The Hawalian Treaty Again to Be Discassed-Senator Morgan Will Take the Lead in the Speech Making-The Matter of Confirmation of Attorney General McKenna, etc.

# A Busy Week.

WASHINGTON, Jan. 17 .- The Hawaiin annexation treaty will again this week occupy the major portion of the time of the senate. It appears improbable, however, that the treat/ w.ll be taken up on Monday. There is a unanimous agreement to vote on the immigration bill during the day and it is altogether probable that this vote will be preceded by some discussion of the merits of the bill. The friends of the measure are confident of its passage, but they are not very hopeful of getting it through without further debate.

S .ator Wolcott has given notice of his intention to address he senate on Monday, when he will make a report of the transactions of the recent in ernational bimetallic commission. Mr. Wolcott has never given extended public utterance concerning the commiszion's work and there is very general in evest manifus ed as to the course he may pursue in his speech on Monday. When the senate resumes considera-

tion of the Hawalin treaty, Senator Morgan will consume at least another day in the presentation of his views in favor of annexation. He will be followed by Senators Pettigrew and White in opposition to the treaty, and by other senators for and against it. There is no hope that the discussion will be concluded during the week. A

great many senators wish to speak, and as the result of the vote is as uncertain as it is at the present, neither side will allow the vote to be taken. The senate has agreed to vote on the

confirmation of Attorney General M:-Kenna as associate justice of the supreme court on next Friday, and the probabilities are that this vote will be preceded by some discussion as to Mr. McKenna's merits.

The urgent deficiency appropriation bill will be in all probability reported on Monday, and there may be an effort to secure it a consideration during the week.

The house is likely to become the arena for a general discuussion of our foreign relations in connection with consideration of the diplomatic and consular appropriation bill during the the present week. The Cuban situaticn, the annexation of Hawaii, and the designs of the European powers toward China, will of course, be the conference of the midle-of-the-road principal topics to attract attention. tended debate on Cuba precipitated at The house managers do no want an exthis time, but the minority is determined to press the question during the consideration of this bill. It believes the time is particularly opportune, owing to the anti-autonomy feeling in Havana. Tomorrow is District cf Columbia day, and on Tuesday the consideration of the army appropriation bill will be resumed. This is likely to be conclued Tuesday, after which the consular and diplomatic bill will probably consume the remainder of the week.

# He Peacefully Passes Away Surrounded by His Family.

CINCINNATI, Jan. 17 .- A special to the Commercial-Tripune from Thomasville, Ga., says that Hon. Benjamin Butterworth, United States commissioner of patents, who had been ill at Pineywoods hotel there for several weeks, died at 3:15 yesterday afternoon. The end was peaceful and when it came his wife and children were at his bedside. He came here to recuperate from at attack of pneumonia, and recovered rapidly until two weeks ago, when he suffered from uremic convulsions. From that relaps, never recovered. His body will sent to Washington tomorrow.

BEN BUTTERWORTH DEAD.

Benjamin Butterworth was what is known as a "birthright Quaker." Those who knew him best during his busy career are unanimous in saying of him: "His daily life was as exemplary of the tenets of that good, old faith as that of any public official could be.'

He was born in Warren county, O., October 22, 1837, was a member of the state senate of Ohio, from Warren and and Butler counties in 1873-4. Mr. Butterworth was elected a representative in congress of the First Ohio district, including the city of Cincinnati to the Forty-sixth, Forty-seventh, Forty-ninth, Fiftieth and Fifty-first congresses. From then until appointed to the position he occupied at his death he devoted most of his time to the practice of law, especially patent law, in this city,

"Ben" Butterworth, as he has always been best known, spent his earlier years round about Baineville and Foster's Crossing-the latter a little station on the Miami railroad. His father was William Butterworth and ... is mother a Linton, a family noted throughout the entire line for their keenness of intellect, powers of perception and strength in speech and debate. Both parents were of Quaker ancestry. Major Butterworth's keen intellect and remarkable powers of perception were inherited from his mother.

WASHINGTON, Jan. 17 .- In Washington no less than in his native state Major Butterworth (njoyed a wing acquaintance and great populaty, and the news of his death, while by no means unexpected, will cause general sorrow here. No public man probably had a larger circle of friends at the capitol. He contracted his fatal illness while on the stump in the late Ohio campaign. No information has been received as to the time or place of the funeral.

