set up is discrepancies in bookkeeping. As there is a shortage of \$500,000, and a specific charge of defalcation to the amount of \$200,000, this defense is, of course, puerile, but no more so than many another set up by the defaulters of today.—Chicago Chronicle.

THE Ohio state convention has resulted harmoniously in the nomination of the following ticket: Governor, Asa S. Bushnell; Lieutenant Governor, A. W. Jones; Supreme Judge, Jacob F. Burkett; Attorney General, Frank Monett; State Treasurer, Samuel Campbell; School Commissioner, L. D. Bonebrake; Member Board of Public Works, C. A. Goddard. The candidacy of Marcus A. Hanna for return to the United States senate was warmly endorsed and a speech by the senator was one of the surprises of the convention, which adjourned with everybody in fine feather.
