when I commenced using your wonderful "5 DROPS," as I feel truly grateful to think that our heavenly Father has endowed you with the knowledge to bring out such a wonderful medicine as your "5 DROPS." I was a great sufferer for about four years. I was taken sick with vomiting and cramps and dizziness, so I could not sit up a minute, so they had to carry me in where I fell. Then I employed one of our city doctors; he said I was all broken down, and that I would never be able to work again; then I kept getting worse, and I employed another, and he said about the same. After a while I got a little better, then I was taken with cramps and pains in my elbows, hands, knees and feet. The torture of the pains was so great that I had to walk the floor night and day. I employed another doctor, and when he would say he could do no more for me, I would employ another and another til I had employed It different doctors, and had used every kind of patent medicine I could hear of. My teeth are all gone from the effect of the strong medicine. Some of the doctors said It was my kidneys, some said it was my liver and kilneys, and some called it Rheumatic Gout. My friends would say that I could not live a week. Two years ago my sister-in-law came from Nobraska to see me, and she said when she went away that she would never see me alive again. Thank God she is here again to see me, and she had just one look at me, then she said. "What did you ever get to do you so much good!" for she says: "I expected two years ago every letter I got to hear you were dead." All I can say is, it was wonderful—"5 DROPS" did it all. When I was taken sick I weighed about 150 pounds—I ran down to about 75 pounds, and I could not feed myself and had to be turned in bed. I now have taken your "5 DROPS." Now, if you want any more I can give it, and I can get testimonials from prominent men.here that know just how I was.

LIGHTING NIAGARA.

Monster Searchlights and Gelatine Screens to Illuminate the Gorge.

of the Niagara river, which was tried in connection with the convention of electricians, is likely to bear important results and has furnished a spectacle of extraordinary magnificence, says the Rochester Post and Express. The illumination was arranged under the personal direction of Luther Stieringer, the man who designed and operated the illuminations and electric fountains at the World's Fair. On the platform car, between two open cars, he took six monster electric searchlights and a number of colored gelatine screens. At 10 o'clock in the evening the start was made down the Gorge road. The search lights took their electricity from the trolley wire and when they were directed upon the shores and tumbling river, and the lights in the open cars were turned off, the scene was rarely beautful. It looked as though such (moon) "light as never was, on land or sea," had transformed the scene. But as the cars moved on and Mr. Stieringer changed the screens, far more magical, wonderful and startling effects were secured. Now it looked as though one were seeing with Dante eyes, so red and fierce was the scene, and so darkly red the shadowy banks between which the river tossed waves of blood. Further down, beneath the new steel arch bridge, where the furious rapids were tossing the spray fifty feet or more in the air, red and green lights were used. Then the plain lights were shown again and then, where the rapids are strongest and wildest, the red screens were used with an effect whose wierdness the contrast vastly heightened. So impressive was the spectacle that for several minutes there was absolute silence in the cars and then a cheer of admiration broke out. From that point to the end of the road the colors were changed rapidly, with beautiful effect, and at midnight the party returned to the falls. It is said that the success of the experiment insures the illumination of the gorge by searchlights next season and that means the addition to the attractions of Niagara of a wonderfully thrilling night spectacle and one which, once seen, will not be forgotten. Former visitors to Niagara will re-

call that when the state reservation was private property there was for the last season or two a successful illumination of the upper rapids and of the falls themselves and a heightening of their wildness and weirdness and beauty by a similar use of colored screens. The scene was one to remember and Niagara visitors have reason to congratulate themselves that private enterprise again proposes thus to enhance the night wonder of Niagara. For you may croak as you please about "natural" beauty, nature is too prone to veil her beauty at night; and if esthetes be shocked at an artificial coloring of the water and find no compensation for loss of naturalness in such bewildering riotousness of color and grotesqueness as one can hardly dream of, even they-must approve the lights which make visible the natural beauty when darkness would otherwise veil the scene.

An Accidental Gold Find.

Apropos of the recently reported rich gold finds in Alaska the accidental strike on the Payette river in Idaho, seventy-five miles from Boise City, may be recalled. Two men named George Bell and Dick Fraser were 'grub staked" to go out on a prospecting tour. They skirmised around for some time without striking anything. One day Fraser went out hunting and chased a bear and a cub up a mountain side through heavy brush. The game escaped, and Fraser sat down to enjoy a brief siesta before returning to camp. He pushed the brush aside, and was digging thoughtfully in the dirt with his fingers when he picked up a piece of rich float. He did not know what it was, but it was a nice specimen of something, and he put it in his pocket. He stuck his pick into the ground and encountered an obstruction in the shape of a lead. Going to camp, he showed the piece of quartz to Bell, and further investigation showed the latter that it was worth looking into. A small quantity of rock was taken out and brought to Boise to be assayed. It went \$138 a ton gold.-Exchange.

It Brings Ravishing Dreams of Bliss. From the San Francisco Call: In Southern Arizona the jail and prison officials have their hands full in trying to prevent the smuggling into their institutions of the seductive mariguana. This is a kind of loco weed more powerful than opium. It is a dangerous thing for the uninitiated to handle, but those who know its uses say it produces more ravishing dreams than opium. The Mexicans mix it with tobacco and smoke it with cigarettes, inhaling the smoke. When used in this way it produces a hilarious spirit in the smoker that cannot be equalled by any other form of dissipation. When smuggled inside the prison walls the Mexicans readily pay \$4 an ounce for it, but free men buy it on the outside for fifty cents.

The Kaiser's Employes. There are 1,500 people upon the German emperor's list of employes, including 350 female servants, who are engaged in looking after the twentytwo royal palaces and castles that belong to the crown. Their wages are small. The women receive not more than \$12 a month, and the men servants, who number over 500, from \$15 to \$25 a month.

Poe Not a Drupkard.

Major Drury, who lives at a historical old seat on the James river, a few miles below Richmond, was a schoolfellow and personal friend of Edgar Allan Poe. During the poet's short and sad life Major Drury was his staunch friend, and, although poor himself at that time, he often helped him financially. He says that Poe was not a drunkard, as has often been charged, but, on the contrary, seldom drank spirituous liquors.
