Suit for damages has been commenced by Mrs. Lotta against those who have been active in prosecuting her. The cash receipts of the Shelton station on the Union Pacific during the month of October were \$28,000. This, of course, is unusually large, and was due to the fact that 200,000 sheep were unloaded there during the month, to be fed during this month and billed out in the spring. Not an idle man in town today, says the Superior Journal, unless idle from choice. Three farmers were in town between 7 and 8 o'clock inquiring for hands. Among them they wanted six hands, and could find but one. The number of cattle and sheep fed in this vicinity, says a Fremont dispatch, exceeds that of any previous season. It is estimated that over 80,000 sheep will be fattened on Dodge county corn and hay this winter. The number of cattle being fed is difficult to estimate, but from the cattle feeding mortgages filed it is probably 20 per cent over the number fed last year.

FATE OF AMERICANS.

TWO OF THEM MEET DEATH IN SOUTH AFRICA. Their Bodies Mutilated by the Natives—Chopped to Pieces With Knives and the Savages Quarrel Among Themselves for the Remnants. Met a Horrible Death. WASHINGTON, Nov. 23.—The startling and horrible story of the killing of two Washingtonians and the mutilation of their bodies by the natives of the Congo Free State, has just been received here in a letter to Mr. Leo Harmon, of 1723 North street, N. W. The men were members of a party which, during November and December, 1894, and January, 1895, went from this city to enlist in the Belgian army for service in the Congo Free State. Those enlisted included Edward Thornton, a commissioned officer in the National Fencibles, employed in the war department; Lindsay G. Burke, Frank Batchelor, Harry R. Andrews, Barry Sparlin and Mr. Mellin, who was at one time a non-commissioned officer in the United States army. All except Thornton and Mellin were members of the National guard of the district. The information received by Mr. Harmon is that Burke and a party of fifty natives who were sent out to dislodge a band of dwarfs who had revolted, were ambushed and killed. An Arab who was with the command, but was some distance off at the time of the ambush, states that the natives reached him and that the most hideous looking man he ever saw walked up and cut Burke's head off with one blow of a knife. The chief then began to slice pieces of his legs and arms and distribute them among his followers. There were so many of the fiends that the pieces were very small, and before they had concluded there was a free fight to see who could get the little remaining. In some manner the dwarfs became alarmed and left the place, one fellow carrying off Burke's arm. The Arab saw the cause of their alarm, as Windey, a New Yorker, who had command of another detachment of soldiers, sent out on the same errand, arrived right after the natives left. Windey gathered up the remains of Burke and buried them. When Windey learned the strength of the rebels he hurried back to Michau and notified the commandant of the post. The other Washingtonian who lost his life was killed on March 1, when the troops under the command of Baron Dhanis, revolted near Kabanbarre and assassinated a number of officers of their regiment, among them being Mellin. The body of Mellin was butchered almost beyond recognition, his heart having been cut out and burned so that his courage could not be used against the rebels by the whites. It is their belief that unless the heart is burned and the ashes scattered to the four winds the spirit of the man descends to his brethren. Thornton is said to be in a very precarious situation at Baska, but a relief expedition has been sent to his rescue. Gage, another American is very sick with the fever at Nyangine. The killing of Burke occurred in December, 1895. Pettigrew to Oppose Annexation. HONOLULU, Nov. 23.—Senator Pettigrew of South Dakota and ex-Senator Dubois of Idaho will leave for San Francisco today. Both men are practically against annexation. It is a change of front on the part of Dubois. When he was a member of the senate L. A. Thurston, who was then Hawaiian minister at Washington, remarked and repeated frequently that Senator Dubois was one of the most enthusiastic supporters of the annexation proposal. In a recent speech before an audience of Hawaiians at Hilo, Hawaii, Pettigrew said: "We come to your island for the purpose of ascertaining what the people who live in this country thought about the question of annexation of the islands, and also to see what we could learn about the desirability of annexing these islands, if we so desire. I have supposed that many of your people were in favor of annexation, because it has been so represented, but I have talked to many and I have failed to find a native Hawaiian who is not opposed to annexation to the United States and in favor of your own government. I shall tell what I have seen and what I have heard in the senate when the question comes up. I should do that even if I were opposed to what you want done, but I am not opposed to it." Four native Hawaiians will leave for Washington tonight to work against annexation. Robert Wilcox, who was to be one of the party, has decided not to go. He says he considers the trip a waste of time. A Sunday School Army. NEW YORK, Nov. 23.—Rev. Dr. James A. Worden, superintendent of the Sunday school department of the Presbyterian church in this country, has begun a movement to celebrate the opening of the twentieth century. His idea is to recruit the Sunday school army of his church so that instead of 1,600,000 members, as at present, it will consist of 1,500,000. He wants this work of enlisting the 500,000 of reinforcements completed by April 1, 1901, the beginning of the church year in the first year of the next century. He has worked out an elaborate plan and has urged the prosecution of a vigorous campaign throughout the union for the next four years. Alcier Denies the Report. WASHINGTON, D. C., Nov. 23.—Secretary Alger said that he had not received any letter from General Miles of the purport stated in the recent dispatch. Port Townsend is one of the frontier sites at which the government is contemplating making some improvements in the way of fortifications, and the secretary suggests that the presence there of engineers in making surveys may have given the impression that the government was about to locate troops at that place.

TALK OF ALASKA.