# A PRIVATE BILL DAY. WILL TRAVEL ALONE.

# HOUSE TAKES A REST ON CU-BAN SPEECHES.

The Invitation of Norway for Participation in the International Fisheries Exposition-The Amendment to the Agricultural Bill-Proceedings Yesterday in the Upper Honse.

# Avoiding Cuban Debate.

WASHINGTON, Jan. 15 .- The House managers decided not to proceed with the consideration of the diplomatic and consular appropriation yesterday, but to give the day for the consideration of private bills. This was doubtless done to avert the possibility of precipitating a sensational Cuban debate during the consideration of the appropriation bill. Inflammatory speeches during the present critical state of affairs in Havana would, the conservative leaders believe, be particularly unfortunate.

When the house adjourned Thursday night the amendment to the agricultural appropriation bill providing for the publication of another edition of the "Horse Book" was pending. Yesterday the friends of the amendment compromised with the appropriations committee by agreeing to a reduction of the number to be printed from 1..., 000 to 75,000. As amended the bill was passed.

The resolution accepting the invitation of the government of Norway to participate in the International Fisheries exposition at Bergen from May to September, 1898, was called up by Mr. Simpkins (rep., Mass.). Mr. Cannon, chairman of the appropriation committee, said he thought on the exposition question congress was running wild. We had had domestic expositions at Philadelphia, Chicago, New Orleans, Cincinnati, Louisville, Atlanta and Nashville, and were now about to have one at Omaha. Abroad we had participated in the expositions at Vienna, Paris, Berlin and Brussels, The anxiety of would-be commissioners to have the honor and glory of our country represented at these foreign expositions was agonizing. Now here came this exposition at Bergen. Twenty thousand dollars to be appropriated now. If this resolution passed congress would be called upon to foot the bill for a deficiency of \$20,000. He gave it as his deliberate judgment that the interests of the United States did not require our participation in this exposition. If we did our duty by the Paris exposition that would be enough. After some transaction of some rou-

tine business in the senate yesterday. Mr. Hoar, of Massachusetts, presented

# Middle of the Road Populists Form a

New Organization. ST. LOUIS, Jan. 15 .- A new party was born in the conference of the populists and named the People's party.

The People's party proposes to go 1: alone. It has severed all connection with the national populist committee and made all arrangements for administering its own estate without the aid or advice of any outside party.

With a few exceptions, the delegates declared themselves unequivocally in favor of going it alone in the future. The referendum system was most highly complimented and recommended for use among the middle of the roaders in settling matters of national importance to the order, and there was a practical agreement among the delegates that a national presidential convention should be held this year.

There was lengthy discussion, and it was not until a late hour that the proceedure for future action was agreed upon. Finally a report was adopted as follows in part:

To the People of the United States: The fusion movement consummated at St. Louis in July, 1896, and the treatment of our candidate for vice president in the campaign that followed, gave rise to such dissension among the rank and file of the People's party as to threaten the absolute dismenberment of the only political organization honestly contending for the social and political rights of the laboring and producing classes of the country.

It has been the purpose always of the committee to be courteous to the national committee, and our supreme desire has been at all times to promote a harmonious co-operation with said committee, that factional differences might be obliterated, our party prestige regained and our organization restored to its once splendid estate. This comm' tee feels confident of its ability to show that it is no fault of ours that the national committee is not present as a body to-day, but it does not choose to waste valuable time in wrangling over questions of official etiquette.

We avow it to be our sincere purpose now, as ever heretofore, to promote in very hnorable way the reform movement on true populist lines, and we deem the issues too momentous and the dangers threatening free government too great to allow us to pause to consider personal grievances or affronts, or to permit wounded dignity, real or imaginary, to overshadow patriotic duties.

Under present conditions our beloved organization is slowly but surely disintegrating and our comrades are lamorous for aggressive action.

WASHINGTON, D. The Cuban situation, the annexation of Hawaii and the designs of the European powers toward China will of course be the principal topics to attract attention.

The house managers do not want an extended debate on Cuba precipitated at this time, but the majority is determined to press the question during the consideration of this bill. They believe the time is particularly opportune, owing to the anti-autonomy feeling in Havana.
