

OFFICIAL ABSTRACT OF THE VOTES CAST

RED WILLOW COUNTY, NEBRASKA,

ELECTION, NOVEMBER 2, 1897.

Table with columns for candidates and various offices including Supreme Judges, County Officers, School Directors, and Clerks. Lists names like Alfred M. Post, J. J. Sullivan, and Warren Switzer.

NORTH COLEMAN.

James Campbell raised a fine crop of turnips.

Coal, wood or corn is the fuel used at present.

Miss Della Carothers seems to be giving satisfaction in district 74.

The wolves are a terror in these parts; five and six being seen at a time.

Henry Crothers says that the ground has not been so wet for 9 years.

R. Johnson thinks his pension is in sight and is correspondingly happy.

The mail at Osborn was behind time, Wednesday, on account of the storm.

Road work was being pushed, but is delayed on account of bad weather.

Mrs. Henry Mitchell of McCook recently spent a fortnight with the home folks.

There has been a butter famine, few of the farmers making enough to supply themselves.

The recent heavy rains have put a damper on the fall work. Some are plowing, but others think it too wet.

The sod houses which have done such good service are a poor shelter during a hard storm and should be retired on a pension.

H. Simmerman's Bryan day was well represented by people from this place, and all sorts of opinions are given in regard to his address.

Tuesday the 26th was a good day for the hired men as they had a rest. The schools too were a failure as some had no teachers, some no pupils, some neither.

Frank Carothers took a journey 150 miles south in Kansas. He went overland on a viewing expedition, but will not leave our community just yet, as he is putting in fall grain.

Sorghum, which has been produced so abundantly heretofore, seems to have had its day. None but the Bixler mill running. They just working what they raised themselves.

Rev. Mayfield of Culbertson preached his first sermon at the Coleman school house, Sunday the 17th, and interested the people with his excellent discourse. He is expected to preach there every two weeks at 3 o'clock. Your correspondent sincerely hopes that the people will not be disappointed.

FAIRVIEW.

Butchering seems to be fashionable among the farmers.

Miss Daisy Jackson spent Sunday at Mose Battershall's.

No school in district 47, Tuesday of last week, on account of stormy weather.

Rev. J. E. Tirrill preached at Banksville, Sunday, to a large and attentive audience.

Miss Cora Tirrill returned home on Sunday after spending the week with Mrs. Nelson at Banksville.

A little girl arrived at the home of T. Shield's, Wednesday of last week, and the little brother is very much elated.

A meeting of the Fairview cemetery association, called for last Monday, there not being a quorum, was adjourned to meet on Friday, November 5th, at one o'clock, p.m.

There will be a C. E. box social at the Kennedy school-house, Friday evening, November 12. Every one is invited, and the girls especially to come with well filled boxes.

A. V. Olmstead is residing temporarily on H. I. Peterson's place. Abe says he has all he wants of Arkansas and is here to stay.

HOBBS HEARS GOOD NEWS

FROM THE CROWDS OF PEOPLE WHO OBTAINED A FREE SAMPLE OF HIS PILLS AT

L. W. MCCONNELL & CO.'S DRUG STORE

All Report a Change for the Better and Will Persevere.

JULIUS HOBBS, M. D.

Our fellow townsmen, L. W. McConnell & Co., the Druggists, did not expect so soon to get favorable reports from applicants who procured from them free samples of Dr. Hobbs Spargus Kidney Pills.

The tests made so far by the users of the free samples, show that these remarkable pills produce favorable results with a degree of quickness heretofore unknown in the treatment of Kidney, Bladder and Blood diseases, and allied ailments.

Those who have used them have been encouraged to persevere with the treatment, knowing that they could not expect the three days treatment contained in the sample box, notwithstanding the remarkable results obtained so far, would effect a complete cure. Kidney disease is of imperceptible and insidious growth; it takes months to develop even the symptoms. Reason and experience suggest that it takes more than a few days to cure. Fortunately, Dr. Hobbs Spargus Kidney Pills begin the good work of cure with the first dose. The results are evident from the beginning. The delightful effects of these Pills induce the patient to continue their use until cured. They are easy to take, easy to buy, easy to get, and bountiful in good results.

DR. HOBBS SPARGUS KIDNEY PILLS, FOR SALE BY L. W. MCCONNELL & CO., DRUGGISTS, MCCOOK, NEBRASKA.

Our method of instruction by mail is highly recommended by our patrons. Send for testimonials and list of names and addresses of students. It is free. The American Business College, Omaha, Nebraska.

To Cure a Cold in One Day. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c.

FOR ALL WOMEN NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

A RECOLLECTION.

It was indeed a perfect day. I scarce recall the weather, but autumn calm and bloom of May seem mingled there together. Then melody made sweet the hours. Each sentence was a ballad. The rocks were jewels, weeds were flowers, when Mary dressed the salad.

No formal scene whose blandishment will welcome best us. Can have the fascination lent by that small sprig of lettuce, and vainly must musicians toil. From stage or festival wagon. For tones like those with which the old came loitering from the fagon.