Gov. Brady Suggests a Commission to Visit the Country. SEATTLE, Wash., Nov. 23.—In an interview Governor John G. Brady of Alaska said: "The business men and officials of Alaska are concerned in effecting some change of amplification of the laws as they are at present in force. They will combine to submit to congress a proposition to authorize the appointment of a committee which will consider the needs of Alaska on the ground. My idea is that the commission should consist of a senator, a representative, and three bona fide residents of Alaska. If we are able to get a commission something may be accomplished for the good of Alaska. Otherwise time devoted to Alaska will be frittered away in the consideration of individual bills of no benefit to the country as a whole. "Many think Alaska should have a territorial form of government. The objections to this are manifold, chief among them are the sparse population of the country. A territory means taxation, and the people are not there to be taxed. It would be of little avail to submit to congress resolutions for a change in the code now in existence. These things must be investigated by a commission which can ascertain the needs of the people by personal examination. We want an extension of the land laws, the regulation of the fish industry, the naturalization of the natives, the right of appeal and laws for the preservation of game. "The smuggling evils must be dealt with by the commission. Last year 21,000 gallons of Canadian whisky were smuggled into Alaska." Governor Brady thinks that Alaska will be as great an agricultural and farming country some day as a mining one. His trip to this city is on private business. He will not go to Washington to attend the coming session of congress as has been reported. Food Short at Dawson City. SEATTLE, Wash., Nov. 23.—Twenty-five men arrived here today on the City of Seattle direct from Dawson City. The party consisted of Thomas Magee, sr., Thomas Magee, jr., of San Francisco; "Swift Water Bill" Gales, Joe Boyle, William Luskin, E. Eckert, H. Robertson, H. Raymond, Bert Nason, John W. Brauer, W. H. Chambers, E. W. Pond, F. Ash, J. Gillish, Thomas Wilson, P. McGraw, Jack Dalton, William Leak, Arthur Celine, Joseph Erburn, J. Smith, T. Warren, are not known. They came out over the Dalton trail. They are reported to have between them \$20,000 in gold dust. All tell stories of a food shortage in Dawson that is almost a famine. The last person to leave Dawson was Jack Dalton. When he left the steamers Alice and Bella had reached there loaded light. It is said that the Bella's cargo consisted of whisky and billiard balls. It brought no provisions. The Canadian mounted police chartered the Bella and gave all who wished a free pass to the Yukon. The Bella is reported to have left October 12 with 200 men. A French General Dead. PARIS, Nov. 23.—General Forgemol de Bostquenard is dead. He was in his 77th year. General Forgemol de Bostquenard was born at Azerables on September 17, 1821. After completing his education at the Ecole de Saint Cyr in 1839 he went into the military service in France in Algeria, where he passed the various grades of promotion up to the colonelcy, which he reached in 1870. When the Franco-Prussian war broke out he was recalled from Algeria and appointed general of brigade, being subsequently confirmed September 16, 1871, in command of the sub-division of Alsace, with the collateral rank of secretary of the superior council of war. United States and Hayti. FERLIN, Nov. 23.—The state department at Washington has requested United States Ambassador White to ascertain exactly the intentions of Germany with respect to Herr Leuders, whose recent imprisonment in Hayti has caused friction between the Germany and Haytian governments. Mr. White has been instructed, if any scheme of annexation exist, or if there is an intention to make an excessive demonstration with a view of finally punishing Hayti to intimate to the German government that the United States could not tolerate either of the courses mentioned, though in principle having no objection to Germany obtaining satisfaction. Hunters Kill a Desperado. BUFFALO, Nov. 23.—A dispatch to the News from Mattawa, Ont., says: Samuel Tongue and William Dow, two prominent citizens of this place went to Lake Pelee a week ago on a hunting expedition, and returned home yesterday. They reported that they had shot and killed James McConnell, a notorious desperado, who has terrorized the settlers of Nipissing district for many years. McConnell attacked them while they were crossing the lake and in self defense Tongue shot him through the stomach. McConnell died a few minutes later. Settlers in the vicinity are rejoicing over his death. Col. Chipley May Die. WASHINGTON, D. C., Nov. 23.—Colonel W. D. Chipley of Florida, who was operated on for a carbuncle several days ago, is in a very critical condition and it is feared that his illness will terminate fatally. Mrs. Chipley and the colonel's son and daughter have arrived in the city. The Frotest Overruled. WASHINGTON, Nov. 23.—The secretary of the interior today affirmed the decision of the commissioner of the general land office in the case of John Lawrence, jr., vs. August Gruner, from the Alliance land district of Nebraska. Gruner's timber culture entry is held for dismissal on the ground that his allegations of non-compliance with law as to tree planting and abandonment, were not proven. Gruner's entry will, therefore, pass to patent. The national republican headquarters in Washington will remain open.

FOREIGN NOTES BY CABLE.

The Constantinople correspondent of the London Standard learns that the trade on the subject of the much discussed plans of Turkey commands the minister of marine, Hassen Pasha, to contract with Herr Krupp to build four new ironclads, but gives no instructions as to the repairs of the old vessels. He says: "If this be true it is probable that Germany has indeed Russia to consent. It is said to be the present intention of President McKinley to incorporate the recent Spanish correspondence in his annual message to congress. He does not deem it compatible with the public interest to publish the full text of the notes, pending further correspondence and the carrying out of the promises made by the Spanish government. A Council Bluffs inventor last week obtained a patent through Sues & Co., Omaha Patent Solicitors, for one of the simplest inventions that has ever been issued out of the patent office and the inventor is working day and night in order to fill orders. The invention comprises a sounding toy and is nothing more or less than a simple piece of round sheet metal which is stamped with a series of rings and provided with a border, but which if placed in the palm of the hand and vibrated emits a loud sound similar to a telegraph sounder, the invention being known as the cracked jack telegraph. The inventor last week was 2,000 gross behind in orders. Free samples of this invention may be had by addressing Sues & Co., Bee building, Omaha, Neb.