Strange how these merchant chemists mar each once alluring savor! How tasteless is the vinegar! How dull the pepper's flavor! Ofttimes when sterner moods are planned. Those memories come pressing— That salad day, the sunshine and The girl who made the dressing. —Washington Star.

THE RETIRED BURGLAR.

A Meeting With a Gentle Hearted Woman Backed by a Feroceous Dog.

"At the foot of the stairs in the front hall of a farmhouse one night," said the retired burglar, "I stumbled over something soft that turned out to be a feather bed. I had had a grain of sense at all, I should have suspected something from that, but I didn't. It looked as though it had been just tumbled down stairs and left there to be carried off in the morning, and I let it go at that and stepped into it and over it to the first step of the stairs and on up.

"Stepping up on the fourth step, I kicked against a string stretched across the stairs and broke it. That made me suspicious, but I never connected the feather bed at the foot of the stairs with it. I looked up. I expected it to be connected with something there. And it was, and it was coming down the stairs at me and filling up the whole stairway. It was a big feather bed. Even then I didn't see that the one coming down had anything to do with the one down on the floor, and at the same time I couldn't understand why anybody should roll anything like a feather bed down on anybody—bulky, to be sure, but so light that it was an easy thing to stop.

"I put up my hands to stop this one, but might just as well have tried to stop a mountain. It was soft and squishy on the outside, but it weighed a ton. It just bowled me right over backward, and I fell on the other feather bed at the foot of the stairs. Then I began to understand what that one was for. It was to save the bones of the man that was tumbled over by the avalanche bed.

"I lay there nearly smothered by the bed on top and working out from under it gradually.

"I hope you are not hurt?" I heard somebody say from over the railing along the hall up stairs, and I said, "No, ma'am," because it was a female voice, and I am always polite to the ladies, "but would you mind telling me what's inside the one that came down?"

"Oh," she said, "it's the summer range, with the flatirons inside. Can you lift it off, or shall I let the dog come down and help you?"

"And with that I heard a dog scratching up stairs. I supposed it started him up to hear himself spoken of, and I judged from the sound of his claws on the carpet that he must have been about the size of a tiger and of about the same kind of disposition.

"No," I says, "I can get clear of it." And I did and stood up in the hall.

"You won't carry off the other one, will you?" she said.

"And hearing the dog still scratching up stairs, I said, 'No, I won't.' And I didn't. The lady appeared to be gentle hearted enough, but I knew you couldn't trust the dog."—New York Sun.

Energy From Volcanic Heat.

The energy stored in the coal beds has rightly been referred back to the sun, and it is no doubt to the same source that we should ultimately attribute the heat developed at great depths below the surface of the earth. While it is believed that no practical attempts to utilize this subterranean heat have yet been carried into effect, there appears to be no good reason why the attempt should not be made, especially in volcanic regions, where quite high temperatures should be revealed at moderate depths.

In a Colorado mining town an interesting combination was recently observed which a little ingenuity might have converted into a considerable source of power. Within 20 feet of each other were two springs, one of a temperature of nearly 200 degrees F. and the other not over 60, the flow of each being very uniform and the temperature quite constant. The theoretical efficiency might readily be determined from the well known law of thermodynamics, and the use of one stream to vaporize and the other to condense some volatile liquid, such as ammonia or bisulphide of carbon, might enable a fair percentage of the energy to be utilized which is now running to waste.—Cassier's Magazine.

She Had a Reason.

"I don't believe Sallie can know that rich old Brown or she'd never marry him in spite of all his money."

"Why not?"

"He has such a violent temper."

"Oh, that's all right. That's why she has been giving so much time to gymnasium work lately."—Chicago Post.

Strikes occurred centuries ago, and their outcome was just as disastrous as is that of the present day work struggles. In the year 1329, says an old paper, a strike of brassworkers was initiated in Breslau, Silesia, which lasted a year.

St. Moritz, Switzerland, has the champion toboggan slide of the world. It is three-quarters of a mile long and has been descended in a whiz of 71 seconds.

Your attention is directed to the advertisement of the American Business College, Omaha, Neb., which appears in this issue. They offer to give a thorough course of instruction in business branches by mail free of charge for advertising purposes. This is a rare chance. The A. B. C. is one of the most successful business colleges in the United States, and to take a course with them means success.

Owing to over-crowding and bad ventilation, the air of the schoolroom is often close and impure, and teachers and pupils frequently suffer from lung and throat troubles. To all such we would say, try Chamberlain's Cough Remedy. For coughs, colds, weak lungs and bronchial troubles no other remedy can compare with it. Says A. C. Freed, Superintendent of schools, Prairie Depot, Ohio: "Having some knowledge of the efficacy of Chamberlain's Cough Remedy, I have no hesitation in recommending it to all who suffer from coughs, colds, etc." For sale by L. W. McConnell & Co., Druggists.
